ARTIFICIAL GRASS REPAIR KITS

Soft Surfaces would like to introduce their new easy to use artificial grass surfacing repair kits. Each kit contains all the materials required to repair small damaged areas to seams of synthetic turf surfacing.

vacuum) and Stanley knife to cut the tape and turf to length.

The [artificial grass repair kits](#) have been prepared to repair any failing joints, splits or damaged areas. The artificial grass repair kits include backed geotextile tape for joining of carpet seams, a single component moisture curing adhesive glue, mastic gun for the glue cartridge, pair of latex gloves and lastly a spreader with 4mm tongues.

3 meter kit - 1 glue cartridge + 3 meter tape + 1 mastic gun + 1 spreader + 1 pair of latex gloves

6 meter kit - 2 glue cartridge + 6 meter tape + 1 mastic gun + 1 spreader + 1 pair of latex gloves

The only additional items required are the ability to be able to remove the infill (either by stiff brush or better still suitable vacuum) and Stanley knife to cut the tape and turf to length.

We are able to carry out any repairs or installations should you require a price for this then please do not hesitate to contact our office!!
