

Redensifying Treatment

ACTIONS

It carries out an intensive **restructuring and regenerating** action that restores new density to the skin. It boosts the production of Collagen1 and increases the epidermal elasticity values. In synergy with **DIBISKIN POWER**, it provides new vitality and density to the skin, visibly increasing its moisture level and energizing cellular renewal. The skin seems reborn, "replenished".

EFFECTS

It improves skin compactness. The epidermis is more moisturized, tonic, supple and smooth, while the complexion takes on a healthier and more radiant appearance.

RECOMMENDED FOR

All women who wish to restore density, compactness and moisture to their skin, gradually reducing imperfections caused by epidermal ageing.

HOW OFTEN

The frequency of professional treatments can be determined only after a thorough check-up.

DURATION OF THE TREATMENT

Approximately 1 hour.

GUIDE TO THE TREATMENTS

The new dimension of beauty

DIBI AGE-REPAIR

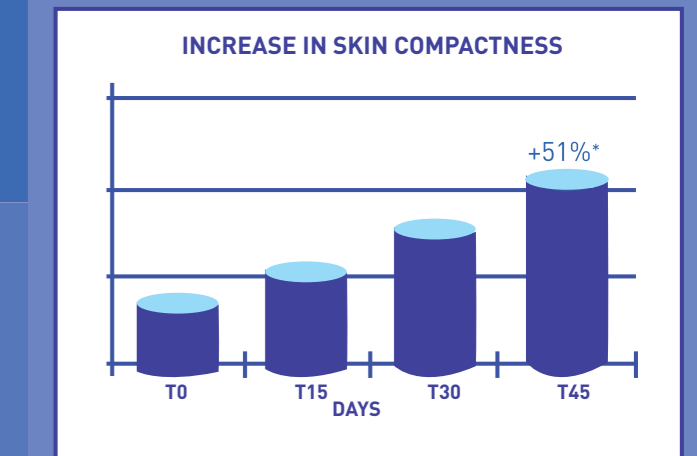

A complete treatment, at the Beauty Salon and at home, that uses innovative active ingredients capable of **RESTORING** skin **BASIC SUBSTANCE** (the extra-cellular matrix), favouring its consistency, in order to **RESTORE NEW DENSITY**, compactness and turgor to the face.

THE ACTIVE INGREDIENTS IRIS ISOFLAVONES

From a scientific standpoint, this active ingredient is known as a natural phyto-flavone that acts on skin basic substance (the extra-cellular matrix). It can improve the synthesis of proteins in the dermal-epidermal joints, **SLOWING DOWN THE DETERIORATION OF COLLAGEN AND ELASTIN**, and strengthen skin barrier function.

The Age-Repair product line also contains:
Bio-Lipopeptides: synthetic active ingredients that improve skin compactness.
Trace elements: iron, copper, magnesium and zinc with remineralizing properties.
Ceramides: of natural extraction, they protect the barrier made up by the hydrolipidic film.
Vitamin E liposomes: they carry out an anti-oxidant action on the skin.
Vitamin A millicapsules: they boost cellular metabolism.

THE RESULTS

90% OF WOMEN who underwent the treatment obtained a visible **IMPROVEMENT IN SKIN COMPACTNESS**.

*Clinical test performed on the Intensive Repair Treatment phase B.

THE SKIN LOOKS "REPLENISHED".
VISIBLY REDENSIFIED, MORE COMPACT
AND EXCEPTIONALLY SOFT TO THE TOUCH.

Products for the treatment at the Beauty Salon

Thoroughly remove all traces of make-up from the eyes using the specific make-up remover.

DIBI AGE-REPAIR

Product description	Code	Content
Extra-vitalizing cleansing cream	NA0033J	300 ml bottle
Extra-moisturizing biphasic toner	NA0133J	300 ml bottle
Extra-smoothing exfoliating cream	NA0233J	300 ml bottle
Intensive facial repair treatment	NAK002J	5 treatments kit
Professional facial massage cream	NA0030J	150 ml tube
Repairing eye treatment gel	NA0011J	15 ml tube

ACTIVE INGREDIENTS

Iris isoflavones, Bio-Lipo peptides, Wheat germ oil, Trace elements, Vitamin E Liposomes, Vitamin A Liposomes, Vitamin A millicapsules.

The treatment at the Beauty Salon

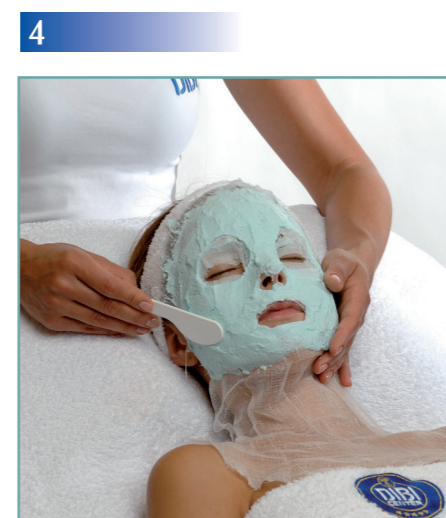

Massage the **Extra-Vitalizing Cleansing Cream** on face, neck and décolleté and then remove it using disposable gloves moistened with warm water.

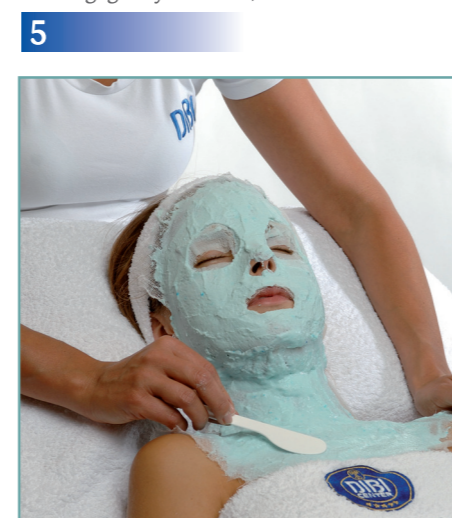

Apply the **Extra-Smoothing Exfoliating Cream** on face, neck and décolleté, massage for a few minutes and then remove it using disposable gloves moistened with warm water. Repeat a second time using gloves moistened with the **Extra-Moisturizing Biphasic Toner**, dabbing gently on face, neck and décolleté.

Apply the **"Patch" Effect Eye Masks**, making sure they stick well to the skin. Carefully apply the **Gauze mask phase 1** and press lightly with the fingertips for 4 - 5 minutes.

Open the Intensive facial repair treatment kit, quickly mix the **Mask in powder - phase 2A** and the **Activator gel phase 3A** in a bowl using the special spatula, then apply over the gauze mask.

Quickly mix the **Mask in powder - phase 2B** and the **Activator gel phase 3B** in a bowl using the special spatula, then apply on neck and décolleté, over the gauze mask.

Leave on for 15 minutes, then moisten the edges of the mask and lift it up starting from the décolleté to remove it. Gently dab on the **Extra-Moisturizing Biphasic Toner** using two cotton balls, removing any mask residue.

Finish by applying the **Repairing Eye Treatment Gel** and by massaging the **Professional Facial Massage Cream** on face, neck and décolleté until it is absorbed completely.

Recommend the **Age-Repair** products for at-home treatment.

The treatment at the Beauty Salon with DibiSkin Power

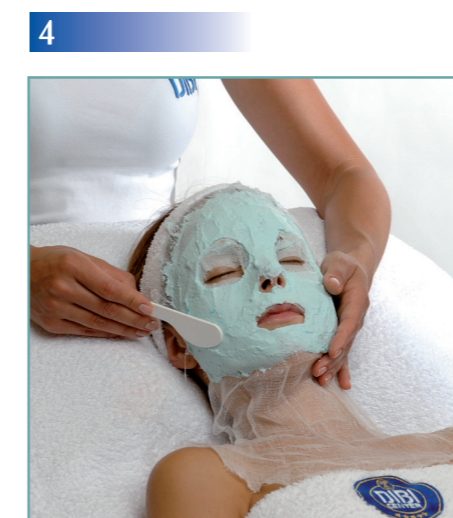

Massage the **Extra-Vitalizing Cleansing Cream** on face, neck and décolleté and then remove it using disposable gloves moistened with warm water.

Dab the **Extra-Moisturizing Biphasic Toner** on face, neck and décolleté using two cotton balls.

Apply the **"Patch" Effect Eye Masks**, making sure they stick well to the skin. Carefully apply the **Gauze mask phase 1** and proceed with using the DibiSkin Power equipment with circular movements, starting from the décolleté, for 10 minutes at the most.

Open the Intensive facial repair treatment kit, quickly mix the **Mask in powder - phase 2A** and the **Activator gel phase 3A** in a bowl using the special spatula, then apply over the gauze mask.

Quickly mix the **Mask in powder - phase 2B** and the **Activator gel phase 3B** in a bowl using the special spatula, then apply on neck and décolleté, over the gauze mask.

Leave on for 15 minutes, then moisten the edges of the mask and lift it up starting from the décolleté to remove it. Gently dab on the **Extra-Moisturizing Biphasic Toner** using two cotton balls, removing any mask residue.

Finish by applying the **Repairing Eye Treatment Gel** and by massaging the **Professional Facial Massage Cream** on face, neck and décolleté until it is absorbed completely.

Recommend the **Age-Repair** products for the at-home treatment.
