Salon & Spa Furniture

Carlton Professional Collection

We are pleased to present to you a well co-ordinated range of equipment, portable equipment and products designed by experts, built by Specialists and used by true Professionals worldwide.

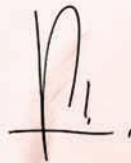

Carlton Professional equipment is renowned for its high quality, durability and exceptional value. Used by Spas and Beauty Therapists for many years it offers service you have the right to expect.

We, at the Carlton Group, take pride in having been regularly chosen by Local Authorities, Colleges of Further Education and by virtually all Beauty Schools requiring updated or additional equipment or furniture. We also pride ourselves on the service we deliver to our clients remembering that they always have a choice, so we look forward to assisting you with your professional requirements.

Considerable care has been taken to ensure an accurate description in this brochure, but we reserve the right to change the specification of any item without prior notice. Please also note that sizes and colours may vary. For more information, please visit our website www.thecarltongroup.co.uk or contact our sales office staff who will be delighted to help you.

Ballerina

600 SERIES

This magnificent range of de-luxe couches has been ergonomically designed to provide maximum comfort and support for your client whether adjusted for body treatments, facials, epilation or massage. '600' Series couches transform from a flat massage plinth, through a whole range of reclining positions to a luxurious beauty treatment chair.

The Ballerina is a fully electric treatment couch. Aesthetically pleasing and extremely comfortable with 3½" upholstery, it's a must for the salon that wishes to offer ultimate luxury to its clients. Contoured arms with double sided upholstery so when they are placed back for massage the underside is padded to form armrests. Streamline contours and upholstered base really complements the elegance of this couch. Two headrests are included so massage can be performed.

Available in white as standard
Black - extra charge

Electric CC 600/B

SIZE: 1880-2030 x 560-760mm
(including arms)
HEIGHT: 670 to 850mm
WEIGHT: 70kg

Luxury Spa Couches

700 SERIES

Another choice of exceptional couches, giving you versatility of style and flexibility for your salon / spa. Ergonomically designed and with the busy therapist in mind, every effort has gone into these couches to give reliability, comfort and ease of use.....

An elegant stylish four section couch, ideal for luxury facials, massage and body treatments. The couch uses two silent motors, one to raise and lower the couch, the other to lift the leg rest. Both movements are controlled by foot pedal. The backrest is adjustable by gas lift allowing a smooth action for the client and ease of use for the therapist. The couch comes as standard complete with roll holder, adjustable, removable armrests (not shown), prone armrest, solid headrest and American crescent headrest.

Other colours available on orders of five or more. Heated upholstery available as an option and special order.

CC 700/EL DT - same characteristics as the CC 700/EL but available in duotone as special order. (5 or more pieces)

Electric CC700/EL

SIZE: 1750-2050 x 740-1040mm
(including arms)
HEIGHT: 490 to 860mm
WEIGHT: Approx. 65 kg

CARLTON
Professional

Centrun Luxury Spa Couch

This Spa/Salon Couch particularly indicated for face and body treatments as well as for massage, features an innovative and unique design. Centrun is equipped with three electric motors that adjust height and seat inclination and backrest inclination, through a practical foot control, ensuring maximum comfort to the client and allowing the therapist the pleasure of working with absolute ease.

Centrun is an expression of style; the particular structure of wood and steel base, fine finishing touches and innovative technology create a versatile solution, which can be introduced in harmony in any professional setting. The 12 cm (4³/₄") thick mattress with double stitching is particularly comfortable and is not divided into sections ensuring the client a high level of comfort. The mattress is made from foam that maintains its form. Centrun is provided with adjustable crescent headrest with face hole, solid headrest and towel roll holder (prone armrest optional extra). These features enable the therapist to perform both body and face treatments.

Centrun in the perfect combination of functionality and design, thus it becomes a real and exclusive piece of furniture for your Spa/Salon.

Centrun CC770/C

SIZE: 1720 - 2000 x 740mm
HEIGHT: 660 - 870mm
WEIGHT: 89 kg

Foot pedal

Prone armrest

CARLTON
Professional

Luxury Beauty Couches

For sheer elegance and styling perfection, this top of the range couch is without equal. Each ergonomically designed body section can be infinitely adjusted by a silent 12 volt DC motor at the touch of a button on the remote control hand set. With the sophisticated electric motor controlled hydraulic lifting system and synchronized movement (back + legs) it is a must for the busy salon. Trendelenburg action (tilt). Your clients will relax on the luxurious, box stitched mattress which is contoured for maximum comfort, yet resilient for massage. Complete with adjustable headrest through an integral button at the rear and adjustable feet for complete stability.

Electric Luxury CC 600/XL

SIZE: 1900-2300mm x 620-740mm
(including arms)
HEIGHT: 620 to 920mm
WEIGHT: 77kg

Model CC600/H has simple, manually operated controls, assisted by a gas pump where necessary, to adjust each articulated section independently without causing any inconvenience to your client.

The height is adjustable by means of a foot operated pump. This couch can rotate on the central pump through 360° and can be locked in any position by slightly lifting the foot ring. Downward pressure on the foot control allows the couch to sink to the lowest position.

Hydraulic CC 600/H

SIZE: 1900 x 620-740mm
(including arms)
HEIGHT: 680 to 870mm
WEIGHT: 62kg

A split leg model for pedicure is available in this series.

Multi-couch

300 SERIES

This multi-couch provides total comfort for the client in each of its many positions. By simple adjustment the couch can be easily converted from a completely flat massage plinth to a luxurious relaxation couch ideal for facial treatments. The back support is 100mm longer than a standard couch, which lowers the bend to conform to the body. It also allows lifting and lowering the client's legs for added comfort.

CC 300/XF

SIZE: 1800 x 650mm
HEIGHT: 750mm
WEIGHT: 41kg

Treatment Couch

High quality general purpose massage or treatment couch with a multi-positional back support.

CC 300/CL2

SIZE: 1845 x 610mm
HEIGHT: 740mm
WEIGHT: 35kg

Hydraulic Multi-couch

300 SERIES

This double hydraulic couch provides total comfort for the client in each of its many positions. By simple adjustment the couch can be easily converted from a completely flat massage plinth to a luxurious relaxation couch ideal for facial treatments. The back support is 100mm longer than a standard couch, which lowers the bend to conform to the body. It has a full adjustable height control. With two sturdy pumps, it can offer an incredible range of angles and positions. The main section is manufactured in two pieces connected to an adjusting lever enabling you to lift and lower the client's legs for added comfort. The weight taken from the back of the knees during a facial treatment helps the client to relax. Detachable neck roll is included.

Hydraulic CC 300/HX

SIZE: 1800 x 650mm
HEIGHT: 700 to 850mm
WEIGHT: 52kg

Paper Roll Holder & Breathe Hole

The '300' series couches are all fitted with a paper roll holder and a breathe hole. An upholstered plug is supplied to fill the breathe hole when not in use.

CARLTON
Professional

Electric Multi-couch

400 SERIES

This extremely versatile couch is both unrivalled in quality and unbeatable in value. Its luxurious padding is very comfortable for facials, but firm enough for massage. With electric adjusting backrest, electric up and down movement and its ergonomic design it is truly a multi-functional couch for both the beauty salon and spa alike.

- Four section couch with extendable footrest
- Electric lift and electrically adjustable backrest
- Gas assisted leg rest
- Chair position 90 degree leg rest

WEIGHT: 85kg

Solid headrest

CC 318 Therapist's Stool available separately

CARLTON
Professional

Spa Wet Table

This is the ultimate in wet tables. Designed for water containment and adjustable in height with two hydraulic foot pumps allowing ease of use. The top is moulded from durable ABS plastic which creates a rounded surface that is silky smooth. A generous trough and drainage system keep "wash-off" away from the client.

The vinyl coated closed cell foam pad* is easily sanitised and allows your client to lie in comfort during their treatment.

*Some oils and salts can be very destructive to pad surface

Spa Wet Table CC 700 WT

SIZE: 2090 x 890mm
HEIGHT: 560 to 870mm
WEIGHT: 90kg

Trolley System

CARLTON 3 tier trolleys are beautifully finished in white epoxy resin baked at 180°C over a strong, welded steel, box section with steel shelves and fitments.

Certain large items of therapy equipment, a HYDRADERMIE MACHINE UNIT for example, necessitate the use of a large size trolley. The generous dimensions will accommodate even the largest item.

Drawers are available to fit under either of the lower shelves and are offered in a choice of three designs.

D1 - Plain drawer without divisions

D2 - Drawer divided into four sections

When working, a drawer may be clipped on to the side of a standard trolley top. To enjoy this facility with the large trolley it is necessary to order a support bracket Code: S. For epilation or facial treatment with a machine it is recommended that you use a trolley fitted with a G bracket so that both the lamp and machine can plug into the integral power sockets thus eliminating trailing leads.

When placing your order please specify the code followed by the code letters of the accessories required (A, B, D etc.) and finally the size (large or standard). For example; a typical epilation trolley with three tiers, two drawers, lamp bracket with twin socket and a magnifying lamp would be as illustrated above.

Auxillary Fittings

- A - EXTENSION ARM (130mm) for lamps
- B - BRACKET without power socket for lamp
- D - DRAWER to slide under lower shelves
- G - BRACKET with twin power socket for lamp
- R - HOLDER for 255mm (10") paper roll
- LF - MAG LAMP to fit A, B or G
- S - SUPPORT to clip drawer on large trolley top
- W - WALL BRACKET

CC 305/DDGLF Standard

CC 305 Large

CC 305

STANDARD

SIZE: 520 x 320 x 780mm

WEIGHT: 9.5kg

LARGE

SIZE: 520 x 480 x 780mm

WEIGHT: 12kg

Trolleys

CC 302

SIZE: 130mm diameter

Sterilsafe™ ... Totally New Technology

Don't leave cleanliness to chance

Take away all your sterilising, sanitising problems by using Sterilsafe with Byotrol, the new innovative, sterilising system.

The company has developed and patented a new antimicrobial technology whose core proposition is safety, ease of use and delivery of a complete antimicrobial solution. Already used in Healthcare, Food and Drink, Technical and Commercial sectors, Sterilsafe with Byotrol is now launched for the Beauty - Spa and Hair market.

It is widely understood that simply killing micro-organisms is not too difficult. For years, high temperatures, strong chemical agents and sprays used either alone, or in combination, have been the traditional first lines of control.

A big effect on small things

Byotrol is a new approach to an old problem and like all the best ideas the principles behind it are quite simple.

Byotrol Technology is underpinned by two, easy-to-see and very natural rules. Firstly, the most obvious and common feature of all microbes is that they are very small. Secondly, very small things, including organisms, are affected in a very big way by extremes of surface tension and surface energy. Larger ones are not. This is why a small insect can 'walk' on the surface of a pond, whereas a cow or even a mouse cannot.

Byotrol harnesses and amplifies the power of surface tension, transforming the microbe's world into a place uniquely inhospitable to them, but safe and sanitised for us.

The Sterilsafe™ System

Active against a wide range of organisms, bacteria, algae, fungi, viruses... (Including MRSA, SARS, TB, HEPATITUS B, HIV-1, E-COLI, LEGIONELLA AND LISTERIA), Medical Standard.

This formula containing biocides and polymer sterilises in ten minutes. The 1 Litre bottle of concentrate gives 40 weeks supply. Active solution is 100% effective for fourteen days. Suitable for all your non-wooden salon implements.

COLD STERILSAFE SOLUTION:

- No Aldehydes
- Non Hazardous
- Non Odorous
- Non Staining
- Non expensive peace of mind
- Anti Rust Formula
- Concentrate used 19 : 1
- User Friendly
- Convenient 1 Litre sterilising tray

1 Litre bottle with measure.

CARLTON
Professional

Hygiene, Hygiene, Hygiene

Leave nothing uncovered!

Sterilsafe™ Spray

A selection of known biocides is associated by non-chemical bonds to an inert polymer structure that is strongly hydrophobic. When applied, this combination forms a nano-scopic mono layer to both wet and dry surfaces, killing viruses, bacteria cells, spores, fungi and algae on contact. Beyond this initial application, Sterilsafe, with Byotrol, then inhibits biofilm formation through a mechanism that interferes with, or disrupts microbial attachment. This physical effect has a bearing on all types of micro-organisms substantially disrupting their ability to adhere or reproduce. **It is the only product on the market with ongoing efficacy.**

As a ready to use spray it is convenient and always to hand. With a deodorizing action too it keeps areas cleaner for longer, giving total peace of mind.

500ml spray bottle.

Sterilsafe™ Hand Mousse

A simple, easy to use, pump action mousse to protect you and your clients. Un-perfumed - No alcohol. An indispensable hand cleanser and protector against micro organisms. Totally cleanses the hands and forms a nano-scopic film for long lasting protection. Kind and gentle to the skin, leaving it feeling soft and moisturised.

Gives rapid, long lasting protection against all micro organisms.
600ml refillable bottle with pump.

Sterilsafe™

This indispensable hand cleanser and protector is also available in a practical 1 Litre container with handle in order to easily refill the 600ml hand mousse bottle.

Sterilsafe™ Surface Wipes

These very strong textured wipes are designed for thorough, effective cleaning of contaminated yet delicate surfaces. They combine a high performance non scratch wipe with Byotrol's unique anti-microbial formula.

Fragrance free. Alcohol free. Approx: 75 wipes.

Spread the word not the germs.....

The Carlton Group

TRAINING: At the Carlton Group our professionally qualified staff have an ongoing commitment to offer training, support and advice for all our equipment and products as a foundation for future development.

TRAINING CENTRE: Our 3000 sq.ft fully fitted training centre within the "Carlton Tower" enables the company to offer the finest post-graduate training and Continual Professional Development days, as well as courses on specific pieces of equipment. The centre offers prestigious facilities for up to 10 therapists to receive theoretical and practical training on specialised equipment in a professional yet relaxed atmosphere.

Colleges are invited to arrange visits for lecturers and students to refresh and update their skills and information.

LUXURY SHOWROOM: Our luxurious showroom facilities have been designed as a spa/salon with the client's total comfort in mind. The showroom is presented as a series of individually stylised treatment rooms, each reflecting a different atmosphere through colour scheme and type of treatment, to offer the client a realistic environment in which to view, try out and analyse the equipment in a hands-on experience. Appointments are reserved to allow privacy and undivided attention.

EXPORT: With over 60 years of experience, Carlton Professional now exports to over 50 countries. The reputation and service offered by Carlton is renowned throughout the world. Used by many overseas Beauty Schools, Carlton equipment is requested by new therapists as their choice of equipment when opening their own salons. Supporting international exhibitions and visiting distributors to enhance their product knowledge and training contributes to increase our clientele all over the world. The "Carlton Family" overseas grows every day. Nowhere is too far and no job is too large or small. The personal attention given is our strength. *Everyone is important ...*

DELIVERY: As a manufacturer, the majority of our items are ex-stock, meaning our delivery service is prompt, efficient and reliable. Over the years our experience has enabled us to offer our clientele a high level of service and it is always our aim to constantly maintain this by regularly updating our training and systems. *We never forget you have a choice ...*

WARRANTY: Because of the confidence we, at the Carlton Group, have in our brand, we are very proud to offer a **five** year guarantee on all Carlton Professional electrotherapy machines, and two years on vapourisers and furniture. Should you ever experience a problem, there is always someone to help and advise you. *Remember we are only a call away ...*
