

Plastic Access Panels, Key Lockable - HA L

Product Information

The HA key lockable hinged plastic access panel range provides a simple, low cost, high quality solution for access to building services in walls and ceilings.

The injection moulded slim picture frame profile produces a lightweight solution, enabling an easy fit installation into all types of wall or ceiling construction.

Available in 5 sizes as in the selection bar below (please note 560x560mm suitable for wall use only).

The hinged access panel is locked and unlocked using a flat keyed disc tumbler camlock. The locks are supplied keyed alike as standard but are available as keyed to differ on request.

The corners have a rounded smooth profile for an additional safety feature.

Produced from UV stable ABS, the white panel will not discolour, however the surface is lightly textured to accommodate a paint finish if required. Install using a suitable adhesive and simply push into place.
