LITTLE GIANT PW 5064

The new washing machine for contract cleaners

Unique Features & Benefits

Miele's new PW 5064 contract cleaning machine

Miele's tried and tested laundry machines for contract cleaners are now joined by a smaller, yet highly efficient model from the Little Giant range. Fitted with professional technology and special programmes for all manner of textiles, a perfect wash is guaranteed.

Exclusive Features

- Quality Miele build
- Industrial engineering for intensive usage – tested for 10,000 cycles
- Robust and extremely quiet maintenance-free motor
- Patented honeycomb drum with internal drum lighting – allows for a thin film of water to form which protects the laundry
- 6.5kg capacity drum
- User-friendly controls
- Stacking kits available for a space-saving solution
- Available in lotus white – resistant to yellowing, chipping and corrosion

Service Features

- Dedicated service team for peace of mind
- 1 year full parts & labour warranty
- Spare parts available for 15 years
- Spaceframe construction for easy service access
- Optional service maintenance contract available
- Optical interface for PC programme updates

Standard drum

Miele's honeycomb drum

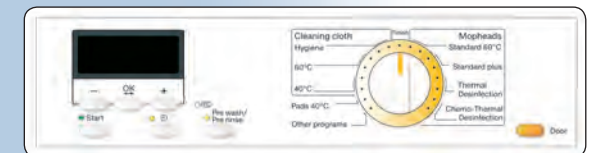

With a width of only 60cm, Miele's PW 5064 washer may appear small but is as powerful and efficient as many a larger machine.

Little Giant Washer Extractor PW 5064

- **Hot and cold water fill:**
 - Environmentally friendly with reduced electricity consumption and therefore energy cost savings
- **Short operational times:**
 - Reprocess 6.5kg of mops or cloths in 42 minutes
- **Patented stainless steel honeycomb drum:**
 - Optimum mop head and cloth protection to increase longevity by 100%
- **Pre-rinse with spin as standard:**
 - 50% reduction in soil quantity entering wash process enables improved wash results
 - Faster wetting of textiles and course soil reliably rinsed out and drained through rear drum perforations
- **Monitored thermal and chemo-thermal disinfection programmes:**
 - Peace of mind that standards required have been achieved
- **Micro-fibre or cotton mop programmes:**
 - Specific technology developed for the care of both materials
- **Ability to impregnate cloths with required detergent within wash cycle:**
 - Savings in detergent and labour costs, cloths come out 'ready to use'
- **6 pump liquid dispenser:**
 - Simple and ideal controlled dosing
- **Range of additional bespoke programmes:**
 - Complete flexibility of product

The Control Panel

- User friendly controls
- Single dial programme selection
- 21 language options
- Clear display panel
