Defence Solutions

Premier Modular Limited is a leading manufacturer and supplier of modular buildings demonstrating a history of quality solutions over a 60-year period. Our defence buildings offer building solutions to all levels of military building projects with no project being too large or too small. We are able to engage fully as a supply chain partner or as a main contractor and can respond to the constantly evolving and modern military estate. We understand that speed of response and future flexibility are important

requirements. We design, manufacture and deliver buildings from single-storey buildings through to complex multi-storey solutions. Our defence building solutions provide comfortable and practical places to both live and work. We are able to provide building solutions to projects ranging from rehabilitation wards to large scale garrison accommodation units, together with a variety of offices and ancillary buildings, for MoD sites across the UK; for example:

- Living accommodation
- Offices & briefing rooms
- Training rooms & lecture theatres
- Computer & communications suites
- Workshops, storage & plant rooms
- Canteens & kitchen facilities
- Gymnasiums, changing rooms, showers & toilets
- Medical rooms, hospital wards & operating theatres

Why Modular?

Approach

Compared to conventional on-site building methods, our modular approach is quicker, reducing overall project time by up to 50%. It also enables us to more tightly control build quality, programme timescale and costs. Off-site construction significantly reduces site disruption and safety risks, especially important where residents, staff and visitors may continue to use areas around the building site.

Specialist Design

- Highly efficient 3 and 4 storey light gauge steel systems
- Diverse range of roof and cladding systems
- Robust floor and wall construction
- Full mechanical and electrical service
- High quality living spaces
- Glazed atria and lightwells

Innovation

- Less site disruption
- Shorter programmes
- Safer sites with less health & safety risks
- Fewer deliveries to site
- Flexible bespoke designs to suit the client requirements
- Higher quality finishes
- Lower carbon footprint
