

WITH NETCODE OPTION

## COMPACT

Quick retrofit for keyed cam locks commonly supplied on a wide range of lockers, cabinets and cupboards. Easy to fit; taking just a few minutes to remove the existing cam lock, make an additional top fixing and fit the KL1000. For a new install just make a hole for the spindle and top fixing, simple. Access control without the need for keys.

**KL1000NC:** KitLock 1000 NetCode allows temporary access to lockers and cabinets. Create codes via online portal - send via SMS or email. Create codes via SMS for instant access.

Simple keyless access

WITH SLAM LATCH OPTION

## TOUGH

All the benefits of the KL1000 but tougher and more robust for challenging environments. With additional programming features, stainless steel buttons, dual fixing points and increased battery life, the KL1200 provides enhanced benefits to facilities managers looking to simplify access control without the need for keys. Quick, tough and cost effective.

No more lost keys

WITH iBUTTON AND SLAM LATCH OPTION

## VERSATILE

KL1500 combines all the features of the KL1000 and KL1200 plus a lot more! With a 'real time' clock the lock can now be programmed to open at a specific time of day, can have multiple user codes entered, be programmed so two codes are needed to open the lock and can be fitted in any orientation due to the patented keypad design. Also the keypad can be replaced with iButton for access control by wristband. All this in a stylish and contemporary design.

Lock and go

Go Keyless. Go KitLock.
