THE FREE KNOWLEDGE SEMINARS

ALL NEW - The FREE Castle Symposium 2013

Wed. 11th September 2013 Tankersley Manor, Barnsley, S75 3DQ

Earn CPD points at this un-missable FREE Event!

In a major departure, we have decided to 'go large' with our seminars and have created this brand new symposium for Health, Safety and Environment Professionals. This 'must-see' event has a completely new programme including many additional subjects and parallel sessions.

There's also a session for company directors, which is specifically written to highlight where their health and safety responsibilities lie and the consequences if it all goes wrong!

Reasons to attend:

- Completely NEW Programme
- New Regulations Covered
- Dedicated session for company directors
- Latest updates to legislation and standards
- Great introduction or refresher for anyone in these fields
- Top speakers from the real-world
- Earn CPD points for your professional body
- FREE to attend and a FREE Lunch!
- Practical, demonstration based presentations
- Entertaining and informative delivery

The Venue:

Tankersley Manor is a striking country house hotel just off the M1 between Barnsley and Sheffield making it very easy to get to from many northern towns or cities and only a short drive from the Midlands.

Tankersley Manor Hotel
Church Lane, Tankersley, Barnsley,
South Yorkshire S75 3DQ

Ideally situated for: Sheffield, Barnsley, Rotherham, Wakefield, Doncaster, Mansfield, Nottingham, Derby, Leeds, Bradford and not a long drive from the Midlands, the North West or the North East

Simon Bull

Managing Director of Castle Group Ltd has over 20 years' experience in health & safety and environmental compliance, specialising in measuring and monitoring technologies.

Don Graham

Principle Consultant, Ryedale Safety Management is not only a Chartered Safety Practitioner with over 30 years' experience, but Don is also a Magistrate and as such is ideally placed to see how to avoid catastrophe from the point of view of company directors.

Chris Gilbert

Managing Director of Acoustic Associates, Peterborough runs a team of acoustic consultants and trainers specialising in Noise and Vibration assessments and solutions.

Garry Homer

MD of Electromagnetic Services Ltd. Provides a range of services for individuals, businesses and authorities, Garry has worked on many of the facets of the impacts of Electromagnetic Radiation in the workplace and the environment.

Richard Brooke

As a *senior sales manager for BW, by Honeywell*, has vast experience in helping customers with gas detection solutions and has particular experience in dealing with confined space management.

Brian Thomas

Solutions Manager for Castle Group has worked extensively on software solutions for industry, working with customers to deliver relevant and workable management tools.

Essential Updates

Keeping up to date with changes in best practice and the latest developments in technology is always a challenge in any industry and safety and environment issues are no different. Whether you are a Company Director, a safety or environment manager or rep or someone who has been 'given' the responsibility in those areas, then information is always going to be something that will keep you one step ahead.

Who Should Attend

If you are involved in health and safety or environmental compliance, then this event represents a vital opportunity to get yourself updated on the latest guidance, regulations and best practice in a wide variety of subjects. No matter what the industry, or job title, this symposium is an opportunity not to be missed.

- Health and Safety personnel
- Company Directors
- People with Environmental responsibility
- Engineers
- Union or Worker Reps
- Insurance Assessors
- Production Managers

Our Track Record

Castle has been providing professional training courses for over 20 years and we have trained many hundreds of people during that time. We have also run free seminars for the past 7 years and have welcomed well over 2000 delegates through the doors. We have some mighty testimonials to back this all up too!

Testimonials

Paula Johnston - Leeds City College

Very Informative. Good presentation injected with humour, a bonus for what can sometimes be considered as "dry" subjects.

Paul Wilkinson - Appris

Simon is a vibrant character, who is very knowledgeable and had an excellent selection of resources/props to enforce the learning outcomes. He presented a very enjoyable variety of topics in a conducive environment. Thank You.

Robin Harris- RCH Electrical

The seminar was put across very sincerely. The regulations and steps that we need to address as directors and as fellow workers within our businesses was very useful.
