CASE STUDY for ALDER HEY CHILDREN'S HOSPITAL MUGA

Case Study for Alder Hey Children's Hospital

Project Name: ITV's With A Little Help From My Friends

Project Address: Alder Hey Children's Hospital

Size of Project: 660m²

Works Carried Out: We worked closely with Granada Media Group during the making of the latest series of ITV's - *With a Little Help from my Friends*. The project was a [Multi Use Games Area \(MUGA\)](#) pitch with a finished polymeric surface.

"We successfully completed the project on Sunday, and the hospital and children are absolutely delighted with the results. They've asked me to relay their thanks to you for making such a fantastic project possible...Once again, on behalf of all of the Granada team, Kerry McFadden and Alder Hey Hospital, thank you and best wishes."

Polymeric MUGA Pitch

We worked closely with Granada Media Group during the making of the latest series of ITV's - *With a Little Help from my Friends*. Here is the finished [polymeric surface](#) with the goal end unit which incorporates basketball hoop and rebound fence.

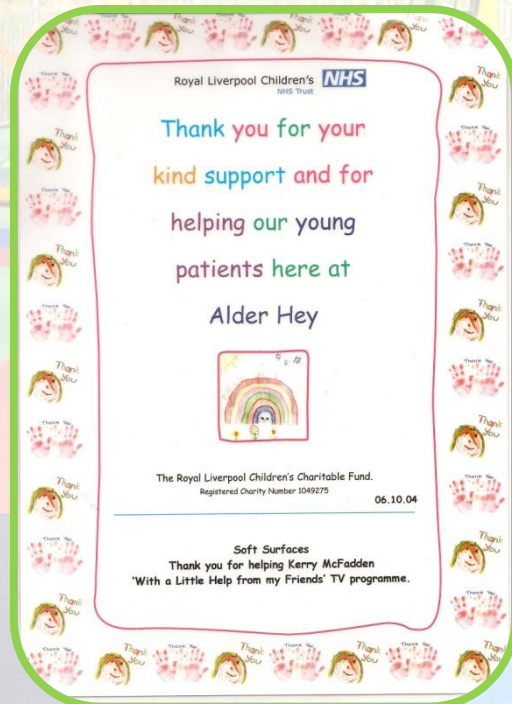

During the Installation

Below are photo's showing the Black [EPDM](#) Polymeric surface being laid over an open textured porous macadam binder course.

AFTER

Here is the completed Polymeric [MUGA](#) pitch that now the kids can play on in all weather conditions.
