

Combination Goal Ends

Combination goal ends are available in a range of specifications to meet every budget and site requirement and are highly vandal resistant.

Heavy-duty fencing panels are supplied with horizontal load bearing bars for increased strength. In addition to this our support posts are manufactured from square section giving a 'true ball rebound' to your [MUGA fence](#).

All these products are designed to handle extreme situations without losing the aesthetics of the equipment. You can feel assured that your purchase is a solid investment designed to withstand the test of time, vandalism and extreme weather. We offer a wide range which all the recess goals go well with [rebound fencing](#).

All the combination goal ends are hot-dip galvanised to BS EN ISO 1461 and powder coated giving the best possible commercial protection against corrosion.
