

Discover the enlargement of the Z range series: the new solutions for high loads

Description

Widening the Z range product series with **blue cast iron core and cast polyurethane coating 95 ± 3 Sh (A)**.

Available with ball bearings.

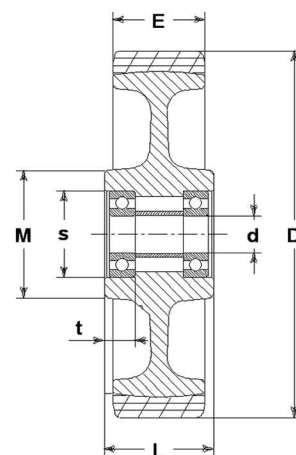

Art. N. 7018: Diameter 100mm and tyre width 40 mm.
New: standard measure for all bearings seat 47x17 mm.
Replacing art. N. 7007

Art. N. 7040: Diameter 260 mm and tyre width 100mm.
Ideal for high loads and restrained height.

Technical specifications

Art. N.	7018	7040
Diameter (D)	100	260
Tread width (E)	40	100
Hub width (L)	40	100
Bearing seat (s x t)	47x17	80x35
Bore diameter (d)	20	35
Distance between outer faces of bearings (V)	34	58
Hub diameter (M)	60	101
Load capacity kg	350	2200

Strengths

- Available in a large range of dimensions
- Widening Z series
- Standard measure for all bearings seat
- Ideal for high loads

- Excellent smooth and noiseless running
- High resistance
- Preserve the floor thanks to the cast polyurethane coating

Market/Applications

- Industrial trolleys
- Transpallets
- Overhead travelling crane

- Automatic warehouse
- Logistic centres
- Drying systems
- Hangars
- Lifts

- Amusement parks
- Nautical industry
- Drying systems

Forks Art. N. 7040

E70

	Total height	360 mm
	Load capacity	2200 kg
	Swivel fork	7339
	Swivel fork with directional lock	7339B2
	Fixed fork	7389
