

Washroom Services

At PHS Washrooms, our aim is simple - to provide the best quality washroom services to satisfy the wide ranging needs of our customers. We offer a complete choice of washroom services to help maintain a clean and hygienic washroom for your staff, visitors and customers. Here is a selection of our products and services:

Cubicle Services

Eclipse™

Low profile design, optimum capacity and the only sanitary disposal unit to incorporate SteriTouch® antibacterial surface protection.

An option with automatic opening is available, making this unit the ultimate 'no touch' hygienic sanitary disposal unit. It is also designed to meet the needs of disabled users.

Mini Toilet Roll Dispenser

PHS toilet roll holders come in a variety of sizes, providing a convenient and hygienic solution.

The Mini Toilet Roll Dispenser is cost effective and ideal for high usage areas. This product incorporates SteriTouch® antibacterial surface protection.

Handcare Services

World Dryer Airforce™

Airforce™ is the high-speed, low energy automatic hand dryer produced exclusively for PHS Washrooms by World Dryer.

- Uses 80% less energy than other dryers of its kind
- High-speed, rapid dry at just 1.1kW/h power output
- Smooth, sleek design
- Incorporates SteriTouch® antibacterial surface protection to dramatically reduce the spread of bacteria
- Die-cast aluminium cover

Soap Dispensers

Soap dispensers offer one of the tidiest and most hygienic hand cleaning options for your staff and customers.

We offer both 'push' and 'auto' options, which incorporate SteriTouch® antibacterial surface protection.

Water Services

Flow-saver™ Water Management System

The award-winning Flow-saver™ can save up to 96% of water usage when compared with an uncontrolled cistern (70% on average) and up to 30% against other basic water management systems. Flow-saver uses infra-red technology and a real time clock function to regulate the flushing of urinals and is programmable to work only during operational hours. If the washroom is unoccupied for long periods (for example overnight), the cistern will only flush once every 12 hours to maintain hygiene standards.

Flush-wiser® WC Flush Control

An award-winning innovative water saving device, Flush-wiser® is attached to the siphon in the WC cistern, where it reduces the amount of water used to flush by up to 3 litres. Flush-wiser can be adjusted to suit each cistern, taking into account cistern size and performance in order to make optimum savings, without compromising on hygiene.

Eco-shield™

Eco-shield™ combines the very latest in bio-block and urinal sleeve technology to create the perfect solution to the dual problems of urinal smells and blockages. Now incorporating a separate fragrance block in addition to a bio-block, Eco-shield effectively tackles urinal malodours and blockages.

Adapta Tap

Designed to convert existing taps to a more efficient push option, Adapta Tap reduces the wastage of water by preventing the risk of taps being left running, which also reduces the risk of flooding. Adapta Taps can save up to 80% of water used.

To find out how much you can save with the Water and Energy Saver Range go to www.phswaterandenergysavings.co.uk

Washroom Services

Aircare Services

Airscent

PHS Airscent is a battery operated aerosol unit that dispenses a fresh fragrance, which incorporates Odouraze™ odour neutraliser. Airscent is suitable for all locations and not only creates a fresh and pleasant fragrance, but with Odouraze also destroys malodours, not merely masking them.

Air-o-matic

PHS Air-o-matic offers an air freshening solution for larger areas. This mains-operated unit offers continual air freshening via a unique and patented fragrance gel, which incorporates Odouraze to destroy malodours.

Medical Services

Sharps Disposal

PHS provides a specialist sharps disposal service to allow you to safely dispose of all medical sharps including hypodermic syringes and scalpels. Units are approved to UN3291.

Swabs and Dressings Disposal

The PHS Swabs and Dressings Disposal Service is specifically designed for the hygienic disposal of clinical and hazardous waste. Units are approved to UN3291.

Vending Services

Vending Machines

A range of stylish dispensers that contain sanitary, health and contraceptive products including a Slimline unit that contains well-known and trusted high street branded sanitary products. The Slimline unit is perfect for locations where space is at a premium.

Baby Changing Services

Nappy Disposal Units

The PHS Nappy Disposal Service is specifically designed for the hygienic disposal of waste including nappies and incontinence pads.

SteriTouch® Range

The SteriTouch® Range is a first in washroom hygiene. This range of products incorporates SteriTouch antibacterial surface protection as standard, to dramatically reduce the spread of bacteria. The Range includes:

In the cubicle - Mini Toilet Roll Dispenser, Eclipse™ and Eclipse™ Auto Sanitary Disposal Units, and Surface Sanitiser

At the wash basin - Push and Auto Soap Dispensers

For hand care - SMARTdri™, Airforce™ and Ultradry LE Hand Dryers, the Interleaf Hand Towel Dispenser, and Push and Auto Hand Sanitiser Dispensers
