

SPORTS PITCH SURROUNDS

Sports Pitch Surrounds

Sports pitch surrounds are a great way to promote sports clubs colour of the club and make the perimeter attractive.

Many old football and rugby stadiums had dirty, dusty, poor drainage walkways to the pitch surround which was unattractive and abrasive however at soft surfaces limited we have designed a 'multisport 15' polymeric surface which is a continuous surface. The benefits of the multisport 15 sports pitch surround is :

- (1) Resilient sports surface
- (2) Impact absorbing to cushion players falls on to the perimeter
- (3) Porous so is free draining
- (4) Can be supplied in any colour
- (5) Less abrasive than macadam
- (6) Low maintenance (easily can be repaired or resurfaces)
- (7) Long life expectancy
- (8) Low noise levels
- (9) All weather surface
