Panels in Detail

There are a range of panels available to enhance your Toprail system that are mounted in one of three ways: -

- rail-hung for mounting items at a fixed height
- hooked directly into slotted uprights
- bobbin mounted for adjustable height between slotted uprights

Other panels are available for specialist applications.

Lipped Support Panels

Lipped support panels hook directly into slotted uprights. They are manufactured from powder coated aluminium and used to support tote bins. Bins are stocked in blue or red.
