

# Soft Surfaces

SPORTS AND SAFETY SURFACES

## Horse Pathways

Horse pathways throughout the UK have proven very popular as it reduces the risk of injury to both horse and jockey dramatically which saves owners thousands in vet bills alone.

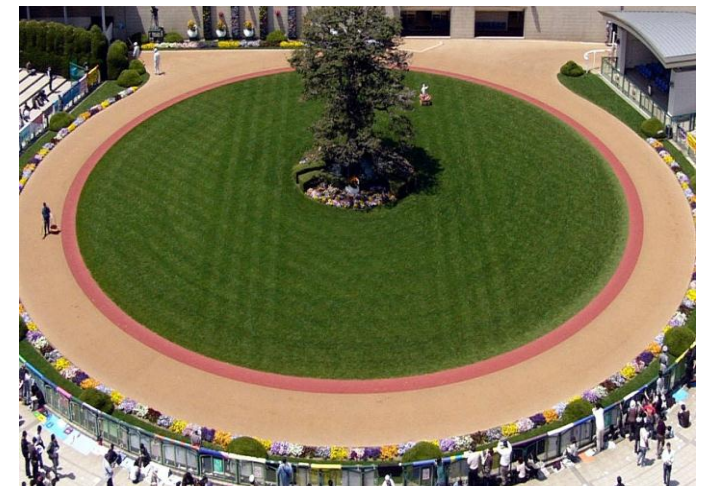

Many horse pathways are built with poor drainage causing puddling, have a loose fill finish which washes away and causes this to become slippery with constant surface maintenance needed which is time consuming and expensive.

We are able to supply a optimum solution for horse pathways in [wetpour](#) which are :

- Non Slip
- Fully porous so hold no water
- Virtually Maintenance Free
- Easily Repairable

The optimum horse pathway surface can be installed in any colour and able to install a racecourse badge, stable name or graphic within the [rubber surfacing](#).

## HORSE PATHWAYS

Water House, 35 Water Lane, Wilmslow, Cheshire, SK9 5AR
