OUR MISSION IS TO EXCEED OUR CUSTOMER'S EXPECTATIONS IN THE PROVISION OF INNOVATIVE SECURITY PRODUCTS AND INSTALLATION TO THE HIGHEST STANDARDS

ABOUT US

04

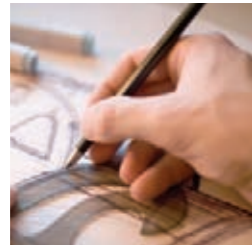

05

We are experts in school security: a well established independent family business that for **20 years** has been **improving the security** for schools, colleges and academies. No one is better placed to help you create a **safer, securer environment**.

PRODUCT & SERVICES

DESIGN

We offer an advanced design service dedicated to your project bringing together a unique cohesion of all safety, technical and aesthetic considerations to ensure that the solutions proposed are sympathetically blended in to the existing environments without any compromise on the security of your pupils.

MANUFACTURE

We offer a full inhouse manufacturing service giving our clients the options and flexibility required to achieve our aim of 100% project satisfaction. Made to measure gates and railings are fabricated to highest standards and to suit the school requirements.

INSTALL

Installations are carried out by our highly trained operatives and to an industry leading standard causing minimal disturbance to the school. We ensure that comprehensive method statements and risk assessments are carried out for each project and presented on commencement of site works.

MAINTAIN

We offer a maintenance service for all our products both for peace of mind and to comply with regulations where required. We provide fully comprehensive service contracts and non binding service agreements if required.

5 REASONS TO CHOOSE US

1

TRUSTWORTHY

In the sensitive security environment of educational premises we ensure our surveyors, installation teams and indeed all our staff are CRB checked and have the relevant training, instruction and skills to deliver the job with the minimal disruption.

2

QUALITY PRODUCTS

Our products are hand crafted to the highest s and rigorously inspected prior to despatch from our workshops. All installations are rigorously tested prior to leaving site ensuring 100% product satisfaction with every project.

3

FLEXIBILITY

We offer full flexibility throughout the whole process of design, manufacture and install as we work to accommodate our clients time constraints and individual specialist requirements to provide a tailored security package every time.

4

RELIABILITY

We offer consistency throughout the whole project by assigning a project manager and key members of staff to each project so that at any point, in any project, our client can make contact and discuss any alterations with a dedicated support team for their particular project.

5

CLIENT CARE

We value your custom... we know you don't have to buy from us so we treat every customer like our only customer and offer the same excellent level of care and aftercare to each and every one.

OPTIONS

- Palisade
- Mesh
- Basic Railing
- Decorative Designs
- Bespoke

TYPES

- Palisade
- Sports Mesh
- High Security
- Paladin
- Weldmesh
- Railings
- Bow Top Railings
- Anti-climb Mesh
- Twin and Single Wire Mesh

APPLICATIONS

- Playground Fencing
- Boundary Fencing
- Sports Fields
- Sports Pitches
- Entrance Paths
- High Security
- Safety Fencing

COLOURS AND FINISHES:

- Galvanised
- Powder coated to any colour
- Standard stock colours are available

1. Bow top railings
2. Railing type fencing
3. Sports mesh fencing
4. Palisade fencing

“ We were very happy with the service Harling Security provided. They produced a competitive quote and were able to meet our needs exactly. Work progressed on time and we were extremely pleased with the quality of work. ”

WHEATFIELDS
INFANTS SCHOOL

We can provide fencing to suit all applications and budgets, with a massive range of heights and fencing types. We can provide standard off the shelf fencing as well as specially made fencing and railings.

Whether choosing from our vast selection of standard colours or matching to your bespoke Pantone our fencing enhances the perimeter of any educational premises, not only creating an aesthetic enhancement but also providing a safer and securer place to learn.

Our fencing and railings are made and installed to current regulations and ROSPA specifications are available where required.

DECORATIVE RAILINGS & GATES

APPLICATIONS

- Traffic control for vehicles and pedestrians
- Security
- Car parks
- School entrances

OPTIONS

- Manually operated options are lockable by key or padlock

Automatic Options:

- Remote control fob, can be opened from inside a vehicle
- Swipe card and swipe fob systems
- Free exit loop, opens automatically when vehicle approaches from inside
- Intercom systems
- Timers

1. Decorative gate
2. Gate with laser cut design
3. Arch with school crest and name
4. Decorative gates to Wood End Academy

“ It has been a pleasure doing business with Harling Security Solutions. From an idea to the finished product, a perfect entrance for our academy. Thank you. ”

WOOD END ACADEMY

We can design, manufacture and install a range of decorative gates and railings, from a selection of our range of standard designs, or we can work with the school to design and make a gate designed exactly to what you want, which can incorporate the school logo or name if required. These gates can then be manually or electrically operated.

An impressive looking set of gates and railings can transform the entrance and the entire look of the school, whilst improving security.

BARRIERS, BOLLARDS & TURNSTILES

APPLICATIONS

- Traffic control for vehicles and pedestrians
- Security
- Anti-ram products
- Car parks
- School entrances

OPTIONS

- Free exit loop, opens automatically when vehicle approaches from inside
- Intercom systems
- ANPR systems
- Timers

1. Automatic barrier
2. Bollards
3. Turnstile
4. Entrance barrier

“ We would just like to say how happy we were with your prompt and professional service. From day one you were always at the end of the telephone if we had any questions or concerns, your service was excellent and the whole team from the reception desk to the engineers were lovely. Even now if we have any questions you are always happy to help. Thank you again to your whole team. ”

THE BEES KNEES DAY NURSERY

We can install a wide range of manually and electrically operated barriers, bollards and turnstiles, to suit all applications and budgets.

Our systems can be fully integrated with any existing or future access control system. All safety devices are included as standard with automation packages to fully comply with regulations, along with force testing, commissioning and a 2 year manufacturer backed parts warranty. Upon completion a certificate can be issued for proof of compliance to regulations.

3. Intercom to gate

OPTIONS

- Keypads
- Door and Gate Closers
- Intercom Systems
- Video Entry
- Timers
- Electronic Locking
- Fob and Card Entry Systems
- Remote Control

We can install intercom, access control and locking systems to any existing gate, new gate or door. We provide new installations, servicing and maintenance for any existing systems.

SECURITY GRILLES & CAGES

CAGES

- Mesh
- High Security
- Storage
- Server Cages and Protection

GRILLES

Decorative | Fixed | Sliding
Security Rated | Lattice | Mesh

GRILLES APPLICATIONS

- Window and door protection
- IT Suites
- Safety Grilles
- Reception Desks

1. Server cage
2. Security grilles
3. Bike storage cages
4. Sliding grille

“ We would highly recommend your products and services to others and indeed have already done so. Thank you so much for the professional and courteous service that we have received from Harling Security. ”

PARKSIDE COMMUNITY
PRIMARY SCHOOL

We can design, manufacture and install security and safety grilles and cages for most applications. All grilles and cages can be made to suit internal or external applications for security or storage.

The cages and grilles can be fixed or incorporate doors or sliding sections as required. All grilles, cages and enclosures can be galvanised and powder coated to any standard colours.

With our extensive experience in this industry we can sympathetically integrate these products into surrounding architecture without compromising the security or design of the building.

PROJECT MANAGEMENT

OTHER EXAMPLES

- Associated Ground Works
- Power Supplies and Cable Runs
- Negotiating with Local Authorities and Architects
- Design Service and Technical Advice
- Drawings

1. School fencing plans
 2. Excavations
 3. Testing and commissioning
 4. Boundary wall

“ We would like to thank you for your wonderful and hassle free service. Harling Security undertaking the complete project took away all the stress. We would have no hesitation in recommending your company. ”

BUSINESS MANAGER

Our Project Management sector has become our fastest growing as schools, colleges and academies experience our dedicated and professional service levels and come to expect the same for all their building and maintenance requirements.

If embarking on a project that involves building a brick wall that will have some railings or gates fitted to it – why not have it all done with the same company, rather than managing the interfacing of a number of companies, with one doing the power supply, one doing the foundations, one doing brickwork and a security company doing the gates.

We regularly undertake complete projects of this nature, providing a no hassle experience for the school, whilst fitting in to your budget.

YOUR FUTURE SECURED
