Presentation Equipment in Detail

Toprail equipment represents an excellent method of creating a presentation area, exhibition stand or temporary display. Once the rail is in place a range of presentation equipment can simply be hung directly from the rail. In addition shelving, worktops and cupboards can provide support and storage for free-standing items such as televisions, videos, DVDs, books and literature folders.

Pinboards

Pinboards are manufactured from 6mm Forbo Nairn bulletin board in two colours, beige and blue/grey. Additional colours from the Forbo Nairn range can be ordered, subject to quantity. Bulletin boards are aluminium framed with mitred corners to match Toprail's magnetic dry marker boards. They have an aluminium backing and are supplied complete with hooks to hang directly on the rail.

30.143	Pinboard beige	600 x 879mm
30.141	Pinboard beige	1200 x 879mm
30.145	Pinboard blue/grey	600 x 879mm
30.147	Pinboard blue/grey	1200 x 879mm

Magnetic Dry Marker Boards

Magnetic dry marker boards carry a surface lifetime guarantee and are fabricated from P3 ceramic steel with PolyVision high quality magnetic writing surface for marker boards and chalk boards. They are aluminium framed with mitred corners to match Toprail's pinboard range and are supplied complete with hooks to hang directly on the rail. Special sizes are available on request.

30.130	Dry marker board	600 x 879mm
30.132	Dry marker board	1200 x 879mm
30.133	Chalk board, green	1200 x 879mm

Flipcharts

Flipcharts are also made from the same magnetic dry marker board and can therefore be used as a dry marker board as well as a flipchart. The sheets are attached to the rail using adjustable hooks that suit most types of flipcharts and used sheets can simply be 'flipped' behind the board.

30.520	Flipchart unit	750 x 879mm
30.519	Flipchart pad	40 x A1 sheets

Pull Down Projection Screens

Pull down projection screens are manufactured from 'Miralyte' matt high gain projection surface, this ensures that you achieve optimum results when using either a 35mm or light projector.

30.142	Pull down projection screen (other sizes on request)	1520 x 1520mm
