

## SPORTS PITCH DIVIDER NETTING

### Sports Pitch Dividers Nets

Sports Pitch divider netting allows synthetic playing surfaces to be subdivided to maximise use of surfacing area.

These typically are constructed from 100mm square posts set in concrete. The sports dividing nets are ideal splitting a full size sports field into several courts running across the width of the playing surface.

- Dividing Netting post can be powder coated and galvanised
- Use manual hand winch to tension wire
- Available at various ground heights to suit sports fence
- Minimal sag over a 60m span
- 50mm mesh polypropylene [sports pitch dividers](#) netting

Water House, 35 Water Lane, Wilmslow, Cheshire, SK9 5AR
