TRAINING & ADVISORY LTD

BESPOKE MOVING & HANDLING SOLUTIONS EXCLUSIVE TO THE SPECIAL EDUCATION SECTOR

WE HAVE BEEN A KEY TRAINING PROVIDER OF MOVING AND HANDLING TRAINING TO SPECIAL SCHOOLS FOR OVER 20 YEARS.

Our mission is to meet the unique challenges school staff face with moving and handling skills and budget limits rather than being constrained by them. We continue to support schools by providing flexible and extremely cost-effective training options, be it, specific use of moving & handling equipment training, basic principles of moving and handling, train the trainer training (accredited at Level 3 on The Regulated Qualifications Framework) or blended learning.

to learn the underpinning knowledge required, prior to partaking in video conferencing training to learn the practical elements. This approach offers bespoke skills training to the school, the staff, and the pupils.

Our blended solution is an extremely cost-effective way to train. Our online course is only £14.95 per learner for a 12-month licence and the tailored video conference training is costed per half hour utilised.

Most schools adopt our blended learning solution, whereby their staff complete our sector specific online People Moving People theory course

We have many testimonials from schools in respect of all the options on offer, please contact us or visit our website to access them.

To view all the courses we offer to your sector or to view a free demo of our online theory course which is bespoke to special schools please visit - www.solutionstraining.co.uk/sectors/special-education or contact Mandie Pearson: mandiepearson@solutionstraining.co.uk - 07751645724
