

Original Accessories from Sortimo

Useful additions to the Sortimo in-vehicle equipment.

With original accessories from Sortimo, you can complement your utility vehicle sensibly with many practical helpers. From the stowage tray to the lashing strap, we guarantee uncompromising Sortimo quality.

The extensive programme includes solutions for each professional group and offers additions not only for the cargo bay, but also for the passenger compartment. Dive into the accessory world of Sortimo.

Symbols and their meaning

CarMo The product is compatible with CarMo and can be safely fastened onto the anchoring points of the floor plate.

Simpleco The product fits into the simpleco in-vehicle equipment for vans.

TROLLEY

Trolley The product can be clicked onto the trolley with a single hand movement and therefore makes transport of the work equipment easier.

MULTI SLIDE

Multislide The product can be accommodated by the new drawer tray made from sturdy plastic

CRASH TEST

Crash-tested The product fulfils the highest safety requirements from Sortimo and has been crash-tested successfully in cooperation with TÜV, DEKRA or ADAC in simulated cases of emergency.

CLICK

Clickable The product can be clicked together with another product with a single hand movement and can therefore be transported to the worksite with one hand.

LOW CO₂

CO₂ reduction due to lightweight construction The product is weight-reduced due to extremely modern lightweight construction, so that you will substantially save fuel and therefore contribute to CO₂ reduction.

3 YEARS

Product warranty Sortimo guarantees a 3 years warranty for these products.

PRO SAFE

ProSafe In this product, the lashing points for the ProSafe hooks are already integrated and quickly ready for use.

M READY

M ready The product fits into the new in-vehicle equipment generation Globelyst M from Sortimo.

Tidiness for drawers

Drawers offer a lot of space for spare parts, tools and electric machines. The dividers create a clear and easily accessible layout.

The division in small increments facilitates customized drawer design.

The anti-rattle mats made from rubber or recycled rubber protect the drawers and their contents from damage and dampen down the noise during travel.

Dividers and anti-rattle mats for shelf trays and shelf floors with rim

The Sortimo shelf floors with rim and shelf trays offer a lot of space for spare parts, hand tools or electric tools. They can be freely inserted in small increments. In this way, the user can partition the space completely to suit his individual needs.

The anti-rattle mats protect both the bottoms of the shelf floors with rim and the shelf trays, as well as their contents, from damage and dampen down the noise during travel.

Case clamp and lightweight construction long components tray

The case clamp is the easy-to-use, variable clamp fixing for cases, boxes and containers of various sizes. It is mounted into the in-vehicle equipment. With the case clamp, even containers which were not originally designed for the Globelyst System can be integrated, transported and removed safely.

The long components tray consists of lightweight but sturdy composite material. By using an innovative production process, the long components tray can be manufactured in any desired length and be adjusted to any vehicle.

Due to its sliding mechanism, the new cover lid made from plastic opens towards the floor in a space saving way. No retaining bracket obstructs the loading access. Therefore, even bulky long components can be stored securely and effortlessly.

Perforated panel with new Sortimo hook system and stowage trays

The new aluminium plate with oblong holes for the front wall of the in-vehicle equipment or for the cargo bay wall not only looks elegant, but also forms the mounting plate for countless options from the Sortimo accessories programme.

It is particularly suitable for the efficient use of the block side panels to accessorize it with stowage trays, tool holders and towel dispensers.

This facilitates quick access during everyday work. The stowage trays from Sortimo also allow immediate access. Mounted on the new aluminium side panels, they are immediately accessible after opening the doors.

The new anthracite-coloured hooks made from sturdy ABS plastic are exactly designed to fit into the oblong holes. They securely snap into place through three parallel holes in the side wall and distribute the load perfectly onto the floor.

Protection against torsion

ZSPALUVDS
Ref. No. 801013386

Dimensions (WxDxH): 69 x 38 x 20 mm
Weight: 0.08 kg

Cargo bar aluminium.
 Protection against torsion in the cargo.

£ 35.09

All prices exclusive of VAT and shipping. Our delivery and payment terms are applicable. See: www.sortimo.co.uk/GTCT.

The Sortimo cargo bar is a universally deployable instrument for the securing of loads. It can be mounted inside the vehicle both horizontally and vertically if the lashing tracks and channels have been fitted correspondingly. With its square cross section, it safely secures the cargo. Additional lashing straps with lashing fittings can be mounted into the integrated tracks.

Sortimo Accessories for the mobile workshop

Turn your vehicle into a mobile workshop. Only with one of our four workbench solutions is your in-vehicle equipment truly complete.

For your work at the customer, the installation of one of our sturdy and extremely durable workbenches might be just the ideal solution for you.

They can be completed with a parallel vice into a mobile work place. The workbenches are mounted onto the in-vehicle equipment or directly fixed into the vehicle floor for heavy-duty work.

For the secure transport of electric cables, hoses or chain hoists Sortimo offers holder fittings in various versions, depending on the requirements.

3 YEARS

Sortimo guarantees a 3 years warranty for these products

Sortimo original accessories

With the Sortimo original accessories, your in-vehicle equipment unfolds its full potential for you. From the cargo bar to the loading ramps, telescopic ladders, hand-held lamps and the fire extinguisher up to the surface mounted socket, you can find the required practical equipment for your branch.

The ladder bracket is for the telescope ZTCL33. It can be easily mounted to the rear door of your vehicle for safe and quick use.
Delivery does not include the ladder.

£ 40.80

Ladder carry bag

ZTLT
Ref. No. 80714886

Weight: 0.54 kg
Carry bag for telescopic ladder up to 3.3 m. Easy to carry with strap, allows you to securely and neatly store your ladder.

£ 29.77

All prices exclusive of VAT and shipping. Our delivery and payment terms are applicable. See: www.sortimo.co.uk/GTCT.

Telescopic ladders

The telescopic ladders, in certified quality and manufactured in accordance with all norms, can be stowed away on a small space and extended up to 3.3 metres. These ladders even fit inside of every car boot and therefore spare the installation of a roof rack. Even narrow stairways or elevator shafts pose no problem to the telescopic ladder.

The telescopic combination ladder with a maximum work height of 3.7 metres is the ideal combination between stepladder and lean-to ladder.

Automanager with swivelling notebook table and storage pockets for small parts in the lid.

Weight: 7.4 kg

£ 309.68

AM

Ref. No. 601009565

Automanager with power supply

£ 388.08

Automanager trolley

AMT
Ref. No. 601009549

Practical transportation trolley for the automanager with telescopic handle.

£ 39.75

Anti-theft device

AMD
Ref. No. 601009567

The anti-theft device facilitates additional securing of the automanager on the seat with a steel cable.

Weight: 0.2 kg

£ 14.66

Voltage transformer 12 V

AMSW
Ref. No. 601009449

The 12 V voltage transformer can be connected to the cigarette lighter. Equipped with various connection adapters, the automanager allows operation of various printers and laptops. (please follow the manufacturer's advice!)

£ 42.41

All prices exclusive of VAT and shipping. Our delivery and payment terms are applicable. See: www.sortimo.co.uk/GTCT.

The mobile office for the road

Automanager

Being on the road a lot, you know the problem: you always need to have your files, samples and your notebook with you. With the automanager, Sortimo offers a practical solution for this problem.

Special features

- Storage pockets in the lid
- Secure fastening on the passenger seat with automatic strap
- Extendable swivelling notebook table
- Large inner compartment for additional hardware such as printer
- Available with integrated power supply

Accessories

- Trolley for easy transport
- Steel cable for theft protection
- Universal voltage transformer 12 volt

Office bag and autoassistant

Office bag

OT

Ref. No. 601014026

Dimensions (WxHxD): 420 x 395 x 130 mm

The office bag is securely fastened to the head and seat rest with quickly detachable straps. All of your documents, pens, the mobile phone or your notebook are quickly at hand. Folding the office bag turns it into an easy-to-carry briefcase.

£ 82.32

Autoassistant

AAS

Ref. No. 801013911

Dimensions (WxDxH):

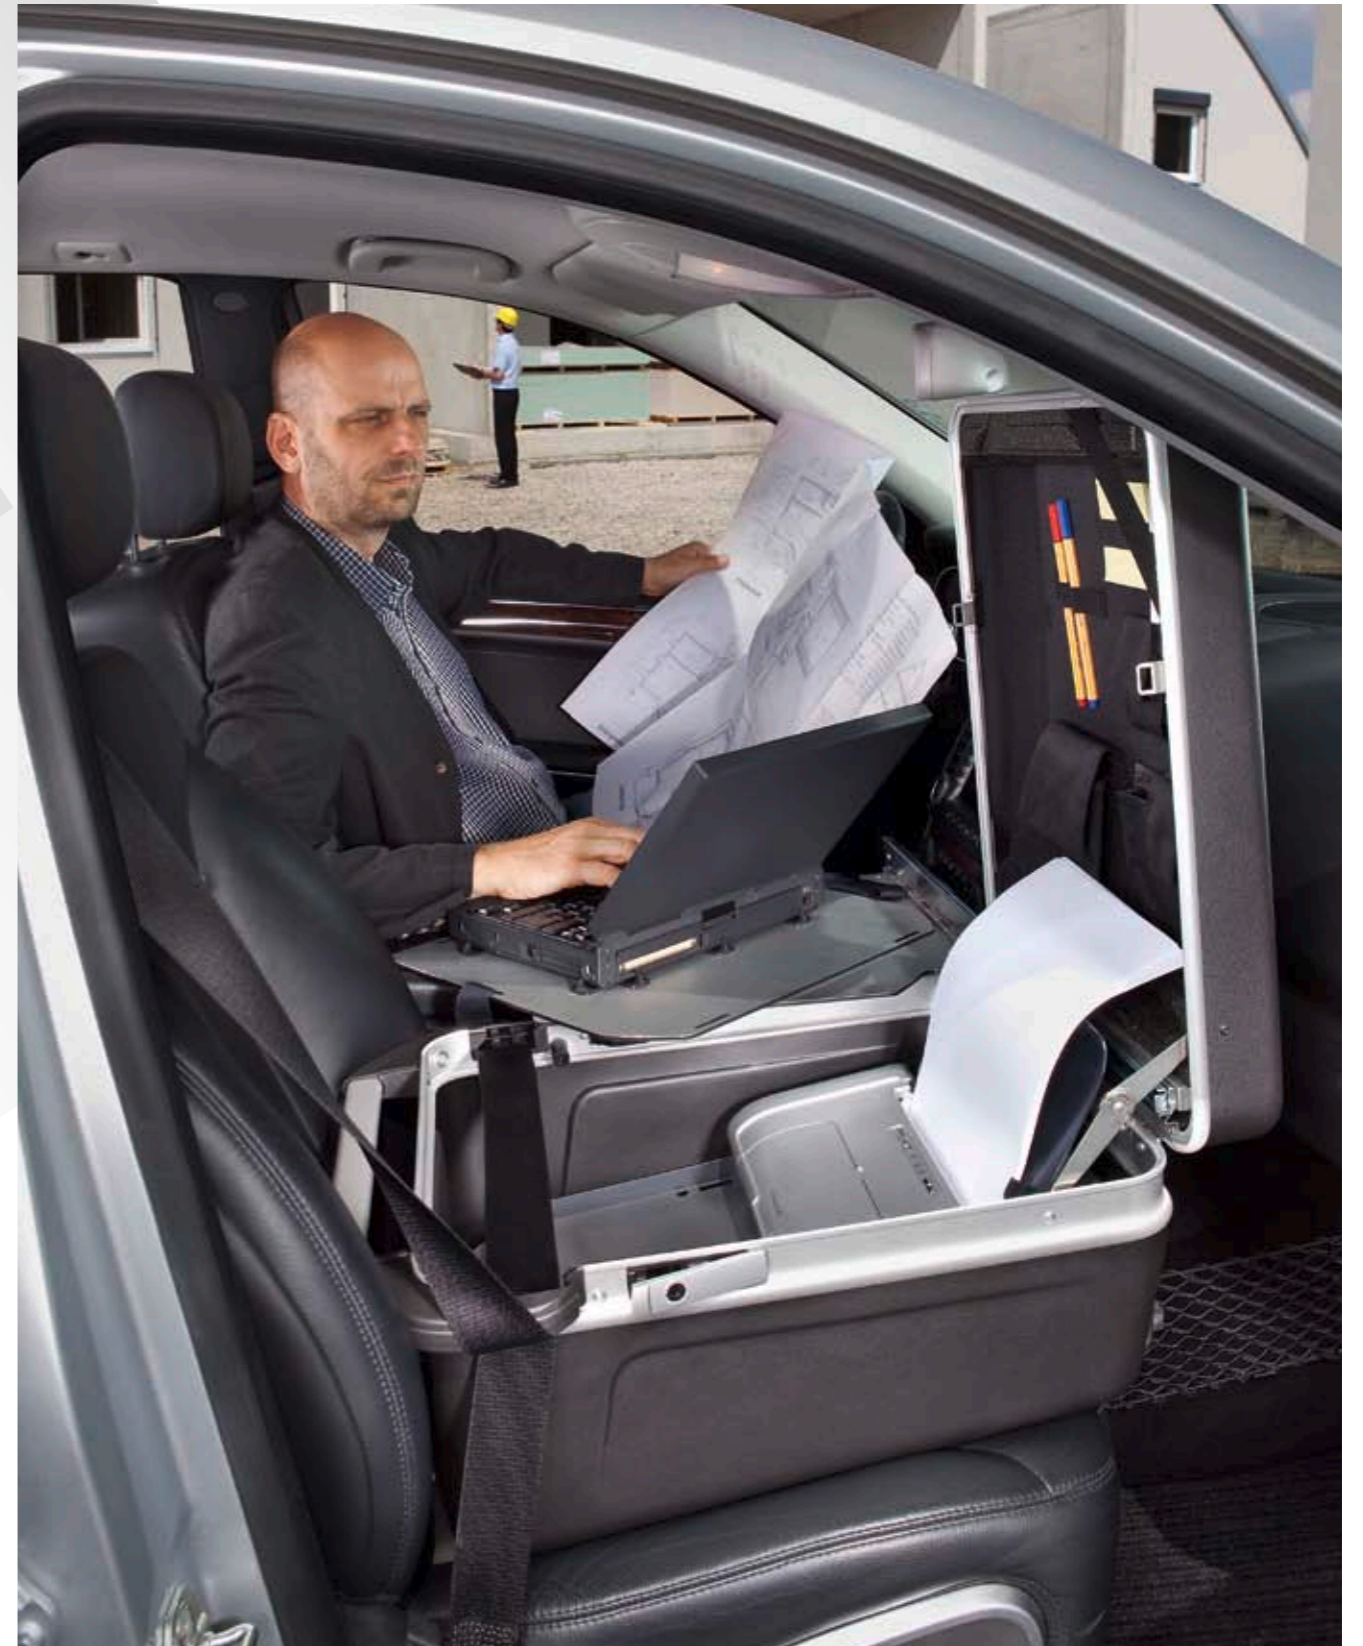

362 x 480 x max. 661 mm

Autoassistant with two folder pockets, desk pad with clipboard and slot for a 1.5 l drinking bottle. Inside the box, there is ample room for various documents. Includes bracket for fastening on the back rest below head rest.

Weight: 6.9 kg

£ 106.44

All prices exclusive of VAT and shipping. Our delivery and payment terms are applicable. See: www.sortimo.co.uk/GTCT.

Office bag

The versatile office bag can be left open during travel, and the notebook is safely secured on the passenger seat in the bag. The bag offers lots of room for your mobile phone, pens, documents or writing pads. In a few steps, the office bag can be easily converted into a laptop bag or a briefcase.

Autoassistant

The autoassistant has everything which the mobile craftsman or service technician needs next to him or her on the passenger seat.

- Practical desk pad
- Bottle holder slot for a 1.5 l drinking bottle
- Rotatable clipboard for notes
- Ample room inside the box for various documents

- Two storage pockets for folders and brochures in the rear piece
- Secure fastening with safety belt

With the seat belt, the autoassistant is safely secured on the seating surface of the passenger seat. The back piece of the assistant is simply suspended into the back rest (the height is adjustable).
