

SPORTS SURFACING

110 INFORMATION TO BE PROVIDED BY THE CONTRACTOR

- Submit:
 - Sports surface and shockpad
 - Essential Information: Polymeric surfacing specification
 - Reference samples: Rubber Material with moisture cure paint

120 SURFACING FOR MULTISPORT AREA

- Type: In situ [polymeric surface](#)
- Performance: To British Standards MultiSport 15
 - Class: Multisport 15, Construction of Multi Use Games Areas
- Anticipated usage: to be confirmed
- Priority of activities: 1. 5-a-side football, 2. Netball, 3. Athletics, 4. Basketball, 5. Tennis
- Standard of play: Recreational, Training Pitch, MUGA Pitches

140 SURFACE GRADIENTS, EVENNESS AND FLATNESS

- Surface Regularity: As specified by on MultiSport 15 specification
- Deviation from the finished plane: As per Multi-Sport 15 specification
- Profile: Crossfall dependent on site conditions
- Gradients: Adequate for onsite location

230 IN SITU POLYMERIC SURFACING

- Sub-base: MOT, Base Course Bitmac, Wearing Course Macadam
 - MOT Sub Base Thickness: 200mm Type 1 MOT
 - Base Course Thickness: 50mm Open Textured binder course macadam
 - Wearing Course Thickness: 25mm Open Textured wearing course macadam
 - Manufacturer: Sports & Safety Surfaces, Tel: 01625 445760
- Wearing Course: 12mm - 15mm Polymeric surfacing with [MUGA](#) anti-slip coating
 - Manufacturer: Soft Surfaces Ltd, 35 Water Lane, Wilmslow, SK9 5AR
 - Tel: 01625 445760, Fax: 01625 525619
 - Email: info@softsurfaces.co.uk Website: www.softsurfaces.co.uk
 - Colour: From standard colour range
 - Health and Safety: CHAS accredited, API accredited, CONSTRUCTIONLINE accredited
 - Ignitability: The surface, when tested to BS 4790, must not be ignited or damaged enough to cause a ball to deviate from its true path: Not permitted
 - Joints: Must not significantly affect the playing performance.

420 LINE MARKINGS TO SURFACING

- Method of application: Painted
- Colour: White for primary sport then others on request
- Width: 50mm unless requested otherwise

COMPLETION

930 DOCUMENTATION

- General: For all types of surfacing, provide the following:
 - Name and contact details of installer.
 - Date of installation.
 - Name and contact details of manufacturer.
 - Type/ description/ reference of products used.
 - Manufacturer's recommended inspection and maintenance procedures to maintain safety and impact absorbing performance.
 - Manufacturer's recommended cleaning and maintenance methods, where relevant.
