

## TOSA 215

**AUTOMATIC PALLET STRETCH WRAPPING MACHINE WITH ROTATING ARM  
EQUIPPED WITH WATERTIGHT TOP SHEET DISPENSER**

An overall packing (5 charge sides) is guaranteed for all sorts of palletized products by the waterproof top sheet dispenser placed inside the rotating arm. Such a wrapping provides an excellent protection against the action of the weather. This machine can be installed on any existing packing line.

## TOSA 215

### Characteristics:

#### Complete with different adjusting and control units such as:

- Waterproof top sheet dispenser with automatic pallet height detection, from 800 up to 2000 mm.
- Film - roll up down stroke speed variable by Inverter
- Stretchable film tension adjustment
- Automatic unit for film hooking and cutting
- Automatic powered pre-stretch assembly
- Film sealing
- Arm rotation start and stop at low speed
- Electric control panel with PLC and visual display for fault signalling
- Photocell for automatic pallet height detection
- Boundary safety-guards

#### This machine can be equipped with different optional units:

- Top pneumatic presser
- Power roller conveyor placed inside the wrapping machine
- Power roller conveyors placed either at the entry or at the exit points.

### Technical Data:

Maximum pallet dimension 1000 x 1200 x 2000 H mm

Power supply V.380+N/50 Hz

Installed power Kw 3,5

Air consumption 24,5 NI/min

Output 30/40 pallet

Self-adhesive stretch film Roll max. Diam. 250 mm
