

Sports Pitch Baffle Bund Banks

Sports Pitch construction usually has many issues during planning with the possible issues of noise pollution and excess excavated spoil going to landfill.

For planning applications all these measures need to be taken into consideration and the sports pitch baffle banks (aka amphitheatre viewing mounds or noise barriers) are a perfect choice to help aid any issues.

It is used from excavated top soil or sub soil which has been stripped off the sports pitch.

The [baffle banks](#) are perfect for fans to watch onto the pitch as a spectator area, help reduce the noise pollution acting as a noise barrier and prevent the need for any landfill off site.

SPORTS PITCH BAFFLE BUND BANKS

Water House, 35 Water Lane, Wilmslow, Cheshire, SK9 5AR
