

Accredited Training for Competence Certification and CPD points!

cpd

Training from a company with a hugely successful track record, a competence certificate which means something in the big wide world, CPD points and a free dinner on the first night with free-flowing wine – *what more could you ask for?*

Reasons to attend:

- Legislation requires a Competent Person for Human Vibration
- Increased ability to defend or at least mitigate claims
- Deeper understanding of consultants reports
- Potentially prevent environmental noise complaints
- Learn how to work with Environmental Health

Benefits of Castle Courses

- Industry leading lecturers
- Recognised courses
- Huge selection of subjects
- FREE Dinner and Wine on the first night
- Full, bound notes
- FREE scientific calculator
- Framed Certificate
- Exam-free format (work-based assessment)
- Extensive Practical Elements

Environmental Noise (3 Days)

Complaints against industry from neighbours are on the rise and can hit a business hard. The best approach is to be prepared and try to prevent these in the first place. This is exactly how the Castle Environmental Noise courses can help.

Human Vibration (Vibration at Work) Course (3 Days)*

*This course is accredited by the Institution of Diagnostic Engineers.

Dedicated to The Control of Vibration at Work Regulations 2005, this course takes you through hand-arm and whole-body vibration from the basic theory of vibration to measuring tools, understanding the regulations and carrying out health surveillance.

On-Site Training

Have you considered having this training on-site?

We can also provide a wide range of other courses, some of which you can see overleaf. There are numerous advantages to letting us come to you and all you need is a few people with a training requirement.

- Tailored Courses to meet your business needs
- Courses can be made industry specific
- Lower costs per delegate (so long as you have a few people to train!)
- Key personnel remain on-site
- Savings in travel & accommodation bills
- Keeps the logistics simple

Our Track Record

We're not just asking you to take our word for it; we have been doing this for over 25 years and have trained over 2000 delegates from more than 500 companies – and they keep coming back!

What our delegates have said:

This course fully met the requirement and indeed exceeded my expectations and that of the company. We chose this on recommendation from our Occupational Hygienist on site. The evening meal was a nice touch.

John Ideson, BAE Systems

I would highly recommend Castle, in terms of both on-going equipment support and calibration through to training courses. I attended the Environmental Noise Course and found it to be informative and gave me the overview of the expertise and knowledge I need to look at noise issues on my site. Castle has at all times been supportive and attentive to us as a client.

Sharon Wheeler, Molson Coors
