- Balance items • Playhouses • Activity tables • Sandboxes

 **LEDON**[®]
Development through play

Safety and quality first...

All mesh is dimensioned to eliminate risk for getting stuck with your head or getting strangled.

Springs of special steel can bend into all directions. Intervals between the coils are made to eliminate the risk of getting your fingers stuck between them. Patented spring suspension with self locking nuts.

Our polyethylene panels are splinter-proof and there are no gaps at the junctions. No fingers, no clothes and no ribbons can get stuck or hurt.

All handles offer good grip and are rounded to reduce the risk of eye and dental injuries. All handles are made of nylon so that fingers can't freeze to them.

All stepping and sitting surfaces are coated with skid-proof rubber – compliments from the car industry.

All edges are rounded and all nuts are covered.

There is a steel inlay in our ropes, which makes them inherently stable and vandalism-proof. Our ropes do not get brittle or floppy.

All our items are certified IAW EN 1176:2009, which is reassuring for the adults. All playground equipment design is carried out without losing focus on safety.

Guarantee

5 years on material and product defects.
5 years guarantee against essential fading
on HDPE material.

"Quality means that things keep on being new."

Playbus

Top play value

- Invites to role play inside and outside the bus.
- Possibility for theme play for several children.
- Cute, appealing design that signals fun.

Top quality

- Maintenance free materials.
- Easy to mount and anchor.
- Splinter-proof and non-toxic PE-plates.
- UV-resistant colours.
- Sweet and inviting design.

All aboard! The 2 to 5 year olds will all play together when they boom away in this cute bus. It will become the playground's new inviting playhouse where children will gather.

Easy to mount and set up
– no maintenance.

Product dimensions

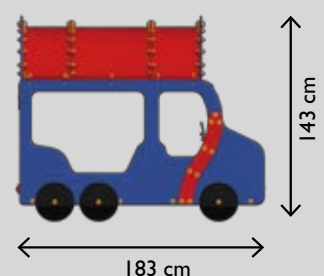

Item 1901

Dimensions (cm) L 183 x W 94 x H 143

Required space: 483 x 394

Climbing height: 59

Age group: From 2 years

Fire engine

Now this one is hot! The fire must be put out quickly, and there is room enough for lots of brave firemen and – women!

The springs make the blustering vehicle more alive.

Quick and easy mounting
– no fall protection required.

Product dimensions

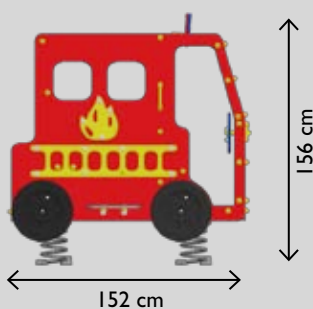

Item 1701

Dimensions (cm) L 152 x W 127 x H 156

Required space: 452 x 427

Climbing height: 59

Age group: From 2 years

Top play value

- Room for many children.
- Play area for both quiet and active children.
- Rocking springs make the play feel more real.
- Many smart details that fire the children's imagination.
- Several can join in theme play.

Top quality

- Easy to mount and set up.
- Anti-slip surfaces on all horizontal boards.
- Splinter-proof and non-toxic PE-plates.
- No fall protection required
- Maintenance-free materials.
- Patented, long-lasting spring construction.
- With or without springs – suitable for both outdoor and indoor use.

Helicopter

Advantages:

- Galvanized, stainless steel tubes.
- Easy to mount and anchor.
- Doesn't require fall protection.
- Unbreakable polycarbonate dome.

Sales-increasing arguments:

- Attractive price.
- Radically new product with only few competing products.
- Big customer potential.
- Easy marketing because of its colours and name.

A new classic, which will make the kids' imagination overspeed and take the 3 to 8 year olds to "the sky".

Product dimensions
