

# Doran Design is an established, multi-disciplined and creative design consultancy

We specialise in exhibition stand design (interior/exterior), three dimensional displays, corporate interiors, event staging, and signage design. We are supported by an experienced and creative graphic design team who cover corporate identity, packaging, branding and press advertising.

## Case Study

Client: POWA Technologies

### World wide product launch for POWATAG & POWAPOS

Working again with Can-Can Presentations, this project was a world wide new product launch that has taken well over 2 years and is still running. It started with a few 'toe in the water' events in the UK and USA followed by press launches in London, New York and Paris. Then followed by a series of trade show stands around the world. Major stands at shows in Paris, New York and Barcelona, together with mainly reusable modular constructed stands at major exhibitions all over America and Asia.

If you have a new product or service to launch, whether local or worldwide, please contact us.
