SPECIFICATION SHEET

[SILICONE TUBE]

SPECIFICATION	DETAIL
Density:	1.2SG
Elongation Break:	610%
Tensile Strength:	12N/MM
Tear Strength	19n/mm
Temperature Range:	-40c to +200c

NB The above results relate only to the samples tested and therefore the information given here should be used as a guide only.

We can produce silicone tube in diameter sizes from 0.2mm up to 100mm. We have no minimum order quantity and no minimum invoice charge. General purpose grades can be offered in hardness ranges from 40° shore to 80° shore. We manufacture most sizes, wall thicknesses and grades. We can produce in all colours and offer a colour matching service if required. Platinum cured is also offered as standard

We also stock reinforced silicone tube, platinum and peroxide cured.
