# LITTLE GIANTS

The Compact Commercial Laundry Solution

## Unique Features & Benefits

## LITTLE GIANTS

### Small, but powerful, professional machines which help with daily laundry care

For small to medium businesses and busy households Miele Professional's Little Giants can meet all of your laundry demands.

Compact in size, but built and tested to commercial specifications, the Little Giants offer you gentle, but economical, laundry care; fast throughput, optimum results and low running costs.

#### Exclusive Features

- Quality Miele build
- Industrial engineering for intensive usage
  - tested for 30,000 cycles
- Robust and extremely quiet maintenance free motor
- Flexible applications: sector-specific additional programmes
  - B&Bs & Guesthouses, Health & Beauty, Spa & Sports Clinics, Catering, Restaurants, Butchers, Healthcare Applications, Nursing Homes
  - Large domestic households
- Patented honeycomb drum with internal drum lighting
- 5.5kg or 6.5kg capacity drum
- User-friendly controls
- Stacking kits available for a space-saving solution
- Available in stainless steel or lotus white – resistant to yellowing, chipping and corrosion

#### Service Features

##### Service Features

- Dedicated service team for peace of mind
- 1 year full parts & labour warranty
- Spare parts available for 15 years
- Spaceframe construction for easy service access
- Token/coin mechanisms available
- Optional service maintenance contract available
- Optical interface for PC programme updates

### Little Giant Tumble Dryers: PT 7135 Plus and PT 7136 Plus

#### Vented and condenser-drying systems available

- **Short operational times**
- **Flexibility: timed or sensor drying options:**
  - Choice of cool or hot air, when timed drying is preferred
  - Electronic moisture sensors measure levels of residual moisture in load, ensuring precise drying results
- **Patented stainless steel honeycomb drum**
  - Creates airpockets to gently catch and cushion laundry
  - Allows warm air to surround the laundry for more efficient drying
  - Less friction between the drum and the fabric also results in less creasing
- **Convenience:**
  - Large filter surface area for reduced filter cleaning cycles
  - Pump-away facility via external waste pipe on condenser versions
- **Programme variety:** Towelling, smoothing, cottons, min iron and woollens handcare

### Little Giant Washer Extractors: PW 6055 and PW 6065 Plus

- **WRAS approved product**
- Cold and hot water connection available (can be connected to mains supply)
- **Short operational times**
- **Patented stainless steel honeycomb drum:**
  - Allows for a thin film of water to form which protects the laundry and prevents fibre damage or pilling
  - Drum design and optimised drum rhythms help to saturate the laundry quickly, so programme times are kept short and water consumption levels are kept low
- **A patented two-stage imbalance sensing system** guarantees optimum laundry distribution and ensures maximum spinning performance, a contributing factor to the legendary longevity of Miele machines
- **Healthcare applications:** Dump valve drain versions of the PW 6065 feature sluice and thermal disinfection programmes (Dept. of Health HSG (95) 18) and conform to the requirements of the Care Standard Act 2000 (UK)
- **Programme variety:** towelling, table linen, delicates, woollens, bedding, curtains, denim, dark fabrics, cottons, min iron and woollens handcare
