

Grill

Plate

There is a choice of grill or plate shelf in either 400 or 600mm deep. All shelves are dishwasher safe

Castors

The addition of castors will make the unit mobile

SWIFT RACK SHELVING SYSTEMS

Swift Rack is an ingenious racking system which is easy to assemble. It simply slots together without the use of any nuts and bolts.

Swift Rack is injection moulded in polypropylene around a steel core. It is hygienic, stable, versatile and strong.

Load bearing capacity of 150Kgs per shelf
Maximum load of 600 Kgs per section

It is available in:-

- 2 standard heights, 1500 and 1800mm, with 4 shelves per bay adjustable at gauges of 100mm.
- 4 standard lengths, 675, 975, 1375 and 1775mm.
- 2 standard shelf depths, 400 and 600mm.

It is easy to clean and dishwasher safe. Freestanding or on castors.

Ideal for:-

- Cold rooms and freezers to -30°C.
- Wet areas - Swift Rack is rust proof.
- Laboratories - Swift Rack is resistant to most chemicals.
- Large kitchens, hotels and food processing/preparation areas

Select a unit from a choice of:-

4 lengths. 2 depths of shelves, 400 and 600mm. 2 overall heights.

Length	1500mm High		1800mm High	
	400 Deep	600 Deep	400 Deep	600 Deep

Specify the type of shelf:- **P** for plate **G** for grill. Specify if starter or extension bay:-

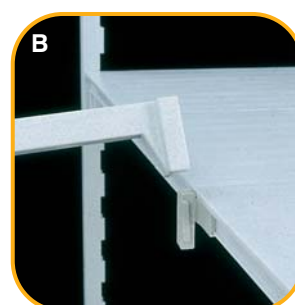

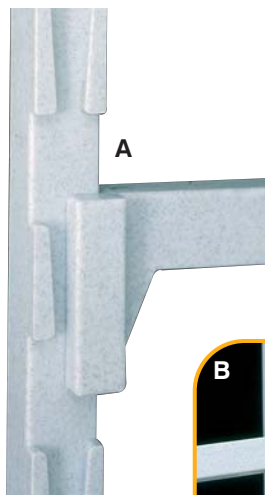

S for starter bay **E** straight extension **R** for right angle extension.

Specify if units are freestanding or mobile:- **F** for free standing **M** for mobile.

Eg. A unit which is 1500mm high, has 400mm deep shelves, is 675mm long, has plate shelves, is a starter bay and freestanding has the reference No **A0645 P S F** Standard bay has 4 shelves. Please specify if extra are required.

Below:- Ingenious and simple slot-in construction method of Swift Racking.

- A) for straight bays
B) for bays at right angles using the special clip-on support bracket.

REA RACK SHELVING SYSTEMS

Rea racks are available in standard dimensions but can be custom-built if required. They are easy to clean, hence extremely hygienic.

- Entirely Plastic
- Rust proof, resistant to salts and acids from foodstuffs
- Hygienic
- Easy to clean
- Meets HACCP standards
- Strong, 200 Kgs bearing capacity per metre of shelf length
- Resistant to temperatures from -40°C to +80°C
- Flexible applications
- Durable
- Mobile option available

A REA bay of racking is built up with shelves and H frames. The H-frames determine the space between the shelves and the space between the floor and the first shelf (floor space).

REA Rack Bay Specifier

Standard bays are available in a choice of

- 3 depths of shelves, 400, 500 and 600 mm
- 4 overall lengths, 1000, 1200, 1500 and 2000 mm
- 3 choices of number of shelves per bay 3, 4 or 5
- Static or mobile (please advise).

Mobile units are fitted with 4 nylon castors. Castors comprise stainless steel housing with nylon wheels, all swivel, 2 braked.

- Right angle extension.
