Single-phase

Highlights

- Compact
- Versatile
- Robust
- Contemporary design
- Advanced communication
- Auto restart
- Battery swap
- ECO line environmental protection

The iPLUG series is the ideal solution for household, and small office systems. Its compact size and versatility, push-button operation, LED status panel and user replaceable batteries – make iPLUG easy to install within a domestic environment to protect systems from surges and blackouts.

When mains power fails, the load is powered by the pseudo-sinewave inverter and built-in battery.

PowerShield³ UPS monitoring and control software can be used for an orderly

unattended shutdown of IT systems. PowerShield³ can be downloaded free of charge from www.riello-ups.com

Versatile, robust and contemporary design
iPLUG's compact and ergonomic design allow the UPS to be easily used within professional and domestic environments. iPLUG is extremely versatile and its innovative cable management feature ensures a clean, easy to manage installation.

Advanced communication

PowerShield³ software for the safe and unattended shutdown of connected IT systems on mains power supply failure. PowerShield³ provides efficient and intuitive UPS management using bar chart displays for important operating information.

Automatic restart

The UPS automatically restarts when the mains power supply is restored, after auto power.

ECO Line environmental protection

iPLUG features a unique shut-off button to reduce energy consumption during periods of prolonged inactivity.

Applications

LCD monitors, personal computers, VDUs, printers, scanners and faxes.
