

# NOVELTIES 2018

*passion for movement*

## Stainless steel ball bearings

LB, P N and AS wheels are now also available with stainless steel sealed ball bearings (type 2RS) and stainless steel inner spacer. They offer better performances than the equivalent articles fitted with stainless steel roller bearings.

These series can be supplied with Inox40 and Inox20 forks.

LB

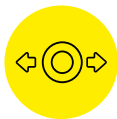

AS

P

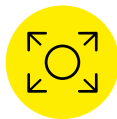

N

Improve rolling performance with stainless steel castor

Maintenance free wheels

Extension of stainless steel range

## FOOTGUARD: safety first!

Made of pressed zinc plated steel are assembled both on swivel and fixed forks. Castors with footguard protect the operator's feet alienating the risk of crushing. Available in different sizes and fitted to castors M22, M40, P60 and E70 series.

Prevents the risk of the feet crushing

Allows the use of trolleys without safety shoes

Robust structure guarantees a long durability

**AS**

## AS Series • New diameter 160x50/60 mm with black hub

The AS range widens with the new diameter 160x50/60 with black thermoplastic hub and soft polyurethane coating hardness  $87 \pm 3$  Shore A.

- Reinforced hub and wider tread ensures better performances
- New dark look; ideal for theatre equipment
- Higher load capacity: 500kg

---

## Z series • New items

Discover the enlargement of the Z range series, the polyurethane wheel with minimum noise and top resistance guarantee. This series has the typical blue cast iron core and cast polyurethane coating  $95 \pm 3$  Sh A.

**Art. 7018CC:** Diameter 100mm and tyre width 40 mm.

New: standard measure for all bearings seat 47x17 mm and ball bearings bore 20mm. Replaces item 7007cc.

**Art. 7040CC:** Diameter 260 mm and tyre width 100mm fitted with ball bearings bore 35mm. Ideal for high loads and restrained height.

**Z**

---

## P Series • New wheel 300mm diameter

Polyamide wheel 300mm diameter, available with shielded standard ball bearings or sealed stainless steel (2RS) ball bearings.

- Easily overcomes obstacles with greater diameter
- Very low rolling and turning resistance
- High abrasion resistance
- Hygienic and easy to clean
