Save money and let Action Handling service & repair your lifting / handling equipment onsite rather than buying New!!

Action Handling offers a full maintenance & repair service and Contract Packages to suit.

This is in addition to our extensive catalogue range of 12,000+ products and our fully operational Steel Fabrication unit,

All servicing and repairs are carried out onsite and we will ensure that it is convenient to your operation. For example, we can take 1 Unit at a time to be worked on which will minimise downtime and cause minor impact for the daily running of your business.

We service all makes and models of Pallet Trucks and the majority of other Handling Equipment brands. In addition to Pallet Trucks, we also service & repair scissor lift tables, stackers, roll cages and can fit wheels and castors to safety steps and hand trucks.

Our engineers will have your equipment up and running in no time. If any goods are deemed beyond economic repair we will advise you before we carry out any repair work. All parts we fit come with a 12 month warranty and will be identified on a worksheet.

All work is carried out under LOLER regulations, where applicable. This guide provides information about the legal requirements of the lifting operations and lifting equipment regulations 1998 (LOLER) which came into force on the 5th December 1998.

"What equipment is covered by the LOLER regulations?"

Lifting equipment includes any equipment used at work for lifting or lowering loads, including attachments used for anchoring / support.

We cover the whole of the UK mainland. Please contact our sales team for a consultation and quotation for your own requirements. You can reach us on; 01279 724989 or sales@actionhandling.co.uk
