Fitomarina line main ingredients

Pacific red algae, extracts of Mint, Chamomile, Butcher's-broom, mallow and Calendula; Atlantic brown algae, Marine plankton, Biotechnological hyaluronic acid, Trace elements, Plant N.M.F., Iodine, Vitamins A and E, Linden distillate, Aloe vera, and Orange blossom eco-concentrate.

Herbarium line main ingredients

Bud extracts: Rose, Almond, Lilac and Linden, oils: Avocado and Olive; Plant N.M.F., Vitamins A and E, Aloe vera gel, Linden distillate; extracts: Lavender, Hibiscus, and Calendula.

How to carry on the treatment

1 Carefully remove all traces of make-up with Decoderm Eye Make-up Remover Cream and Decoderm Face Make-up Remover Fluid.

2 Cleanse the face, neck and neckline with Fitomarina Moisturizing cleansing gel.

3 Remove the Moisturizing cleansing gel with disposable gloves dampened with warm water.

4 Spread Herbarium Energizing scrub on face, neck and neckline (avoiding the eyes contour) and massage with circular motions. Remove with disposable gloves.

5 Spray the Fitomarina Remineralizing tonic lotion on two cotton hocks and dab on the area to be treated.

6 Apply Fitoessenza VD to the lymph gland areas (2 drops per area) and Fitoessenza CA on the face, neck and neckline, massaging gently.

7 Turn on the Vaporix equipment. Apply Fitomarina Moisturizing and nourishing gel cream to face and neck, maintaining a steady stream of steam on the face.

8 After turning off the steam, apply 2 ml of Fitomarina Moisturizing treatment for the eye contour.

9 Place the formfitting masks on the eyes, making sure it adheres perfectly.

10 Apply an additional 2 ml of the Moisturizing treatment for the eye contour on the masks and leave to work for 15 minutes.

11 Spread the Refreshing gel mask or or Pack mask Fitomarina over the rest of the face, neck and neckline (see box) and leave to work for 15 minutes.

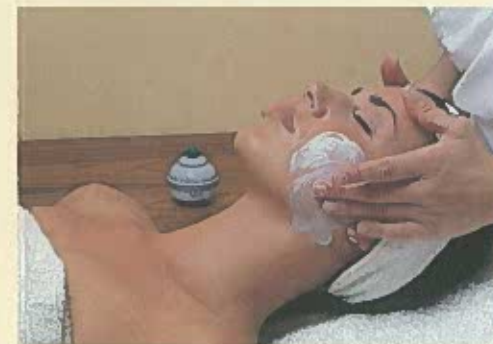

12 Turn on the Biopulsar equipment with the active green light and allow it to work for the mask's application time.

13 When time is up, remove the eye masks and the mask from the face, neck and neckline.

14 First dab the Fitomarina Eye-contour gel-cream around the eyes, then dab the Remineralizing tonic lotion on the face, neck and neckline.

15 Massage the Fitomarina Vitalizing cream with Blue Algae on the face, neck and neckline until completely absorbed.

16 In order to maintain the results, recommend that your client use the Fitomarina home treatment products.

Fitomarina line main ingredients

Pacific red algae, extracts: Mint, Chamomile, Butcher's-broom, Mallow and Calendula; Atlantic brown algae, Marine plankton, Biotechnological hyaluronic acid, Trace elements, Plant N.M.F, iodine, Vitamins A and E, Linden distillate, Aloe vera, and Orange blossom eco-concentrate.

Action

The special marine origin ingredients in the Fitomarina line, with their moisturizing, softening and anti-aging qualities, improve skin oxygenation, stimulate cellular processes and help keep skin young. The high concentrations of trace elements, mineral salts, vitamins and sugars remineralize skin.

Who it is recommended for

For particularly dry skin in need of an intensely moisturizing, refreshing and remineralizing effect.

When

Whenever skin appears dehydrated and tired, with fine lines.

How often

We recommend two weekly sessions over a four week period.

Effects

Immediately refreshes and gives well-being to skin, while softening facial features and fine lines. The skin gradually finds its ideal moisture level and the eye contour appears supple and firm.

Preparing the Pack mask

*Dose 3 measures of the Fitomarina powder into a bowl.
Add 3-4 measures of cold water, mixing quickly
with the provided spoon until evenly blended and apply with a spatula.
Remove the mask by lifting the edges.*
