All-Terrain Knee Pads

NEW!! GEL is injected directly into the padding that actually moves with your knees to help disperse pressure away from the patella bone thus providing long lasting comfort.

GEL Knee Comfort 865-00

Donut shaped HONEYCOMB GEL filled padding provides maximum comfort and durability. Sewn-on cover keeps knee pad in place while rocking on the knee. Elevated Face, Extended Feet and Heel. Wide bottom mesh strap. Elastic top strap. Hook & loop closure.

Snap-On Gel Knee Comfort 865-01

Same Protection as 865-00 with snap-on cover. Double webbing strap. Top strap has hook & loop closure. Bottom strap has quick release closure. Silicone-free.

New!

GEL Knee Comfort 864-00

Sewn-on cover, HONEYCOMB gel filled padding provides maximum comfort and knee protection. Double elastic straps with hook & loop closure. Elevated Face.

New!

GEL Knee Comfort 876-00

Co-polymer cover easily slides on smooth surfaces. New HONEYCOMB GEL padding helps disperse pressure away from the patella bone. Dual adjustable straps with hook & loop closure.

GELite® Knee Comfort 878-00

GEL filled padding. Wide mesh elastic strap for added stability and breathability. Hook & loop closure.

Resistant ballistic nylon outer cover. Single wide mesh strap with hook & loop closure.

GEL Comfort Liner 863-00

GEL filled padding. Wide mesh elastic strap for added stability and breathability. Hook & loop closure. Resistant ballistic nylon outer cover.

New!

NITRO Knee Comfort 875-00

Lightweight and durable with Nitro nitrogen injected foam liner for economic comfort and support. Breathable CoolMax® lining. All-terrain co-polymer cover fastened with rivets. Elevated face, extended feet and heel.

COOL MAX®

874-00

Same features in short style.

Snap-On Covers Used with 865-01

Available as accessories, flexible protection for ease of cleaning to suit multi-task applications
875ACC - Hard/Smooth Clear Plastic for easy sliding
875ALR - Durable Leather where heat is a concern

Made with 100% PVC-Free materials for a clean environment!

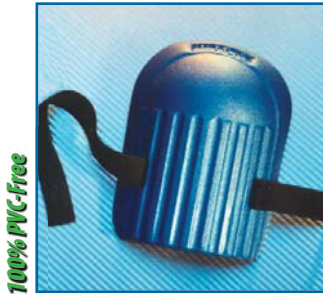

All-Terrain Knee Pads Features & Benefits

- **Cover** - Co-polymer thermoplastic rubber prevents marring and scratching, Snap-On style provides versatility, Sewn-On design helps keep debris out
- **Elevated Face** - Improves stability and traction, absorbs impact, helps support the knee
- **Extended Feet** - Absorbs pressure around the perimeter of the knee
- **Extended Heel** - Supports the shin and helps distribute body weight and reduce stress on the ankles
- **Padding** - Designed to reduce pressure directly on the patella bone
- **Ballistic Nylon Outer Cover** - Highly resistant for most environments
- **Dual Straps** - Spaced to reduce bunching, hook/loop and snap closures for easy fastening
- **Heavy Duty Binding** - Assures long lasting wear

Knee Protectors

Molded Foam Comfort

Form fitting, durable molded Co-Polymer padding with breathable CoolMax® lining. Ribbed kneeling surface helps prevent slipping. One size fits all. Replacement elastic straps with hook and loop closure available. **100% PVC-Free!**

100% PVC-Free

827-00

Light weight molded knee pad. Foam padding. Nylon top cover. Plastic cover attached with grommets. Double elastic with hook and loop closure.

Soft Padded Knee Pads

VEP & Foam Padded

Flexible impact, cushioning and abrasion protection. Breathable polycotton lining, dual elastic straps, hook and loop closure
803-10 - suede leather
803-20 - grain leather cover

Pull-On Style

Stretch polyester, VEP impact padding, leather covered for abrasion protection
802-10 - suede leather
801-20 - grain leather with cutout hole on back for additional comfort (inset)

Kneeling Pads and Mats

Impacto™ comfort pads and mats are used for sitting, kneeling or leaning applications. Available in a variety of poly foam padding materials in varying densities for specific protection. Available in multiple fabric OUTER COVERS including denim, Cordura®, vinyl and fire retardant Proban®, for use in any environment. Sizes can be customized to fit special needs and applications.

970-80

Cordura® Ultracell poly foam comfort mat with carrying handle. Removable padding, 15" x 24" x 3"

979-10

Used for sitting or kneeling. Proban® fire retardant and suede leather cover, high density foam padding, nylon webbing handle, 12" x 15"

HANDY MAT

Closed cell 1" foam rubber doesn't absorb liquids. Helps to reduce knee trauma and low back pain. Does not compress set. Built-in carrying handle. Fully washable.

MAT5050 - 14" x 21"

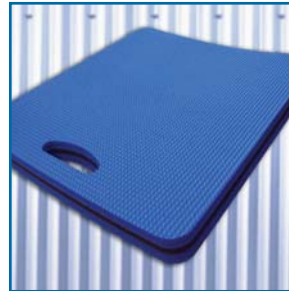

MAT5040 - 8" x 16"

MAT5000 - 4" x 6" 'pocket kneeler'

KNEELPAD

Closed cell PVC foam pad for comfortable cushioning. Vinyl coated surface is easy to clean and repels water. Built-in hand shaped carrying cut out, 18" x 7" x 7/8"

CUD818

Dense inner core material, textured surface, convenient cutaway handle, water resistant, 14" x 15" x 1"

ABOUT KNEE PROTECTION Continuous pressure on the knee due to working in a kneeling position may lead to chronic conditions, such as bursitis over the knee cap or injury to the cartilage. Knee bursitis occurs when the bursa sack becomes inflamed, swells and becomes painful. Over time, major knee problems will develop when the cartilage and tissue cushion wear out. Excessive pressure can cause problems such as knee burn pain, fluid build up, tissue swelling, loose joints and associated arthritic conditions. Major knee damage will occur when combining existing trauma with prolonged pressure and irritation along with turning and twisting motions. Some common symptoms of knee conditions include swelling, limited range of motion, warmth, tenderness and redness, stiffness and pain. The use of **knee pads** is an effective way to reduce the occurrence of knee injuries. **Knee pads** protect against injuries and inflammation caused by hard surfaces, pieces of gravel and similar objects on ground. The wide range of **Impacto Knee Pads** provide a viable solution to workers to help prevent knee injuries and the onset of cumulative trauma to the knee.

Thermo Wrap Supports

Natural heat therapy line of knee supports feature multi-layered design. Trioxon® lining wicks away moisture and helps prevent skin irritation. Non-porous rubberized material captures body heat, increases circulation, and provides compression and support.

TS208 - Standard knee sleeve

TS209 - Knee patella (pictured)

Knee Saver™

890-00

Provides strain protection while kneeling or crouching. Molded polyurethane foam, uniquely notched back prevents slipping, durable, easy to clean surface, attached elastic straps, hook and loop closure.
