316 Grade
Top quality stainless steel.
Also known as A4 grade, marine grade & food grade.
Roller ball style
Developed for highly corrosive applications. This material has a high Molybdenum and elevated Nickel content which increases its resistance to corrosion, it resists scaling at high temperatures and maintains good mechanical properties.
Can be joined for longer lengths.

High quality stainless steel cable tie has good resistance to corrosion.
Stainless steel cable ties can be used in applications of extreme temperature and hostile environments.
These ties have excellent resistance to weathering and ageing.
Can be joined for longer lengths.

POLYPROPYLENE CABLE TIES

From £28.37

RoHs

Polypropylene cable ties are ideal for use in aggressive chemical environments where chemical effects on nylon are a concern. They are not affected by inorganic acids (hydrochloric), polyhydric alcohols (ethylene glycol), neutral salts (sodium chloride) and basic salts (sodium bicarbonate). They also resist a number of other chemicals with good results, although have a lower tensile strength than Nylon 6.6.

Self Extinguishing and Halogen Free
Temp. Range: -50° C to 150° C

Monofilament Diameter 0.22mm

High Abrasion Resistance

An economical answer to the installing, protecting, strengthening, enhancing, assembling over bundles, wires, cables and flexible pipings. This expandable braided sleeving is both tough and lightweight and can be used in all industries. Designed for thermal insulation and mechanical protection.

The special braided characteristics allows for the expansion of its internal diameter, whilst contracting its length, allowing easy assembly of cable bundling and the general protection of electrical conductors and other components.

WRAP AROUND BRAIDED SLEEVING

From £0.60/m

RoHs

Operating Temp:

-50° C to 150° C

Zero Halogen.

Flame retardant and self extinguishing.

Simply wrap the braid around the length of cable or wiring that needs protection and twist to tighten, offers full braid protection.

VIBRATION WARNING TIES

From £4.46 **RoHs**

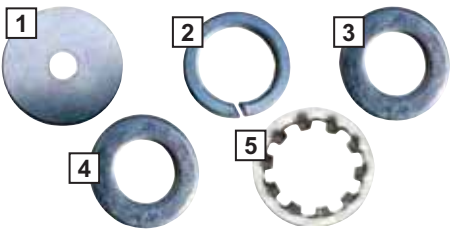

SEE UTILITY MARKING TIES FOR SPECIFICATION TABLE

For vibrations above 10m/s²
For vibrations between 5 & 10m/s²
For vibrations below 5m/s²

Durable and flexible ties easily attach to tooling without additional fixings, providing long lasting and simple identification. Printed cable ties to help control the risk of excessive exposure to hand arm vibration using a vivid colour coded system. A cost effective method to assist risk management.

AEROSOLS

PLEASE NOTE: DUE TO ADR REGULATIONS, WE ARE ONLY ABLE TO SHIP AEROSOLS TO UK-MAINLAND ADDRESSES

1 Copper Grease Spray
Spray copper grease is a multi-purpose assembly compound providing protection from seizure corrosion. Ideal for preventing disc brake squeal, exhaust manifold studs / nuts / wheel nuts / bolts, battery terminals & axle arms. Operating Temperature -20°C to +1100°C.

2 Duck Oil Aerosol
A silicone-free, non-conductive, multi-purpose service spray. Exceptionally low surface tension means it can easily penetrate, lubricate and protect with no need to dismantle machinery and parts.

3 Jizer Aerosol
Parts degreaser that will quickly dissolve heavy deposits of mineral oil, grease, tar, bitumen and waxes. Water rinsable, can be used for removing oil and grease marks from many floor surfaces, tar spots and oil from body work and cleaning paint brushes.

4 Spray Paint Available in:
-Matt Black
-Gloss Black
-Grey Primer
Acrylic formulation
High density spray paint
Suitable for metal, wood, cardboard & most plastics

5 De-Icer
Fast acting concentrated De-icer gives a speedy and efficient removal of ice, frost and snow from wind-screens while helping to prevent re-freezing. Handy to keep in the car and is effective to temperatures down to -40°C.

6 Cleaner & Degreaser
Powerful quick-drying cleaner and degreaser for various maintenance and assembly jobs. Suitable for cleaning and degreasing mechanical parts. Also suitable for the preparation of surfaces for the application of sealants or adhesives.

7 Brake Cleaner
Powerful, fast-drying cleaner for brake and clutch parts. Removes excess brake fluid, excess oil, dirt, etc. quickly. Prevents squeaking brakes and clutch slipping. Easy to apply from all angles and does not corrode metals.

8 PTFE Spray
High-grade lubricant based on PTFE for the treatment of metal and plastic parts. Resistance from -50°C to 250°C. Repels water and dirt. PTFE offers long-term protection against friction and prevents wear.

9 White Grease
High-grade lubricant based on white lithium soap with PTFE (Teflon®) additive for heavy duty applications. Water resistant and protects against corrosion. Suitable for vertical applications, does not flow down or drip. Suitable for temperatures of -20° to +120°C.

10 Multi Spray
High-quality universal spray to be used on screws, bolts, nuts, moving parts, axles, hinges, chains, garden tools, etc. Corrosion resistant. Has a penetrating action and a protective film remains after cleaning. Does not corrode plastics and metals. Prolongs the life of rubbers.

11 Degrip All
Degrip All is a high quality penetrating oil which dissolves rust and corrosion. Highly efficient in releasing corroded and rusted metal parts such as nuts, bolts and machine parts. Due to the very low surface tension Degrip All penetrates into very small openings to release stuck parts.

12 Cutting Oil
Cutting oil is a high quality oil which prevents overheating of metals when cutting and drilling. Excellent anti-mist characteristics. Reduces resistance against cutting and mechanical tension of cutting tools. Non corrosive, does not contain silicones. Suitable for: a variety of cutting & machining operations on steel and most ferrous- and non-ferrous metals

13 Sealant Remover
A ready-to-use and fast-working spray based on terpenes for removing hardened silicones and Polymers. Can be applied on most surfaces, including aluminium, coating, ceramics, laminated board, paint and certain plastics. Applications - Removal of old silicone residue, spilled silicone from different kinds of surfaces. Fast-working, does not drip, specifically for silicones.

14 Contact Spray
Universal spray for the cleaning & maintenance of electric contact areas. Dissolves corrosion and oxidation. Reduces humidity. Non Corrosive. Suitable for interior and exterior applications. Suitable for electric contact points such as switches, batteries, and light switches. Cleans and deoxidizes surfaces and improves the power transmission at electric contacts. Stops moisture penetration. Also suitable for dehumidifying of electric wirework and tools.

HOW WE OPERATE:

We are passionate about our fair-minded approach to business and we will always do our utmost to satisfy all of our customer's requirements. We will consider individual circumstances for any issues that may arise.

1 PRICES

- 1.1 All prices including carriage are subject to VAT
- 1.2 Prices shown are accurate at the time of going to press.
- 1.3 If an error or misprint has occurred in which the price of an item is inaccurate, we reserve the right to supply goods at the intended price.

2 E & OE

- 2.1 Pictures are for illustration purposes only and may vary slightly from the actual products supplied.
- 2.2 All product descriptions, colours & styles etc, shown within our catalogue, are actively monitored to minimise variations however some disparity can occur.

3 DELIVERY

- 3.1 A signature will be needed upon delivery of your goods. Goods being left without a signature would be at your own risk and must be requested prior to despatch.
- 3.2 Next day delivery to UK mainland addresses are almost always successful but cannot be guaranteed.
- 3.3 We unfortunately cannot accept liability for any consequences regarding carrier performance. We will do our best at all times to limit the effects of any carrier failings and will deal with these on an individual basis dependant on circumstance.

4 PAYMENT

- 4.1 Payment must be made in full before your order is despatched unless a credit account has been agreed prior to your order. If paying by cheque or bank transfer at the point of order please wait until a pro-forma invoice has been issued.
- 4.2 Credit accounts will only be opened when an application form has been completed, accepted by us and your credit facility agreed.
- 4.3 We reserve the right to withdraw credit facilities at any time. Any late payments may jeopardise this facility.
- 4.4 Overdue payments being made by credit cards may incur charges.

5 RETURNS

- 5.1 We do our utmost to satisfy customer requests with regard to returns. Please be aware that we are unable to process any returns without prior arrangement.

6 ORDERS

- 6.1 Orders are processed in a short space of time and despatched throughout the day to meet our delivery deadlines. We cannot guarantee that orders can be amended once processed.
- 6.2 We sell goods only on the understanding that the buyer shall be responsible for ensuring suitability of fitness of goods for the intended use.
- 6.3 By placing an order in any format you will be accepting our 'Offer of goods for sale' as we have specified within our Terms and Conditions and your order will be processed without delay.

Our Standard Terms and Conditions are available on request.

PLUS OVER 300 VARIATIONS OF CABLE TIE

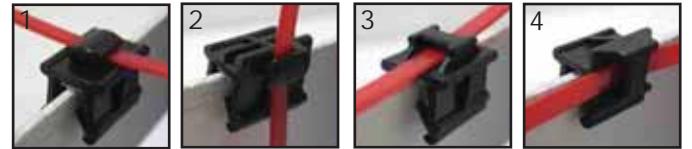

EDGE CLIPS

POPULAR IN THE SOLAR AND AUTOMOTIVE INDUSTRY

NEW

Edge clips are an excellent solution for the attachment of cables, wires and tubes on a plastic or metal profile. We offer edge clips for different applications; with an option of 2 sizes with the cable tie fastening on the top or the side of the clip and with the direction of the cable tie either right angled or parallel to the profile.
