80 years of supplying excellent quality timber and all that goes with it.

Branch Distribution Centre - Edenbridge

Profile design and matching service

Reliable deliveries

Extensive range of timber in stock

Excellent customer service

Investment in technology

Why choose Champion for your Timber?

We're the South East's leading independent timber specialists with over 80 years experience of supplying the building trade.

*Only items identified as such are PEFC certified

*Only items identified as such are FSC® certified

Quality of product

- For our Softwood Planed Timber and Mouldings, we only use prime quality timber, then re-grade and machine it at our extensive Edenbridge mill to meet our own stringent standards. This is sourced and imported from the most responsibly managed Nordic forestry companies.
- On-going investment in technology ensures quality, accuracy, consistency and with our Planed Timber and Mouldings, a super smooth finish. This guarantees you minimal preparation and wastage, so you save time and money.

Range and breadth of stock

- Machining our own timber ensures all of our branches carry a vast range of profiles and extensive stocks, all properly kiln dried. This ensures a continual supply of stock always ready to go for your next job.
- Our selection of around 15000 timber and timber related products ensures more choice and provides a credible single source solution saving you valuable time and money.

High standards of customer service

- Champion employs helpful, knowledgeable, motivated staff who benefit from on-going training and development continuously proving our customer service.
- Unusual or 'one off' jobs are no problem as we offer a prompt machine-to-order service from our own mills.
- Reliable, local deliveries, please contact your local branch for more details.

Always keeping ahead

- As an independent company, we anticipate and react quickly to changing customer demands and product improvements.
- We comply with all British and International regulations and guidelines regarding sustainability of timber resources and have a clearly defined environmental policy.
- Nine branches in Surrey and Kent.

To obtain an estimate or to place an order there are five easy options:

- 1 Visit your local branch, we're ready to serve you.
- 2 Telephone your local branch, we're ready for your call.
- 3 Fax your request or order to your local branch.
- 4 Email your local branch with your request or order.
- 5 Online at: www.championtimber.com

PLEASE NOTE WE ACCEPT:
 Visa, Mastercard, Switch/Maestro,
 Branch details are on the reverse of this brochure.

Back Cover

White Moulded Panel

6 PANEL TEXTURED

Moulded Panel Doors

Available in 2, 4 and 6 panel configuration in both smooth face or textured.

- Manufactured using hard-wearing FSC accredited moulded one piece facings
- Factory primed ready for painting
- 4 and 6 Panel Textured can also be stained

Fire Doors

Doors are compliant with British Standards and the BWF Certifire Scheme. They provide a 30 minute FD30 fire rating only when hung in the appropriate frame with the appropriate ironmongery and with intumescent strip installed in either the frame head and jambs, or top and long edges of the door. For details of Intumescent Strips available from Champion, see page 19.

Exterior Oak French & Folding Doors

EXTERIOR OAK FRENCH DOORS

Premdor french doors are high specification systems which make an impressive statement as part of any home.

All of our timber components are manufactured using the latest technology to reduce warping or twisting.

Exterior Oak French & Folding Doors

- The doors are 54mm thick, and both doors and frames are built using a modern engineered construction, with a solid hardwood core and 3mm oak surface
- Sets are supplied 'ready to assemble', with most components pre-machined at our factory
- The 24mm double glazed units incorporate special Low 'E' thermal glass, which is toughened to BS EN 12150 and BS EN 12600
- Supplied unassembled for on site assembly, with full fitting instructions included
- Our sets incorporate double weather and draught seals
- Supplied with chrome hardware
- Doors are open out only, the main opening door can be left or right

Exterior White French & Folding Doors

EXTERIOR WHITE FOLDING DOORS

Premdor folding doors are exceptionally affordable without compromising on quality and specification.

Our hardwood folding white doors are fully finished using a 3 coat Hi Build Microporous Wood Coating System, so they are ready to install on site without further finishing.

Manufactured using FSC certified material, our sets are fully reversible so can be hung to operate from right to left or left to right.

Exterior White French & Folding Doors

- The set includes a 3 point locking system plus internal keyed drop bolts for extra security. The 3 point security locks are PAS 23/24 tested
- Supplied unassembled for on site assembly, with full fitting instructions included
- The doors are 54mm thick, and both the doors and frames are built using a modern engineered construction, with a solid hardwood core and 3mm hardwood veneered surface
- Folding doors are supplied with a fully finished hardwood cill with aluminium sub cill for drainage
- Supplied with chrome hardware

Fire Doors

Flush Fire Doors are compliant with British Standards and the BWF Certifire Scheme.

These Doors and the Door Blanks provide a 30 minute (FD30) or 60 minute (FD60) fire rating only when hung in the appropriate frame with the appropriate ironmongery and with the appropriate intumescent strip installed in either the frame head and jambs, or top and long edges of the door.

Door Blanks

Solid timber construction with a face veneer either side. Ideal where a non-standard flush door is required. Can be trimmed to size and glazing apertures added. Glazing aperture will have size limitations if used as a fire door.

- 'Lite' version about 20% lighter than standard door blanks
- Plywood veneer for painting/MDF facings available to order
- Internal or external use
- 44mm thick suitable to make a 30 minute fire door

Note - FD30 rating achieved only when lipped 2 long edges and hung in the appropriate frame with the appropriate ironmongery and with the appropriate intumescent strip installed in either the frame head and jambs, or top and long edges of the blank.
