WHEN PRECISION IS EVERYTHING

The Treston ZL3 Task Light is the ideal desk-mounted lamp for precise work where light intensity, contrast and positioning are important.

Together with a large built-in magnifying glass, six LED bulbs and independent left/right dimming functionality, this light gives superb control, allowing the operator to set just the right light level according to the work at hand and the surrounding environment. Environmentally friendly with LED bulbs that can last for decades, the ZL3 is easy to secure on any work surface of 55 mm or less, and infinitely adjustable.

TASK LIGHT ZL3 SPECIFICATIONS

- 6 long-lasting dimmable power LEDs, 3 on each side
- Independent left/right dimming (10 settings)
- Last-setting memory
- Colour rendering index (CRI): 70
- Large, 127 mm 3-diopter magnifying glass
- Made of anodized aluminium, glass and UV-stable polycarbonate
- Adjustable table clamp included for worktops up to 55mm thick
- Mains lead length of 2 meters makes positioning easy
- High quality Schuco plug; British Standard plug optional
