

AL2 Loft Ladder

Product Information

A loft ladder suitable for heights up to 2.66m (8'9").

The ladder has wide non-slip 'D' rungs for comfort and security.

The unique friction guides provide for a smooth and easy operation.

An access pole is supplied with the ladder that will hook onto the ladder and is used to guide it upwards and downwards. It can also be used to open a number of different loft hatch types.

2 section statistics:

Minimum clearance arc 0.71m (2'4")

Minimum storage space 1.27m (4'2")

150Kg (23.6 Stone) weight limit.

Approved to EN 14975 standards.

The loft ladder is suitable for DIY installation. The kit includes all components and easy to follow instructions.

The loft ladder is designed for domestic use only.
