

Portable Projection Screens

Vertigo® scissor action portable screens

Assisted lift floor screen

This stylish deluxe screen has an assisted lift scissor mechanism, making it simple to use. With a single handed operation the screen can simply be raised out of the case to your chosen viewing height. The tough aluminium case has integral carry handle and stabiliser feet that rotate for storage when not in use. Full black borders to top, sides and base create a crisp enhanced image. Available in both Widescreen (16:9) and Video (4:3) formats.
