

MARTOR SAFETY KNIVES.
IDEAL FOR YOUR CUTTING APPLICATIONS.

ENJOY SAFETY
MADE IN SOLINGEN

martor

WHY SAFETY KNIVES?

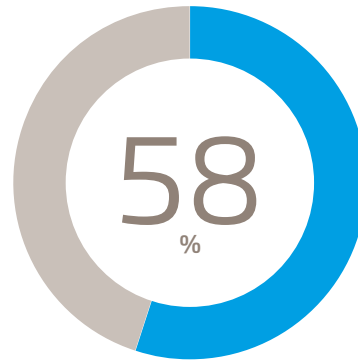

Everyone knows that wherever cutting takes place, injuries will happen. These can be painful for users, and expensive for employers. Cutting injuries almost always happen because cutting tools are suboptimal, i.e. unsafe.

The solution: safety knives.

Facts and figures (using Germany as an example)

Number of knife-based "reportable workplace accidents" that occurred in Germany in 2019 (Source: German Social Accident Insurance, 2020).

More than half of all workplace accidents involving manual tools were caused by (usually sub-optimal, unsafe) knives. (Source: German Social Accident Insurance, 2020).

Each knife-based workplace accident results in up to 7.4 days off work (Source: German Accident Insurance and Prevention in the Food and Catering Industry, 2016).

Every lost workday costs employers around 500 euros on average.

WHY MARTOR SAFETY KNIVES?

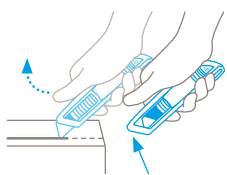

As a leading international manufacturer and supplier, the Solingen-based family-run company MARTOR offers a wide range of high-quality, GS-approved safety knives. They are termed safety knives because they are equipped with reliable safety technologies that protect both users and packaged goods.

MARTOR safety technology

SECUNORM

Automatic blade retraction =
High safety

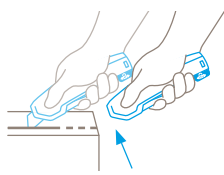

Thumbs up for a high degree of safety. As soon as you start cutting, remove your thumb from the slider and the blade will disappear into the handle the moment it loses contact with the material being cut.

SECUPRO

Fully automatic blade retraction
= Very high safety

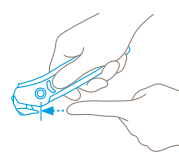

The intelligent cutting tool: as soon as the blade leaves the material being cut, it withdraws fully automatically into the handle. Even when you keep on pressing the slider or the lever. That's what we call "a very high degree of safety".

SECUMAX

Concealed blade =
Maximum safety

The blade is not open, but concealed, and therefore the cutting edge is shielded from you and the packaged goods. Giving you a maximum degree of safety from cut injuries whilst cleverly protecting your goods.

ALWAYS ON HAND: THE RIGHT CUTTING TOOL.

MARTOR safety knives reduce the risk of accidents while also being especially comfortable, efficient and versatile. Examples of the most common cutting applications, and a selection of MARTOR products best suited to them, are listed below. More cutting solutions are available, for example, at www.martor.com.

SAFETY KNIVES FOR FILM AND STRAPPING BANDS.

Film is best cut under tension, strapping bands at a 45° angle. Our SECUMAX products do the rest, expertly guiding cutting materials to the concealed blade.

SECUMAX 320

- Made of glass fibre reinforced plastic
- 4 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip and adhesive tape splitter

SECUMAX 350

- Made of glass fibre reinforced plastic
- 6 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip, innovative blade head and spare blade

SECUMAX EASYSAFE

- Made of glass fibre reinforced plastic
- 7 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. material guide and adhesive tape splitter

Product	Order number	Packaging unit	Installed blade
SECUMAX 320	32000110.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 92043
SECUMAX 350	350001.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3550
SECUMAX EASYSAFE	121001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 45

SAFETY KNIVES FOR CARDBOARD.

One, two or three ply? Removing covers and flaps or cutting windows? Our products are as flexible and reliable as the diversity of packaging cardboard. We have the right knife for the type of cutting required.

SECUMAX 350

- Made of glass fibre reinforced plastic
- 6 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip, innovative blade head and spare blade
- Ideal for up to 2-ply cardboard and much more

SECUPRO 625

- Made of aluminium
- 21 mm cutting depth
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip, smooth lever and safety lock
- Ideal for up to 3-ply cardboard and much more

SECUNORM 500

- Made of aluminium
- 17 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. soft grip and double-sided slider
- Ideal for up to 3-ply cardboard and much more

SECUNORM MIZAR

- Made of glass fibre reinforced plastic
- 15 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. smooth lever and safety lock
- Ideal for up to 3-ply cardboard and much more

Product	Order number	Packaging unit	Installed blade
SECUMAX 350	350001.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3550

SAFETY KNIVES WITH GOODS PROTECTION.

Damaged goods are both inconvenient and expensive. To avoid unwanted results when unpacking, we therefore recommend safety knives with concealed blades. Or knives with extra small cutting depths.

SECUMAX 350

- Made of glass fibre reinforced plastic
- 6 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip, innovative blade head and spare blade

SECUPRO MARTEGO

- Made of aluminium
- 9 mm cutting depth
- Fully automatic blade retraction
- Very high work safety and high protection of goods
- Incl. soft grip, smooth lever and safety lock

SECUNORM 500 (5 mm)

- Made of aluminium
- 5 mm cutting depth
- Automatic blade retraction
- High work safety and very high protection of goods
- Incl. soft grip and double-sided slider

Product	Order number	Packaging unit	Installed blade
SECUMAX 350	350001.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3550
SECUPRO MARTEGO	122001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 92
SECUNORM 500 (5 mm)	50000310.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 65232

SAFETY KNIVES AS DISPOSABLE KNIVES.

Disposable knives also have their advantages. They are mostly small, light and inexpensive. Blade changes are unnecessary. And like the SECUMAX 150, for example, they often come with many impressive features.

SECUMAX 145

- Made of glass fibre reinforced plastic
- 4 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. two cutting edges
- Ideal for up to 1-ply cardboard and much more

SECUMAX 150

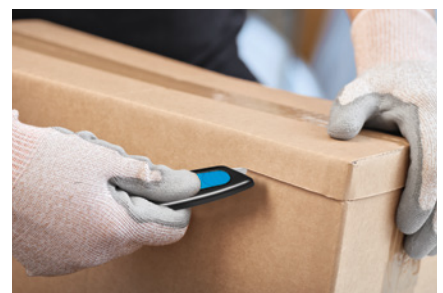

- Made of glass fibre reinforced plastic
- 6 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. two cutting edges, splitter and scraper
- Ideal for up to 2-ply cardboard and much more

SECUNORM SMARTCUT

- Made of plastic
- 12 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. double-sided slider
- Ideal for up to 2-ply cardboard and much more

Product	Order number	Packaging unit	Installed blade
SECUMAX 145	145001.12	10 in box (loose)	Non-changeable, thickness: 0.50 mm
SECUMAX 150	150001.12	10 in box (loose)	Non-changeable, thickness: 0.30 mm
SECUNORM SMARTCUT	110000.02	1 in single unit box (20 knives in multipack)	Non-changeable, thickness: 0.63 mm

SAFETY KNIVES FOR CUTTING THICKER MATERIALS.

To cut materials such as rubber mats or carpeting, use a powerful knife like the SECUPRO 625. To cut foam, polystyrene or construction foam, XL or XXL blade lengths are recommended.

SECUPRO 625

- Made of aluminium
- 21 mm cutting depth
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip, smooth lever and safety lock
- Ideal for thicker materials (rubber, carpeting, etc.) and much more

SECUNORM 540

- Made of aluminium
- 36 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. large slider
- Ideal for thicker materials (foam, polystyrene, etc.) and much more

SECUNORM 380

- STYROPOR BLADE NO. 79
- STYROPOR BLADE NO. 379 (Serrated edge)

- Made of glass fibre reinforced plastic
- 73 mm cutting depth, alternatively with serrated blade
- Automatic blade retraction
- High work safety
- Incl. soft grip, large slider and safety lock
- Ideal for thicker materials (foam, polystyrene, etc.) and much more

Product	Order number	Packaging unit	Installed blade
SECUPRO 625	625001.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 60099
SECUNORM 540	54000410.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 7940
SECUNORM 380	380001.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 79
SECUNORM 380	380005.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 379 (Serrated edge)

SAFETY KNIVES / SCISSORS FOR BAGGED GOODS.

Bags made from plastic, paper, or any other material, need a tool that pierces with precision, without being compromised by dusty or liquid contents.

SECUMAX EASYSAFE

- Made of glass fibre reinforced plastic
- 7 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. material guide and adhesive tape splitter

SECUMAX 564

- Made of stainless steel and glass fibre reinforced plastic
- 80 mm cutting edge length
- Specially ground, front rounded cutting edges
- Maximum work safety
- Incl. soft grip and thumb opening

SECUMAX 350

- Made of glass fibre reinforced plastic
- 6 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip, innovative blade head and spare blade

Product	Order number	Packaging unit	Installed blade
SECUMAX EASYSAFE	121001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 45
SECUMAX 564	564001.00	1 on self-service card (10 scissors in multipack)	
SECUMAX 350	350001.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3550

SAFETY KNIVES FOR CUTTING FILM AND PAPER ROLLS.

Material that jams or tears unintentionally is generally difficult to cut. These specialist knives are therefore equipped with a material guide. Knife nose and sliding base make precise positioning much easier too.

SECUMAX EASYSAFE

- Made of glass fibre reinforced plastic
- 7 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. material guide and adhesive tape splitter

SECUMAX OPTICUT

- Made of plastic
- 7 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. material guide and metal sliding base

SAFETY KNIVES FOR CUTTING MATERIAL FROM A ROLL.

Do you need to cut away the end covers from a paper roll? Or make a straight cut after a roll has torn? The SECUNORM 380 with its long and stable blade is perfectly designed for these kinds of tasks.

SECUNORM 380

- Made of glass fibre reinforced plastic
- 73 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. soft grip, large slider and safety lock

Product	Order number	Packaging unit	Installed blade
SECUMAX EASYSAFE	121001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 45
SECUMAX OPTICUT	437.00	1 on self-service card (5 knives in multipack)	INDUSTRIAL BLADE NO. 37040
SECUNORM 380	380001.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 79

SAFETY KNIVES FOR SLABBING.

To reuse a reel, first the paper and film residues need removing, i.e. "slabbing". Slabbing is a "power cut", requiring the strongest and most robust safety knives.

SECUPRO 625

- Made of aluminium
- 21 mm cutting depth
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip, smooth lever and safety lock

SECUPRO MEGASAFE

- Made of aluminium
- 17 mm cutting depth
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip and double-sided slider

SECUPRO MARTEGO

- Made of aluminium
- 9 mm cutting depth
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip, smooth lever and safety lock

Product	Order number	Packaging unit	Installed blade
SECUPRO 625	625001.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 60099
SECUPRO MEGASAFE	116006.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 60099
SECUPRO MARTEGO	122001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 92

SAFETY KNIVES FOR THE FOOD AND PHARMACEUTICAL SECTORS.

Foreign objects in production processes are a major hazard. A sensible precaution is therefore to use metal detectable safety knives. These are detectable even in the tiniest amounts.

SECUMAX 320 MDP

- Made of metal detectable plastic
- 4 mm cutting depth
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip and adhesive tape splitter
- Ideal for film, plastic strapping band and much more

SECUMAX 150 MDP

- Made of metal detectable plastic
- 6 mm cutting depth
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. two cutting edges, splitter and scraper
- Ideal for up to 1-ply cardboard and much more

SECUMAX 145 MDP

- Made of metal detectable plastic
- 4 mm cutting depth
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. two cutting edges
- Ideal for up to 1-ply cardboard and much more

SECUMAX POLYCUT MDP

- Made of metal detectable plastic
- 3 mm cutting depth
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. long, pointed nose to insert into the cutting material
- Ideal for film, paper and much more

SECUMAX RING KNIFE MDP

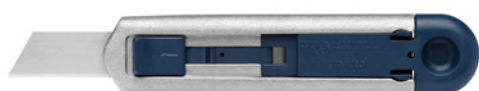

- Made of metal detectable plastic
- 6 mm cutting depth
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. finger opening
- Ideal for film and cord

SECUNORM PROFI40 MDP

- Made of paint-free aluminium and metal detectable plastic
- 36 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. single-sided slider and stainless steel blade
- Ideal for up to 3-ply cardboard and much more

SECUNORM PROFI25 MDP

- Made of paint-free aluminium and metal detectable plastic
- 21 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. single-sided slider and stainless steel blade
- Ideal for up to 3-ply cardboard and much more

SECUNORM HANDY MDP

- Made of stainless steel and metal detectable plastic
- 9 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. double-sided slider and stainless steel blade
- Ideal for up to 2-ply cardboard and much more

SECUNORM SMARTCUT MDP

- Made of metal detectable plastic
- 12 mm cutting depth
- Automatic blade retraction
- High work safety
- Incl. double-sided slider and stainless steel blade
- Ideal for up to 2-ply cardboard and much more

SAFETY KNIVES FOR PROMOTIONAL PURPOSES.

Many of our safety knives can be custom printed to advertise your company, your brand or your message in an appealing and intelligent way. The knives of course also cut efficiently and safely.

SECUPRO MARTEGO

FIVE GOOD REASONS:

Innovation

An innovative cutting tool made in Solingen? From the market leader? With your promotional message? Certainly something not everyone has.

SECUNORM 175

Usefulness

Our promotional knives are used every day. Whether opening packages or cutting a wide variety of materials.

SECUNORM HANDY

Safety

As you'd expect, all our safety knives are equipped with reliable safety technology to protect users.

Durability

Our promotional knives are high-quality safety products, built to last. They can be used by customers and employees with confidence over the long term.

SECUNORM SMARTCUT

Satisfaction

For all! You stand out from the crowd with your giveaway. And the recipients get something they can really use.

Product	Order number	Packaging unit	Installed blade

SECUNORM HANDY	445.92	1 in single unit box (20 knives in multipack)	INDUSTRIAL BLADE NO. 45
SECUNORM SMARTCUT	110000.92	1 in single unit box (20 knives in multipack)	Non-changeable, thickness: 0.63 mm

CUTTING TOOLS FOR SPECIALIST AREAS.

MARTOR also supplies cutters, deburring cutters, scalpels and scrapers. Each one is designed for a specific task or area. Below is just a small selection.

ARGENTAX RAPID

- Disposable cutter made of plastic
- For use with silicone cartridges
- Incl. two blades and protection cap
- Ideal for opening the thread and cutting the nozzle

SCRAPEX ARGENTAX

- Scraper made of plastic
- 39 mm scraper width
- Incl. protection cap
- Ideal for removing labels, adhesive residues and much more

TRIMMEX CERACUT

- Deburring cutter made of plastic
- Incl. ceramic blade
- Ideal for removing plastic, rubber and metal burrs

Product	Order number	Packaging unit	Installed blade
ARGENTAX RAPID	594.03	1 in self-service single unit box (10 knives in multipack)	Non-changeable, thickness: 0.30 / 0.50 mm
SCRAPEX ARGENTAX	46144.02	1 in single unit box (10 scrapers in multipack)	REINFORCED RAZOR BLADE NO. 44
TRIMMEX CERACUT	170170.00	1 on self-service card (10 knives in multipack)	CERAMIC BLADE NO. 170

PRACTICAL EXTRAS: PRODUCTS FOR SAFE WORKING.

The right accessories are essential. Our range ensures that your cutting tool is kept safe, protects your surfaces, or disposes of your used blades in the optimal way.

BELT HOLSTER S, M, L

- Belt holsters (in S, M and L) made of flexible and durable nylon
- For safe storage and transport of your MARTOR cutting tools
- Extra compartments for blade packets, pens, etc.
- Attach using clip or Velcro fastener

CUTTING MATS

- Cutting mats made of robust, self-healing plastic
- For use as an underlay for manual cutting tasks
- With imprinted grids (cm/inch) on the four larger mats

USED BLADE CONTAINER

- Large, sturdy plastic container for collecting used steel and ceramic blades
- Lid for sealing the full container for disposal with the normal waste
- Wall mount bracket (not included) for mounting on walls, pipes and bars

Product	Order number	Packaging unit
BELT HOLSTER S	9920.08	loose (1) (10 belt holsters in multipack)

BEST FOR YOUR NEEDS: MARTOR SERVICES.

This catalogue gives you a first valuable orientation. To ensure everything precisely meets your needs, we invite you to take advantage of our unique customised services* for safe cutting.

Personal support

At MARTOR, you get a personal point of contact in customer service. Whether taking orders or providing detailed product advice, customer service is provided in reliable MARTOR quality and with MARTOR's renowned customer-centric approach.

On-site advice

Our technical consultants are also available digital or for on-site visits to supplement telephone advice. From little "tricks on cutting" to major on-site surveys for complex cutting solutions, our technical consultants provide competent and professional services.

Service media

Our catalogues and brochures come as standard. But are you also familiar with MARTOR safety posters? Or our customised knife plans? Or our MARTOR training videos? This package of supporting material ensures that safe cutting solutions can be installed sustainably within your company. This is service the MARTOR way.

Education and training

Our goal is to increase work safety. Our technical consultants train and coach your users and can be part of your safety training days, in-house exhibitions, etc. Your staff can also use our service media (e.g. training videos) to practise using safety knives properly. The videos also help staff to familiarise and enjoy using the new tools.

Fast delivery service

MARTOR delivers quickly and reliably from our Solingen warehouse or from one of our worldwide distribution partners depending on your location. When you receive MARTOR safety knives, you will notice the high-quality packaging and multilingual user manuals, further expressions of MARTOR's professionalism.
