# SIGMADECK

Safe and Effective Access for Low Level Work at Height

SIGMADECK

250

# SIGMADECK

## EFFORTLESS ACCESS

- Assembles and dismantles in seconds with minimum lightweight components required
- Automatic folding frames (no pins or clips to lose, damage or forget about when assembling)

Compact dimensions allow the Sigmadeck to be moved from room to room while still assembled

- 6 rung frame for more choice in working heights
- Compact folded dimensions for easy storage and transportation

## SAFE ACCESS

- Inverted guardrail spigots ensure maximum height cannot be exceeded
- Guardrail system provided as standard guaranteeing proper guardrail placement at all levels
- Serrated, non-slip rungs (at 250mm centres) and trap door platform for safe access to the working area as standard
- Weather proof, anti-skid decking provides a safe working area
- Equipped with 4 lockable castors

## COST EFFECTIVE ACCESS

- Compatible with existing Turner Access components
- One piece folding toeboard set (additional option)
