

The Complete
Washroom Service

Welcome to **PHS Washrooms**

We have one simple aim: to make your life easier. We do that by consistently providing outstanding quality services and products that meet a wide range of demands. And which ensure a safe, hygienic environment for your staff, visitors, and customers.

We've been doing just that since 1963. But we don't rest on our laurels. Our commitment to customer satisfaction means we are constantly developing and updating our products and services. That's how we meet our customers' changing needs as well as the latest European regulations. Many of our products are designed in-house which gives us control over quality and innovations. It means our ranges have a consistent look and feel so your washrooms look smart as well as clean.

Our nationwide coverage allows us to combine the strength and security of a national organisation with the reassurance of a fast, friendly, local service.

That's why we're the country's leading washroom services provider.

All our services are managed with respect for the environment and in accordance with European legislation. Many of our products help customers reduce their impact on the environment as well as save money. And of course they do this without cutting corners on hygiene or safety.

We provide complete service management for our customers. This includes free product delivery and installation by qualified service personnel, product maintenance, and flexible service arrangements to suit all needs.

Handcare Services

Convenient and hygienic hand-cleaning and hand-drying products for all washroom environments.

"Washing facilities...must include towels or other suitable means of drying".

"Washing facilities... must include soap or other suitable means of cleaning".

Regulation 21 of the Workplace (Health, Safety and Welfare) Regulations 1992 (UK)

"Facilities for washing should include clean towels or other suitable means of drying".

"Facilities for washing should include soap or other suitable means of cleaning".

The Safety, Health and Welfare at Work Regulations 1993 (Ireland)

For your peace of mind, all our Handcare Services products comply with UK and Ireland Health, Safety and Welfare at Work regulations.

Hand Dryers

Our hand dryer range gives you a choice of powerful, hygienic and cost-effective options.

We are the exclusive distributor of the renowned World Dryer® brand of hand dryers. This includes Airforce™ and SMARTdri™ dryers which have a low power output yet dry hands quickly. That means huge savings in energy and money. It also helps you reduce your impact on the environment.

Soap Dispensers

One of the tidiest and most hygienic hand-cleaning products available, our soap dispensers are suitable for any washroom. NO-GERMS™ antibacterial hand wash is now available in our push soap dispensers.

Hand Sanitisers

Even when soap and water aren't available you still need to provide a way for people to sanitise their hands. That's where our hand sanitiser dispensers come in, and our alcohol and non-alcohol units are available with a stand for when wall-mounting is not convenient.

Paper Dispensers

Our paper dispensers are a practical and hygienic alternative to hand dryers. We have a choice of dispensers to suit every need and environment.

Cabinet Roller Towels*

These products are an additional choice for effective hand-drying. And there's a range of cabinets and towels to choose from.

Hair Dryer

The 'Supreme' hair dryer is designed for hotels, health clubs and other leisure outlets so you can give your customers that little bit extra. It's reliable, cost-effective, and easy to use.

*Available in the UK only

Hand Dryers

World Dryer SMARTdri™

Dimensions: 23.6cm(W) 31.9cm(H) 19.2cm(D)

Weight: 5.2kg

Operation: Automatic

- Other:**
- Die cast aluminium cover incorporating SteriTouch® antibacterial surface protection
 - kW rating - 0.8kW
 - Motor operating at 23,400rpm
 - High-speed, low energy premium hand dryer

World Dryer Airforce™

Dimensions: 23cm(W) 27cm(H) 16cm(D)

Weight: 3.2kg

Operation: Automatic

- Other:**
- Die cast aluminium cover incorporating SteriTouch® antibacterial surface protection
 - kW rating - 1.1kW
 - Motor operating at 37,000rpm
 - High-speed, low energy hand dryer

UltraDry LE

Dimensions: 31cm(W) 24cm(H) 17.5cm(D)

Weight: 3kg

Operation: Automatic

- Other:**
- Die cast aluminium cover incorporating SteriTouch® antibacterial surface protection
 - kW rating - 1.6kW
 - Motor operating at 6,000rpm

Hair Dryer

PHS 'Supreme' Hair Dryer

Dimensions: 15cm(W) 28cm(H) 11cm(D)

Weight: 4.52kg

Operation: Operated by push button

- Other:**
- Steel construction
 - Coin box available
 - Wall mounted hair dryer
 - kW rating - 0.6kW

Soap Dispensers

Push Soap Dispenser

Dimensions: 13.7cm(W) 22.7cm(H) 11.7cm(D)

Weight: 0.42kg

Operation: Push bar

- Other:**
- ABS plastic construction, incorporating SteriTouch® antibacterial surface protection
 - 1 litre capacity
 - Antibacterial liquid or foam soap
 - NO-GERMS™ hand wash available

Auto Soap Dispenser

Dimensions: 13.7cm(W) 22.7cm(H) 11.7cm(D)

Weight: 0.66kg

Operation: Battery operated, automatic, infra-red

- Other:**
- ABS plastic construction, incorporating SteriTouch® antibacterial surface protection
 - 0.8 litre capacity
 - Antibacterial liquid soap only

Paper Dispensers and Cabinet Roller Towels

Auto Hand Towel Dispenser

Dimensions: 28cm(W) 35.5cm(H) 22.5cm(D)

Weight: 2.3kg

Paper Type: 1ply, 150m white, 180m blue

Other:

- ABS plastic construction
- Large capacity unit with self-presenting paper towel for improved hygiene

Interleaf Hand Towel Dispenser

Dimensions: 27.5cm(W) 36.5cm(H) 12cm(D)

Weight: 1kg

Paper Type: 1ply, interleaf towel, white or blue

Other:

- ABS plastic construction, incorporating SteriTouch® antibacterial surface protection
- Paper towels are self-presenting for improved hygiene

Mini & Standard Centrefeed Dispensers

Standard Centrefeed Dispenser

Dimensions: 23cm(W) 34cm(H) 24cm(D)

Weight: 1.54kg

Paper Type: 2ply, 150m, white or blue

Other:

- ABS plastic construction

Mini Centrefeed Dispenser

Dimensions: 14.1cm(W) 28.7cm(H) 13.9cm(D)

Weight: 0.66kg

Paper Type: 1ply, 120m, white

Other:

- ABS plastic construction

Cabinet Roller Towels*

Dimensions: (including towel)
Standard: 41cm(W) 47.5cm(H) 25cm(D)
Mini: 32cm(W) 32cm(H) 17cm(D)
Weight: (including towel)
 Standard: 8.5kg; Mini: 3.7kg

Towel colours: (100% cotton)
 White with mint green stripe, Blue

Towel size: Standard: 200 towel portions
 (40m length)
 Mini: 100 towel portions
 (20m length)

Other:

- Standard cabinet available in white, gun metal effect, polished chrome, brushed chrome
- Mini cabinet available in white only

Hand Sanitisers

Hand Sanitisers

Dimensions: 15.9cm(W) 29cm(H) 13.8cm(D)
Weight: 2.23kg
Operation: Battery operated, automatic, infra-red

Other:

- ABS plastic construction
- 2 litre capacity
- Available with NO-GERMS™ alcohol-free foam or alcohol based gel hand sanitiser, both contain moisturiser
- Units can be wall-mounted or stand-mounted

Cubicle Services

We understand how vital it is for you to maintain a smart, clean and hygienic washroom – whatever type of organisation you run.

"In the case of water closets used by women, suitable means should be provided for the disposal of sanitary dressings".

"Toilet paper in a holder or dispenser...should be provided".

The approved code of practice for Regulation 21 of the Workplace (Health, Safety & Welfare) Regulations 1992 (UK)

Our cubicle services are designed to help you do this easily and efficiently.

Sanitary Disposal

This service disposes of sanitary waste safely and with respect for the environment.

Eclipse™ Sanitary Disposal Unit

The only sanitary disposal unit to incorporate SteriTouch® antibacterial surface protection, Eclipse™ has an unobtrusive low profile design and optimum capacity.

It comes in several designs including an automatic opening unit. This 'no touch' design is the most hygienic sanitary disposal unit on the market and is also ideal for disabled users.

Toilet Seat Sanitiser

Our surface sanitiser helps improve the cleanliness of your toilet cubicles and creates a more hygienic environment. The non-irritant liquid has a subtle orange fragrance.

Toilet Roll Holders

Our toilet roll holders are designed to be as convenient and hygienic as possible. They're available in a variety of sizes and styles to suit all types of washroom.

Toilet Tissue Dispenser

This toilet tissue dispenser is ideal for when toilet roll holders are not suitable, for example care environments, as the unit provides easy access to the tissue for all users.

Sanitary Disposal

Eclipse™

Dimensions: 46cm(W) 42.5cm(H) 20cm(D)

Capacity: 23 litres

- Other:**
- The only sanitary disposal unit to incorporate SteriTouch® antibacterial surface protection (lid and flap)
 - Low profile design
 - Pedal location and side opening flap designed for ease of use
 - Internal masking flaps to conceal contents
 - Unit easily located either side of the WC
 - ABS plastic (lid and flap) and polypropylene construction
 - Smooth finish with Braille
 - Available in grey or white

Eclipse™ Auto

Dimensions: 46cm(W) 42.5cm(H) 20cm(D)

Capacity: 23 litres

- Other:**
- Ultimate 'no touch' unit
 - Automatic infra-red opening and closing
 - The only auto sanitary disposal unit to incorporate SteriTouch® antibacterial surface protection (lid and flap)
 - Low profile design
 - Side opening flap designed for ease of use
 - Internal masking flaps to conceal contents
 - Unit easily located either side of the WC
 - ABS plastic (lid and flap) and polypropylene construction
 - Smooth finish with Braille
 - Available in grey or white

Mini

Dimensions: 16cm(W) 41.5cm(H) 43cm(D)

Capacity: 17 litres

- Other:**
- Polypropylene construction
 - Pedal operated
 - Low profile design
 - Smooth finish with Braille
 - Available in grey or white

envirosan
active

All sanitary disposal units come fresh with EnviroSan® Active natural germicide to provide increased protection and hygiene. Certified against HIV, Hepatitis B and Hepatitis C, and conforms to BS1276 and BS13727. See page 14 for more information.

Toilet Roll Holders

Mini & Maxi Dispensers

Ideal for high usage areas, the Mini and Maxi toilet roll dispensers are convenient and cost effective units

Mini Toilet Roll Dispenser

Dimensions: 27cm(W) 28cm(H) 12cm(D)

Paper Type: 2ply, 2.25" (5.7cm) core

Other:

- ABS plastic construction, incorporating SteriTouch® antibacterial surface protection

Maxi Toilet Roll Dispenser

Dimensions: 31.3cm(W) 32cm(H) 12cm(D)

Paper Type: 2ply, 2.25" (5.7cm) core

Other:

- ABS plastic construction
- Available in white only

Micro Mini Toilet Tissue Dispenser

Dimensions: 32.6cm(W) 19.3cm(H) 12.1cm(D)

Paper Type: 2ply, 120m

Other:

- ABS plastic construction
- Ideal for high usage areas, this compact unit will fit in smaller cubicles but still satisfy high demand

Standard Toilet Roll Dispenser

Dimensions: 14.1cm(W) 28.8cm(H) 14cm(D)

Paper Type: 2ply, standard toilet roll

Other:

- ABS plastic construction

Toilet Roll Holders

Corrolla Vision Double Vertical Dispenser

Dimensions: 14.1cm(W) 28.8cm(H) 14cm(D)

Paper Type: 2ply, 100m

Other:

- ABS plastic construction
- Incorporates restriction bar

Toilet Tissue Dispenser

Bulk Pack Tissue Dispenser

Dimensions: 14.1cm(W) 28.8cm(H) 14cm(D)

Paper Type: 2ply, interleaf toilet tissue

Other:

- ABS plastic construction
- Toilet tissue is self-presenting for ease of use and improved hygiene

Toilet Seat Sanitiser

Surface Sanitiser

Dimensions: 10.3cm(W) 15.3cm(H) 8.9cm(D)

Weight: 0.4kg

Capacity: 300ml

Operation: Push bar

Other:

- ABS plastic construction, incorporating SteriTouch® antibacterial surface protection
- Pale blue water-thin non-irritant liquid with subtle orange fragrance

Envirosan[®] Active

Envirosan[®] Active is a powerful, natural germicide spray. It's exclusive to PHS and is designed specifically for our pedal and automatically operated sanitary disposal units. It's sprayed in a measured dose and protects all areas of the unit, tackling bad smells with a subtle, yet effective fragrance.

And it's made entirely from natural materials. So, while increasing hygiene and protection in your washrooms, it also helps you reduce your environmental impact.

Envirosan Active powerfully protects against potentially harmful bacteria, moulds and viruses, reducing bacteria levels by 99.99%. It's also certified against HIV, Hepatitis B and Hepatitis C, and is the only germicide to conform to BS1276 and BS13727.

 **envirosan[®]**
active

Aircare Services

The products in this range help to keep your washrooms fresh and free from unpleasant smells.

Airscent Burst

This battery operated aerosol unit dispenses a fresh and pleasant fragrance and is suitable for all washrooms. The range of fragrances also incorporates an odour neutraliser - Odouraze™ which destroys bad smells rather than masking them like other air fresheners.

Airscent Breeze

Airscent Breeze is a non-aerosol, battery operated, air fragrancing and odour neutralising unit. Its innovative design gives a consistent dispersion of essential oil based fragrance incorporating Odouraze™ odour neutraliser.

Air-o-matic

Designed for larger areas, this mains operated unit uses a unique and patented gel to keep the air continually fresh. As with Airscent Burst and Airscent Breeze, the fragrance range also incorporates Odouraze.

Ultrazone

Ultrazone is a highly effective, mains operated, ozone based air cleaning and freshening system. It neutralises bad odours, and pollen, for a fresh and clean environment.

The ozone bonds with airborne micro-organisms, breaking them down at a molecular level. It's a natural process that destroys smells rather than masking them.

Biozone

Biozone resolves permanent odour problems with a combination of sterilising techniques that destroy viruses in the air and bacteria on surfaces. This mains operated unit uses five techniques, which work together to kill the bacteria that cause malodours as well as viruses including Flu viruses, E.coli, Salmonella and Streptococcus. Highly effective in areas such as washrooms, doctors' waiting rooms, nursing homes and food preparation areas.

Air Fragrancing and Odour Neutralising

Airscent Burst

Dimensions: 16.5cm(W) 23.5cm(H) 9.6cm(D)

Weight: 0.86kg

Operation: Battery operated
Dispenses aerosol dose every 20 minutes for continued air fragrancing and odour neutralising

Other:

- ABS plastic construction
- Choice of fragrances incorporating Odouraze™ odour neutraliser to combat malodours

Airscent Breeze

Dimensions: 20.2cm(W) 15.7cm(H) 8.9cm(D)

Weight: 0.6kg (excluding cartridge)

Operation: Battery operated
Non-aerosol air fragrancing and odour neutralising unit
Measured dose of essential oil based fragrance for continued freshness

Other:

- ABS plastic construction
- Choice of fragrances incorporating Odouraze odour neutraliser to combat malodours

Air-o-matic

Dimensions: 16.5cm(W) 23.5cm(H) 9.6cm(D)

Weight: 1kg

Operation: Mains operated
Non-aerosol air fragrancing and odour neutralising unit

Voltage: 230V

Power: 22 watts

Other:

- ABS plastic construction
- Choice of patented gel fragrances with Odouraze odour neutraliser to combat malodours

Odour Neutralising

Ultrazone

Dimensions:	15cm(W) 21cm(H) 7cm(D)
Weight:	0.74kg
Operation:	Mains operated
Choice of ozone settings:	10mg/h 20mg/h 40mg/h
Voltage:	220-240V/110V
Power:	5 watts
Conforms to standards:	BSEN 60335-1 BSEN 60335-2 EMC Directive 89/336/EEC

Biozone

Dimensions:	40.1cm(W) 13.1cm(H) 9.1cm(D)
Weight:	0.96kg
Operation:	Mains operated
Voltage:	220-240V/110V
Power:	16 watts
Other:	Uses a unique combination of five sterilising techniques to kill 99.999% of bacteria in the air and viruses on surfaces

Odouraze™

Odouraze odour neutraliser is incorporated into the fragrances of PHS Airscent Burst, Airscent Breeze and Air-o-matic air fragrance and odour neutralising units.

Odouraze uses unique 'malodour control technology' which features active ingredients that interact with malodour molecules to destroy bad smells, rather than just masking them. This ensures that your washrooms and communal areas will always smell fresh and odour free.

A range of fragrances are available that incorporate Odouraze.

Vending Services

Our vending services help you meet the emergency needs of your staff, visitors, and customers so they don't have to leave your premises.

Our serviced vends mean you don't have to store stock or increase the workload for any of your staff.

The vending range comprises a wide selection of high-quality products to meet all healthcare needs - from tampons to condoms to headache tablets and tights, with a nappy vend also available.

The dispensers are made from ABS plastic or metal which helps to make them vandal resistant.

Their reliable coin mechanisms reject incorrect or damaged coins, saving you the trouble of refunds.

Vending Machines

Slimline Vend

Dimensions: 31cm(W) 73cm(H) 8.5cm(D)

Weight: 3.75kg

Operation: Battery operated

Other:

- ABS plastic construction
- 2 columns
- Contains well-known and trusted high street brand sanitary products
- A slimline design makes this lightweight unit perfect for locations where space is at a premium

Ultra Vend*

Dimensions: 35cm(W) 70cm(H) 10cm(D)

Weight: 17kg

Operation: Battery operated

Other:

- Powder coated steel construction
- 2 columns
- Contains sanitary and contraceptive products
- With a vandal resistant steel casing and range of sanitary and condom provisions, this unit is the ideal solution for both men's and ladies' washrooms

Multi Vend*

Dimensions: 37cm(W) 91cm(H) 21.5cm(D)

Weight: 32kg

Operation: Battery operated

Other:

- ABS plastic construction
- 5 columns
- Contains sanitary, health and contraceptive products
- A replica retail outlet offering a range of up to five well-known and trusted high street brands

Nappy Vend*

Dimensions: 36cm(W) 100cm(H) 23cm(D)

Weight: 13.5kg

Operation: Battery operated

Other:

- ABS plastic construction
- 3 columns
- Contains disposable nappies with wipes

Water Management Services

Our water services help you maintain hygienic WCs and urinals. But that's not all.

All urinals should be fitted with an "automatic device for regulating the periods during which the cistern may fill".

The Water Supply Regulations 1999 (UK)

"Sanitary conveniences shall be of such design as to facilitate efficient use of water for flushing".

The Building Regulations 2008 (Ireland)

They'll also significantly reduce water consumption, saving you money on your water and sewerage bills. And of course, helping you reduce your impact on the environment.

Autosan

Our cistern sanitising system deodorises and destroys bacteria in urinals and toilets, keeping your washrooms clean and hygienic.

Flow-saver® Water Management System

This innovative award-winning water saving device prevents unnecessary urinal flushing when your washroom is empty, and minimal flushing when it is in use.

Using infra-red technology, Flow-saver is an intelligent water management system that can save up to 96% of water, which saves you money and is better for the environment.

Flush-wiser® WC Flush Control

This award-winning product is designed to reduce water consumption in WCs. It attaches to the siphon in the WC cistern and reduces the amount of water used to flush by up to three litres.

So, like Flow-saver for urinals, Flush-wiser helps you to reduce your water and sewerage bills, and to improve your environmental rating.

Adapta Tap

Adapta Tap is a clever device which converts your existing taps to a more efficient push-type design. It prevents taps from being left to run, reducing water wastage and the risk of flooding. Adapta Tap can save you up to 80% of water, reducing your bills and your impact on the environment.

Water Management Systems

Flow-saver® Water Management System

Dimensions: 4.7cm(D) 12.9cm(Diameter)

Weight: 0.24kg

Operation: Battery operated
Intelligent infra-red

- Other:**
- Infra-red sensor range of 3m
 - Unit can be programmed to function only during operating hours
 - Interval between flushes can be adapted to suit usage
 - Infra-red detection regulates flushing for maximum efficiency
 - Hygiene flush every 12 hours
 - Use in conjunction with Eco-shield™ to minimise water usage and improve freshness

Flush-wiser® WC Flush Control

The award-winning, innovative water saving device Flush-wiser is attached to the siphon in the WC cistern, where it reduces the amount of water used to flush by up to 3 litres. Flush-wiser can be adjusted to suit each cistern, taking into account cistern size and performance in order to make optimum savings, without compromising on hygiene.

British Institute of Facilities Management
Excellence Awards - Winner 'Innovation
(New Product)' Award 2008

Cistern Sanitiser

Autosan

Dimensions: 20.4cm(W) 26.5cm(H) 9.9cm(D)

Weight: 0.8kg

Operation: Battery operated
Automatic dosing

- Other:**
- ABS plastic construction
 - Fluid cartridge volume 1 litre
 - Cistern sanitiser with Red Berry fragrance for urinals and WCs

Adapta Tap

Adapta Tap

Designed to convert your existing taps to a more efficient push option, Adapta Tap reduces the wastage of water by preventing the risk of taps being left running, which also reduces the risk of flooding.

Helping Customers to *save money*

Golden Hind - Punch Taverns, Cambridge
 - Saved 92% on their urinal water usage by using PHS Flow-saver Water Management Systems

Urinal Services

If you get problems with smells and blockages, and the appearance of your urinals, you're not alone!

However, these types of problems can reflect badly on your organisation. The award-winning Eco-shield™ is exclusive to PHS Washrooms and will help to eliminate them.

Now incorporating a separate fragrance block in addition to a bio-block and the very latest in urinal sleeve technology, Eco-shield effectively tackles the dual problems of blockages and urinal smells.

It helps to cure problems at source through its Nurazyme™ bio-block technology and unique one-way odour trap or 'shield'.

Nurazyme breaks down uric salt and limescale using natural enzymes and friendly bacteria. There's no need for harmful cleaning chemicals, urinal blocks, or constant flushing so it also helps to conserve water.

Eco-shield reduces on-going maintenance and creates a more pleasant experience for everyone using your washrooms.

When used in combination with Flow-saver® Water Management System, Eco-shield will give you the ultimate in urinal hygiene and efficiency.

Eco-shield:

- Reduces blockages by keeping urinal traps and pipe work clear
- Prevents malodours from re-surfacing with its unique 'shield'
- Delivers a pleasant Red Berry fragrance
- Significantly improves the washroom environment
- Has a positive environmental impact:
 - It's a re-usable unit with a bio-degradable Nurazyme bio-block
 - It reduces blockages which makes cleaning and maintenance easier, and saves you money
 - Harmful cleaning chemicals are redundant
 - It reduces water usage

Urinal Sleeves

Eco-shield™

Fitting: Eco-shield comes with a waste outlet that is a one-off fitting and connects to the urinal trap, allowing the universal Eco-shield to be installed in all standard urinals. Eco-shield can also be fitted in troughs.

Fragrance: Eco-shield contains a Red Berry fragrance block and Nurazyme™ bio-block

Spectrum Sleeve

Fitting: Specifically designed for the Twyford Spectrum bowl. Contains the same bio-block technology as Eco-shield.

Fragrance: Spectrum Sleeve contains a mint fragranced Nurazyme bio-block

Micrakleen™

A natural biological cleaner that works brilliantly with Eco-shield and Spectrum Sleeve!

Using bleach, detergents or other cleaning products can easily damage the delicate balance of Eco-shield. Micrakleen is designed differently. Made from the same friendly bacteria as Eco-shield, it complements the PHS Urinal Sleeves brilliantly. Micrakleen is very versatile and is highly effective on all surfaces in the washroom – including diluted on floors and tiles – and because it's a biological product it doesn't harm the environment.

Available in 750ml trigger sprays and 5 litre refill bottles, Micrakleen:

- Is the recommended cleaner to use safely with Eco-shield
- Is a highly effective cleaner that you can use all across the washroom
- Is a natural product and does not harm the environment
- Is exclusive to PHS

Water Management System

Flow-saver® Water Management System

Dimensions: 4.7cm(D) 12.9cm(Diameter)

Weight: 0.24kg

Operation: Battery operated
Intelligent infra-red

- Other:**
- Infra-red sensor range of 3m
 - Unit can be programmed to function only during operating hours
 - Interval between flushes can be adapted to suit usage
 - Infra-red detection regulates flushing for maximum efficiency
 - Hygiene flush every 12 hours
 - Use in conjunction with Eco-shield to minimise water usage and improve freshness

Cistern Sanitiser

Autosan

Dimensions: 20.4cm(W) 26.5cm(H) 9.9cm(D)

Weight: 0.8kg

Operation: Battery operated

- Other:**
- ABS plastic construction
 - Fluid cartridge volume 1 litre
 - Cistern sanitiser with Red Berry fragrance for urinals and WCs

Medical Services

We produce a range of safe and hygienic healthcare products for both first aid and professional care facilities.

Various regulations oblige waste producers to ensure their waste is managed with care and concern for the environment.

Hazardous Waste Regulations (England and Wales) 2005

Hazardous Waste Regulations (Northern Ireland) 2005

Special Waste Amendment (Scotland) Regulations 2004

Environmental Protection Act 1990 Duty of Care Regulations (Section 34) (UK)

Swabs and Dressings Disposal*

Our swabs and dressings disposal service is specifically designed to hygienically dispose of clinical and hazardous waste.

Sharps Disposal*

Our specialist service safely disposes of all medical sharps including hypodermic syringes and scalpels. Our comprehensive range of UN compliant sharps disposal containers meets all requirements and levels of use.

Hygiene Roll Dispensers

These dispensers provide hygienic paper covers suitable for use in a variety of places from hospitals and doctors' surgeries to fitness centres and beauty salons.

First Aid*

Our first aid service shows your staff, visitors, and customers that you've taken steps to ensure their well-being while they are on your premises. It also makes sure you comply with health and safety regulations. And for your peace of mind, the service is up-dated in line with any changes in regulations.

*Available in the UK only

- 1 pair of scissors

Plasters & Wipes Kit*

Contents:

- 150 plasters (individually wrapped and pilfer proof)
- 24 alcohol-free wipes

Baby Changing Services

A fully equipped and hygienic baby changing area is a necessity for parents of small children when they visit places such as shopping centres and pubs with family licenses.

Our baby changing services will help you provide this. We'll also manage your waste from collection to disposal in an environmentally responsible way.

Nappy Disposal

We specifically designed this service to hygienically dispose of waste such as nappies and incontinence pads. We provide a fresh unit with every service (Maxi X).

Baby Changing Tables

Our range of tables provides safe and hygienic places to support babies during a nappy change. The range includes tables that fold flat when not in use, bench mounted mats, and mobile baby trolleys.

Our qualified technicians can install all these units.

Child Safety Seat*

Parents can place their child in this convenient safety seat while they use your washroom or changing room. The sturdy reinforced seat can be fitted to most interior walls and the slimline design uses minimum space.

Baby Changing Table Sanitiser

More than any other washroom area, it's vital customers are confident that surfaces in baby changing facilities are clean and bacteria free. Our Surface Sanitiser ensures you can give them that confidence, now introducing a new non-irritant liquid with a subtle orange fragrance.

*Available in the UK only

Nappy Disposal

Black and Chrome *Range* **An exclusive selection of washroom products with high quality polished and brushed chrome finishes.**

Hand Dryers

Our Black and Chrome Range hand dryers not only look good they eliminate the problems of stock supply, storage and refilling associated with paper towels. And on average, running costs are much lower than paper or roller towels.

Sanitary Disposal

Black and Chrome Range sanitary disposal units help to create a smart and hygienic washroom. Our service disposes of sanitary waste safely and with respect for the environment.

Soap Dispensers

Our stylish soap dispensers are tidy and extremely hygienic. And the push and automatic dispensers are available with a choice of soaps.

Paper Dispensers

Our chrome hand towel and toilet roll dispensers add a stylish finishing touch to your washroom.

Cabinet Roller Towels*

Our chrome cabinets for roller towels come with 100% cotton towels, and there's a range to choose from.

Vending Services

The chrome vending units not only provide a service for your staff, visitors, and customers – they look smart too.

Surface Sanitiser

Our surface sanitiser helps to keep your toilet cubicles and baby changing tables hygienic and safe. And because the products look good, your washrooms and baby changing areas look better too.

Cistern Sanitiser

The chrome Autosan is a stylish cistern sanitising system that helps to keep your washroom clean and hygienic by deodorising and destroying bacteria in urinals and toilets.

Urinal Sleeves

The smart-looking chrome Eco-shield™ uses the latest in fragrance, bio-block and urinal sleeve technology to tackle the dual problems of urinal smells and blockages.

Aircare Units

Combat stale and unpleasant odours with style! Our Black and Chrome Range Airscent Burst, Airscent Breeze and Air-o-matic air fresheners are ideal for washrooms, reception areas, changing rooms, and meeting rooms.

Water Management System

Our intelligent Flow-saver® water management system is available in the Black and Chrome Range to create a stylish look and at the same time, help meet your sustainability targets.

Non-aerosol air fragrancing and odour neutralising unit

Voltage: 230V

Power: 22 watts

Other:

- Chrome plated ABS plastic construction
- Choice of patented gel fragrances with Odouraze odour neutraliser to combat malodours

SteriTouch®

SteriTouch®
ANTIBACTERIAL
PROTECTION

We've incorporated SteriTouch® into a range of products to give your washrooms the highest level of hygiene protection.

SteriTouch uses innovative and patented antibacterial technology that harnesses the natural sterilising properties of silver. It's permanent so it won't wear off over time, which means consistent protection for your washrooms. It protects against cross-infection and is proven to dramatically reduce the spread of pathogenic germs such as MRSA, E.coli, and Salmonella.

Exclusive to PHS, the SteriTouch Range features core products in our Handcare, Cubicle and Baby Changing Services ranges.

Water and Energy Saver Range

Our Water and Energy Saver Range not only guarantees hygiene and freshness, it helps you save water, energy, and money.

It brings together our environmentally friendly water saving devices with the Airforce™ and SMARTdri™ low energy hand dryers. Together they tackle key areas associated with high water and energy use: toilet and urinal flushing, hand-washing and hand-drying.

The Water and Energy Saver Range is designed to make all these areas work more efficiently by using less water and energy. That's good news for your costs and for the environment.

For more information on how the Water and Energy Saver Range can save you money, visit our website to use the handy calculators that show how much you can save:

24-7 Priority

24-7 Priority is a unique emergency service offered to all PHS Washrooms UK customers.

PHS Washrooms will carry out a free emergency service or repair by the next working day on all non-electrical items (working days are Monday-Saturday). For electrical items we aim to get to the customer within three days, or sooner wherever possible. This service helps customers with any unforeseen emergency or unexpected high visitor numbers.

Helping our customers look after their staff, visitors and customers.

Footsteps

At PHS we are proud of our achievements and the commitment our staff make every day to protect the environment and engage with the communities in which we operate. Yet we also acknowledge the scale of the challenge facing us if we are to reach our aim of becoming a truly sustainable business.

Our acknowledgement that this won't be an easy task is also reflected in the name we have chosen for our sustainability challenge. PHS Footsteps, our sustainability initiative, is a step-change programme designed to align our sustainability strategy with our company values, set realistic yet challenging targets and lead the marketplace in demonstrating a genuine commitment to becoming a more sustainable business.

Welcome to the **PHS Group plc**

PHS Washrooms is part of the PHS Group plc. The Group operates a wide range of services through separate trading divisions, most of which are leaders in their market.

As a result, the PHS Group currently takes care of over 250,000 customers at more than 300,000 locations across the UK and Ireland. Many of these are customers of more than one division within the PHS Group.
