

## Heavy Duty Commercial Concertina Loft Ladder

### Product Information

The Zedfold roof access ladder conforms to DIN 4570 with a load bearing capacity of 200kgs and is manufactured from high strength die-cast aluminium alloy components.

The commercial concertina loft ladder is supplied with two heavy-duty counter-balanced springs incorporated into pivot brackets. This ensures that the access loft ladder can be raised and lowered with the minimum of effort.

The Zedfold can be supplied with a telescopic handrail generally fitted to the Right Hand side unless requested otherwise.
