## HIGH DENSITY & LONG SPAN SHELVING SYSTEMS

### High Density

Medstor easy build high density shelving provides a simple alternative to storage cabinets especially where good air flow is a requirement. The side pieces are bolted to each other with a series of distance pieces. A fully adjustable system - the horizontal hook on PVC runners can be positioned in pre-drilled locations along the full height of the side pieces giving full space utilisation. Angled runners are also available for gravity feed.

### Long Span Shelving

For bulk storage the steel long span shelving has a safe working load of 250Kg per shelf. Adjustable metal corner brackets locate into pre drilled holes in the uprights of the shelving end frames. The long span shelves fully integrate with the medstor high density storage system. They are bolt free and can be easily adjusted.

## Specification by Bay

Both high density and long span shelving are available in a choice of 400mm or 600mm depths.

### High Density

Each run/section of shelving requires a **Starter Kit M06780001** for 400 mm deep / 600 mm facing. **M06770001** for 600 mm deep / 400 mm facing.

To which can be added any number of **Bay kits**.

**M06780009** for 400 mm deep / 600 mm facing. **M06770009** for 600 mm deep / 400 mm facing.

Each bay kit is complete with uprights, distance pieces, runners and the standard trays illustrated:-

6 angled runners, 14 horizontal runners, 8 x M1601 100 mm deep trays, 2 x M1602 200 mm deep trays, 1 long and short divider per tray and 20 x F202 label holders.

## Starter kit

## METROMAX Q™ SHELVING SYSTEMS

Quick to assemble. Quick to adjust, without tools. Quick to customise and adapt to change. Quick to clean. The MetroMax Q™ storage system offers the patented Corner Lock Release™ for easy shelf fix and adjustment. All MetroMax Q™ shelves contain Microban™ to inhibit bacterial growth and the system is complete with a 15 year warranty against rust and corrosion.

**Metro Max Q™ Quick to assemble**

Just stack MetroMax Q's shelves on the floor and attach shelf wedge connectors to the posts at the desired shelf location. Insert the post in the shelf corners. Slide the shelves upward into place. You're ready to put space to work - it's as quick as that

### Specification by bay

Each bay contains uprights and 4 shelves as standard. Extra shelves are available on request.
