Bespoke Accessories

SWITCH ON YOUR IMAGINATION

With Focus SB you no longer have to accept standard off the shelf electrical accessories. We put you in control so you specify exactly the accessories you want and need, from initial design and manufacture of prototypes, to short run or mass production. We boast an in-house design and engineering division who are experts in tool design and manufacture and are ready to turn your ideas into reality.

Period refurbishment and themed designs

If you are designing a themed interior, or recreating a period style, we can help you produce electrical accessories to complement your design. Refurbishing an authentic period interior with all of today's modern conveniences always used to be a compromise. Now with Focus SB bespoke electrical accessories you can give your customers exactly what they want in a complementary style.

Custom shapes

We can create designs to fit standard back boxes but, if required, we can also create non-standard back boxes. You no longer need to just think rectangular or square, we are only limited by your imagination.

Custom controls

You tell us what controls you want and we will help you achieve the functionality you want. With over 3000 components available to us we are sure to meet your requirements.

Items could include international power socket outlets, audio visual controls, security systems, remote functionality, computer and internet connections and telecommunications.

Custom displays

LCD displays can be printed or engraved with the required control information in the font and colour of your choice, along with a corporate logo or motif.

Hotel Accessories

Now you can have tailor-made electrical accessories to suit the layout of your hotel rooms and the needs of your guests.

With our in-house design and engineering service, we can manufacture exactly the accessories you want, including American and European sockets all finished to the highest possible standards. Choose from our extensive ranges and finishes.
