# SCHOOL GROUNDS

## Steel Storage Units

### School Pack 1: Centurion (7511)

(Centurion Plus shown here)

#### School Pack 1 includes:

- 5 point locking system with a very secure pick resistant lock
- Reinforced hinges, panels and doors
- Fully integral metal base
- Easy access, slip resistant ramp
- Two heavy duty shelves
- Child friendly wooden subfloor
- Set of ten extra strong hooks
- Large easy access reinforced double doors
- Including free UK mainland delivery with full assembly and installation (including anchoring down to a secure base).

**Dimensions:** W: 1.53m D: 2.23m H: 2.03m  
Weight: 40.2 stone

**Materials:** Galvanised steel, polyester textured weatherproof powder paint, plywood subfloor

**Assembly:** Professional installation included (a firm, level base is required before installation)

Available in dark green, brown or ivory

### School Pack 2: Centurion Plus (7512)

#### School Pack 2 includes:

- 5 point locking system with a very secure pick resistant lock
- Reinforced hinges, panels and doors
- Fully integral metal base
- Easy access, slip resistant ramp
- Two heavy duty shelves
- Child friendly wooden subfloor
- Set of ten extra strong hooks
- Large easy access reinforced double doors
- An extra 1.10m of depth compared to Centurion
- Including free UK mainland delivery with full assembly and installation (including anchoring down to a secure base).

**Dimensions:** W: 1.53m D: 3.32m H: 2.03m  
Weight: 52.8 stone

**Materials:** Galvanised steel, polyester textured weatherproof powder paint, plywood subfloor

**Assembly:** Professional installation included (a firm, level base is required before installation)

Available in dark green, brown or ivory

### School Pack 3: Gladiator (7508)

#### School Pack 3 includes:

- 5 point locking system with a very secure pick resistant lock
- Reinforced hinges, panels and doors
- Fully integral metal base
- Easy access, slip resistant ramp
- Four heavy duty shelves
- Child friendly wooden subfloor
- Set of ten extra strong hooks
- Large easy access reinforced double doors
- Including free UK mainland delivery with full assembly and installation (including anchoring down to a secure base).

**Dimensions:** W: 2.26m D: 2.23m H: 2.07m  
Weight: 51.7 stone

**Materials:** Galvanised steel, polyester textured weatherproof powder paint, plywood subfloor

**Assembly:** Professional installation included (a firm, level base is required before installation)

Available in dark green, brown or ivory

## School Pack 4: Gladiator Plus (7509)

### School Pack 4 includes:

- 5 point locking system with a very secure pick resistant lock
- Reinforced hinges, panels and doors
- Fully integral metal base
- Easy access, slip resistant ramp
- Six heavy duty shelves
- Child friendly wooden subfloor
- Set of ten extra strong hooks
- Large easy access reinforced double doors
- An extra 1.10m of depth compared to Gladiator
- Including free UK mainland delivery with full assembly and installation (including anchoring down to a secure base).

**Dimensions:** W: 2.26m D: 3.32m H: 2.07m  
Weight: 68.3 stone

**Materials:** Galvanised steel, polyester textured weatherproof powder paint, plywood subfloor

**Assembly:** Professional installation included (a firm, level base is required before installation)

Available in dark green, brown or ivory

## School Pack 5: Addition (7513)

### School Pack 5 includes:

- 3 point locking system with a very secure pick resistant lock
- Reinforced hinges, panels and doors
- Full metal floor
- Easy access, slip resistant ramp
- A single heavy duty shelf
- Set of ten extra strong hooks
- Large easy access reinforced double doors
- Including free UK mainland delivery with full assembly and installation (including anchoring down to a secure base).

**Dimensions:** W: 1.83m D: 0.92m H: 1.44m  
Weight: 16.3 stone

**Materials:** Galvanised steel, polyester textured weatherproof powder paint, plywood subfloor

**Assembly:** Professional installation included (a firm, level base is required before installation)

Available in dark green, brown or ivory

## School Pack 7: Access (7510)

### School Pack 7 includes:

- 3 point locking system with a very secure pick resistant lock
- Reinforced hinges, panels and doors
- Fully integral metal floor
- Easy access lift up lid
- Two heavy duty shelves
- Set of five extra strong hooks
- Including free UK mainland delivery with full assembly and installation (including anchoring down to a secure base).

**Dimensions:** W: 2.06m D: 1.04m H: 1.34m  
Weight: 18 stone

**Materials:** Galvanised steel, polyester textured weatherproof powder paint, plywood subfloor

**Assembly:** Professional installation included (a firm, level base is required before installation)

Available in dark green, brown or ivory

## Timber Storage Units

### Playground Storage Chest (7404)

Schoolscapes Timber Storage Units offer an aesthetically pleasing, secure and functional solution to storing toys, gardening tools or outdoor clothing.

Our functional Playground Storage Chest is a useful addition to your school playground or garden area. It's chunky and durable design means it can also double as additional playground seating.

For added security our Playground Storage Chest is fitted with a lock and designed for you to fix to a wall if required.

**Dimensions:** W: 1.50m D: 0.55m H: 0.56m

**Materials:** Pressure treated timber, zinc plated fixings, heavy gauge HDPE polydeck

**Assembly:** Assembly only

### Welly Boot Store (7405/NP)

The ideal solution for 'Welly Wednesday's' wet weather gear!

Children will be able to enjoy the freedom of playing outdoors and experiencing the weather without getting soaked, and our functional Welly Boot Store is perfect when you need somewhere to store those wet Welly Boots, Raincoats and Hats!

For added security our Welly Boot Store is fitted with a lock and designed for you to fix to a wall if required.

**Dimensions:** W: 1.50m D: 0.41m H: 1.26m

**Materials:** Pressure treated timber, zinc plated fixings, heavy gauge HDPE polydeck

**Assembly:** Assembly only

### Buggy Store

Buggy Store with Dry Wipe and Chalk Board Panels (7406)

Your playground will look great when you store the children's tricycle, bicycle, push and pull toys, and ride-on toys in the attractive Buggy Store.

When play and learning is over children can learn the importance of tidying up and keeping everything safe in the Buggy Store, perfect for any Early Years playground.

Without additional Activity Panels (7407)

With the addition of Dry-Wipe or Chalk Boards your Buggy Store will help to encourage your children to write and be creative.

**Dimensions:** W: 2.00m D: 1.00m H: 1.90m

**Materials:** Pressure treated timber, zinc plated fixings

**Assembly:** Assembly only

## Litter Bins

### Penguin, Chick & Robin Litter Bin

Penguin, Chick, Robin and Parrot Litter Bins can be fitted with a unique talking box, not only to provide added interest and novelty, but they can be programmed to teach polite greetings and manners, or your own environmental message!

**Dimensions:** Dia: 0.70m H: 1.20m  
**Capacity:** 90 litres  
**Weight:** 25kg (including liner)  
**Materials:** Polyethylene bodyshell, flame retardant liner  
 Optional ground fixing kit for added security  
 Parrot Litter Bin also available (7809)

They are clean, resilient and hygienic, and can be fixed or freestanding, with a removable inner bin.

### Hippo Litter Bins

The Hippo Bins are a great fun design that kids will love. There are two designs available: Henri in blue and Henrietta in pink. They are weather resistant with a twist off head for easy removal of the liner.

**Dimensions:** Dia: 0.70m H: 1.10m  
**Capacity:** 65 litres  
**Weight:** 15kg (including liner)  
**Materials:** MDPE polyethylene, zinc-coated steel liner  
 Optional ground fixing kit for added security

### Little Monster Bins (7907)

The Little Monster Bins are a great themed bin for the playground, with their brightly coloured heads and body they encourage children to keep the playground tidy.

Mix 'n' match any colour head on the body colour of your choice. The hood conceals the plastic liner bag. They are available with optional Little Monster Teeth (7908), which are attached by velcro.

**Dimensions:** Dia: 0.43m H: 0.90m  
**Capacity:** 62 litres  
**Materials:** MDPE polyethylene

### Mushroom Litter Bin (7901)

The Mushroom Litter Bin is suitable for indoor or outdoor use. With its weighted base and smooth curves it is a sturdy and attractive bin.

Available in a range of different colours including yellow, green and red.

**Dimensions:** Dia: 0.72m H: 0.90m  
**Capacity:** 90 litres  
**Weight:** 20kg  
**Materials:** Polyethylene

### Pencil Litter Bin (Midi & Micro)

The Pencil Litter Bins are weather resistant, maintenance free bins with a locking door panel. They are available at two heights and in a variety of different colours including red, green, blue, yellow, orange, purple and black- with the black being made from 100% recycled material.

Midi (7903) Micro (7904)

**Dimensions:** Dia: 0.39m H (Midi): 1.20m H (Micro): 1.04m  
**Capacity:** (Midi) 52 litres, (Micro) 42 litres  
**Materials:** Recycled polyethylene

### Slimline Classic Bins & Recycling Bins

Slimline Classic Bins & Recycling Bins are a great addition to your school grounds. The Recycling bins will encourage children to separate their rubbish for recycling: available for cans, plastic, fruit and paper. They are hygienic and easy to clean, with an open-aperture lid.

Available in a large range of colours, including red, green, blue, yellow, orange, purple and black- with the black being made from 100% recycled material.

Recycling Bins: Single (7911) Set of 4 (7912)  
 Classic Bins: Single (7909) Set of 4 (7910)

**Dimensions:** Dia: 0.39m H: 0.94m  
**Capacity:** 52 litres  
**Materials:** Polyethylene bodyshell  
 Optional ground fixing kit for added security  
 Available individually or as a set of four

## Planters

### Planter Stax (7201)

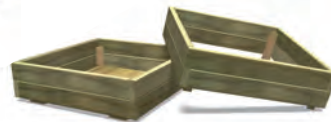

Schoolscapes Planters are tremendously versatile and are ideal for parks, sensory areas or school gardening clubs. They allow children to observe plants growing and watch the seasonal changes they go through, helping them to discover more about the Natural World.

A simple Planter Stax configuration

Planter Stax are a layered planter system allowing you to create varying heights and configurations for your planting. Begin with a base unit, then just add stacking units to grow your planters, not just your plants! Ideal for inclusive gardening: just set the height of the planters to suit wheelchair users.

Fill the Stax with scented, edible, tactile and bright planting to create a sensory experience. Fantastic for growing potatoes!

**Dimensions: Square Planter units:**

L: 0.75m W: 0.75m H: 0.22m

**Rectangular Planter units:**

L: 0.50m W: 0.75m H: 0.22m

**Materials:** Pressure treated timber, zinc plated fixings, geotextile liner

**Assembly:** Assembly only

### Classic Planters

Square Planter with no Seats

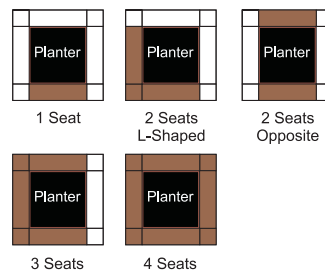

Triangular Corner Planter with Seat (7203)

Square Planter with Four Seats (7202)

Large enough to accommodate a small tree and with many options available, our Classic Planter provides an attractive feature for any outdoor space. It is available at two different heights, standard and low level, in a triangle with or without seats, or a square shape with up to four seats. The square planters offer the opportunity to be arranged in many different ways to suit any space.

The geotextile liner allows water to drain through but prevents the growth of troublesome weeds.

**Dimensions: Square Standard:** L: 1.00m W: 1.00m H: 0.75m

**Square Low Level:** L: 1.00m W: 1.00m H: 0.50m

**Triangle Standard:** L: 1.40m W: 1.00m H: 0.75m

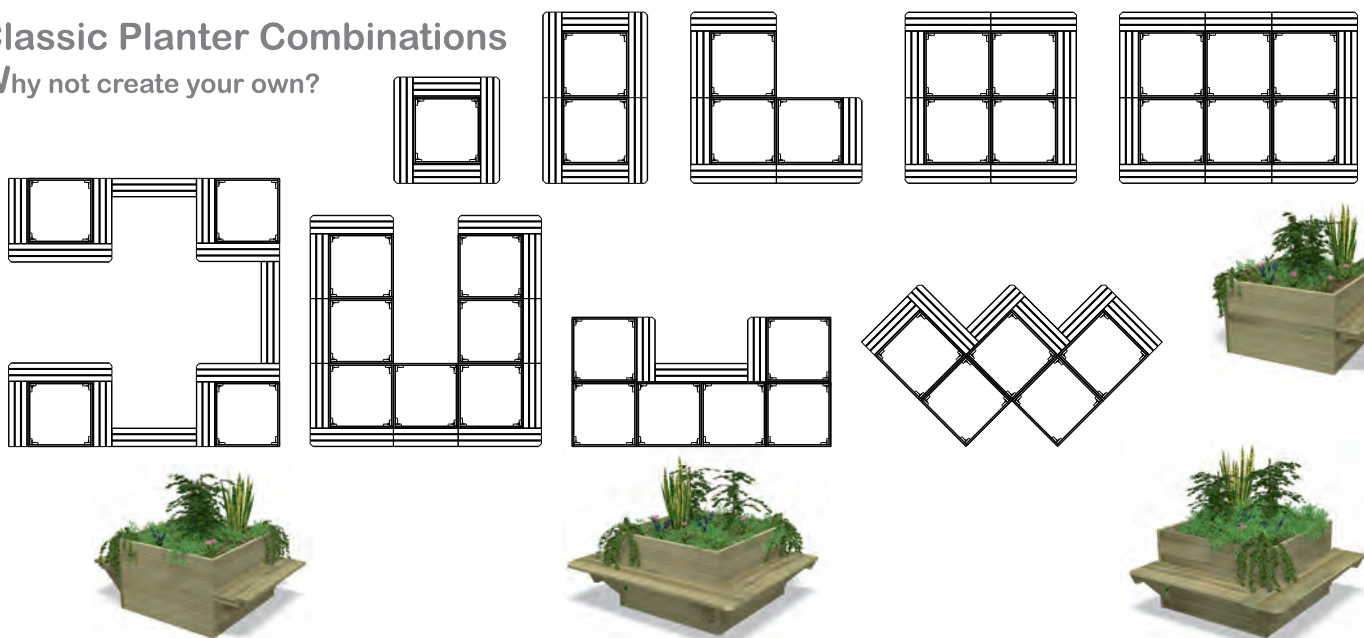

**Triangle Low Level:** L: 1.40m W: 1.00m H: 0.50m

**Materials:** Pressure treated timber, zinc plated fixings, geotextile liner

**Assembly:** Assembly only

### Classic Planter Combinations

Why not create your own?

## Hexagonal Seat & Planter Unit (7301)

A relaxing place to sit and reflect in the playground, park or garden. The Hexagonal Seat and Planter Unit has comfortable raked, angled backrests, and is in a self supporting hexagonal design, which can seat up to 12 people.

Available in three different diameters, to suit every location.

The planter base geotextile liner in the planter allows water to drain through but prevents the growth of troublesome weeds.

The Hexagonal Seat and Planter Unit is built so that the planter top and top of the seat backrest are level in height (see illustration on left).

**Dimensions:** Internal Dia: 0.60m/ 1.00m/ 1.50m H (overall): 0.94m H (seat): 0.50m  
**Materials:** Pressure treated timber, zinc plated fixings, geotextile liner  
**Assembly:** Assembly only

## Hexagonal Stacking Planter

Base Unit (7304)  
Single Stacking Unit (7305)

The Hexagonal Stacking Planter can be arranged in many different ways to offer a range of solutions for planting and seating. The stacking units (7305) can be sold individually, built up to any height and in any arrangement.

Seating can be incorporated in arrangements of three hexagonal planters per bench seat.

Four Hexagonal Planters  
with Three Seats (7306)

The base unit (7304) has a geotextile liner which allows water to drain through but prevents the growth of troublesome weeds.

**Dimensions:** (individual stacking units):  
Dia: 1.00m H: 0.22m  
**Materials:** Pressure treated timber, zinc plated fixings, geotextile liner  
**Assembly:** Assembly only

## Shaded Classic Planter (7302)

Manufactured to the same excellent standards as our Classic Planters the open centred roof of the Shaded Classic Planter has the additional benefit of allowing rain and sun to aid plant growth whilst providing shelter from the elements over the seats.

The geotextile liner allows water to drain through but prevents the growth of troublesome weeds.

**Dimensions:** L: 2.00m W: 2.00m H: 1.80m  
**Materials:** Pressure treated timber, zinc plated fixings, geotextile liner  
**Assembly:** Assembly only

## Easy Garden Planter (7303)

The Schoolscapes Easy Garden Planter is a useful addition to your school garden or vegetable growing area.

It is a low level planter enabling easy access for children to stand or kneel whilst gardening. Around the top edge of the planter is a broad ledge to lean on or rest tools on.

The planter is divided into three separate planting compartments, making separation of colour or vegetable easy.

The geotextile liner allows water to drain through but prevents the growth of troublesome weeds.

**Dimensions:** L: 3.00m W: 1.00m H: 0.50m

**Materials:** Pressure treated timber, zinc plated fixings, geotextile liner

**Assembly:** Assembly only

## Log Planters

Rectangular  
Log Planter  
(7401)

Square  
Log Planter  
(7402)

These Log planters are made of smooth, planed half-round logs and are a simple way to bring some colour into the playground.

They are available in two styles, rectangular or square, in a range of different sizes to suit every outdoor space.

The planter base has a geotextile liner which allows water to drain through but prevents the growth of troublesome weeds.

**Dimensions:** Rectangular: L: 1.20m  
W: 0.30m/0.60m H: 0.45m Square: 0.45m  
x 0.45/ 0.60m/ 0.60m H: 0.45m

**Materials:** Pressure treated timber, zinc plated fixings, geotextile liner

**Assembly:** Assembly only

## Storage Planter (7403)

The Storage Planter can be used for storing away your gardening tools after tending to the plants growing in the planters on either side. Children can use the top as a seat or as a useful work bench whilst gardening.

For added security our Storage Planter is fitted with a lock and designed to be fixed to the wall if required.

The planter bases have geotextile liners which allow water to drain through but prevent the growth of troublesome weeds.

**Dimensions:** L:2.03m W: 0.67m H: 0.50m

**Materials:** Pressure treated timber, zinc plated fixings, geotextile liner

**Assembly:** Assembly only

## Landscape Features

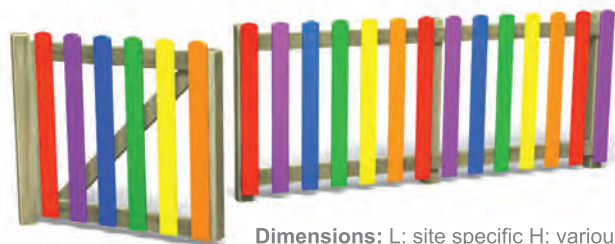

### Picket Fencing

Schoolscapes can provide a wide range of landscape features as part of your new playground or park scheme. This section illustrates just some of what we can do, please call to discuss the details of your project and how we can help you. All of these are available as part of a larger scheme.

Timber Picket Fencing (7706)

Picket Fencing is a great way to divide off areas of the playground or park. It is available in a natural aesthetic, timber version, or a brightly coloured HDPE plastic version.

HDPE Picket Fencing (7701)

**Dimensions:** L: site specific H: various  
**Materials:** Pressure treated timber, zinc plated fixings, HDPE plastic  
**Assembly:** Professional installation required

### Log Walling (LOG01)

Log Walling is an extremely useful and versatile landscape feature which can be used to create large raised planters or digging areas, or to divide spaces.

Different diameter log rounds can be mixed in together to create an aesthetically pleasing barrier that can be installed to the desired height. Log rounds installed at a low height can also form a walkway for children to balance along. Timber Sleepers can also be used to create similar structures and retaining walls.

Half Round Logs

Full Round Logs

**Dimensions:** Dia: 0.10m as standard, but other diameters available H: various  
**Materials:** Pressure treated timber  
**Assembly:** Professional installation required

### Decking, Ramps & Bespoke Projects (SCH01)

The Schoolscapes Design Team encompasses a wide range of professional disciplines including: Landscape Architecture, Spatial Design, Civil Engineering and Product Design. We work from the Client's brief to design structures that really make a difference to the usability of a space. Examples include Ramps, Platforms, Decks, Steps, Covered Walkways, Outdoor Classrooms and Gazebos. We prefer to be involved at the earliest possible stage of a project so please call us if you would our help in planning your school grounds improvements.

This quadruple switchback DDA compliant ramp (left) was the only way to solve the problem of wheelchair and buggy access down a steep slope to a newly extended part of a school. Schoolscapes Design Team, County Council and the School worked together on the design and the Schoolscapes team of Skilled Craftspeople handled the construction to the highest standard. Everyone was delighted with the result.

**Materials:** Pressure treated timber  
**Assembly:** Professional installation required

# Playground Markings

Schoolscapes Playground Markings are great for brightening up an area of tarmac, whether it be with a interesting graphic, game or activity trail. Add Play Value to an area that needs to be kept clear for emergency access.

Playground markings are a great way to make the most of the playground surface as well as increasing the playability of the school grounds. They are ideal for creating brightly coloured playground games that are durable and colour permanent, with high self cleaning properties and excellent reflectivity.

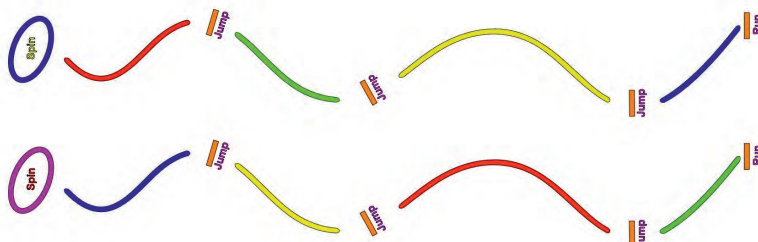

We supply a full range of playground and car park markings including games, patterns, shapes, parking bays, warning signs and much more. We will also install a customised game or your school logo. Our range of playground marking Activity Trails combine perfectly with our fitness trails, creating a fun and exciting area where children can exercise while they play.

**Materials:** Preformed thermoplastic  
**Assembly:** Professional installation required

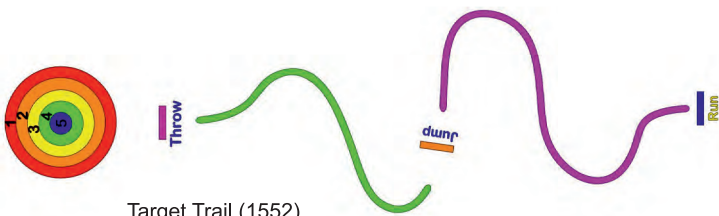

Snakes & Ladders (8201)

## Activity Trails: Legacy Markings

Double Relay Trail (1554)

Target Trail (1552)

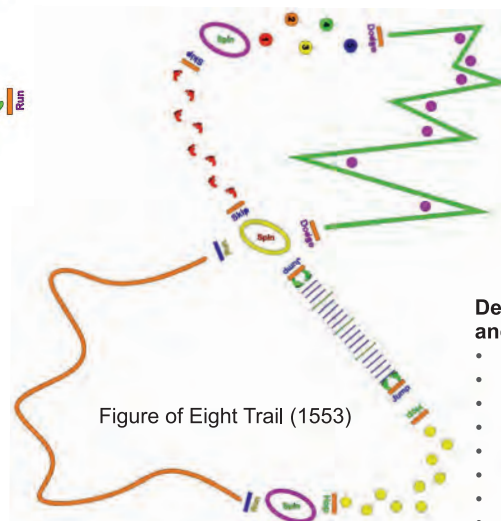

Figure of Eight Trail (1553)

You can combine Activity Trail Markings with Fitness Trails, see page 17

- Designed to test and develop:**
- 'Explosive' Strength
  - Dynamic Balance
  - Evasion Drills
  - Team Play
  - Sense of Rhythm
  - Spatial Orientation
  - Speed of Reaction
  - Co-ordination

## Road Safety (8302/NP)

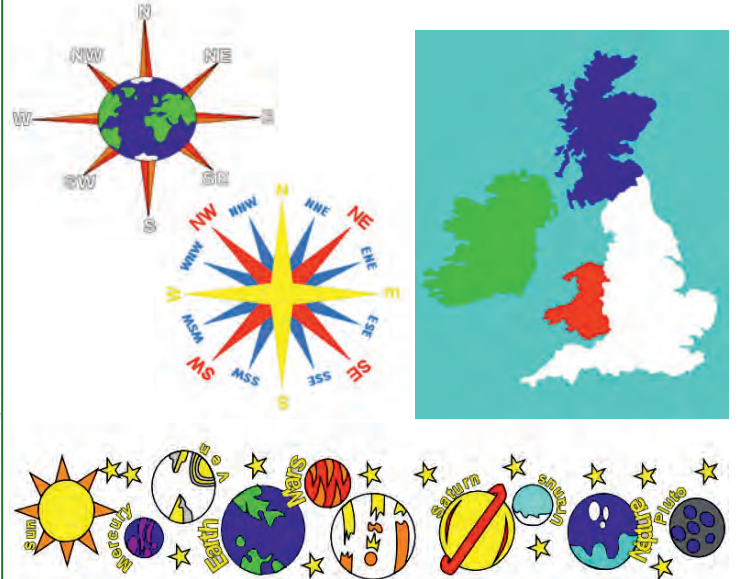

## Hopscotch (8305/NP)

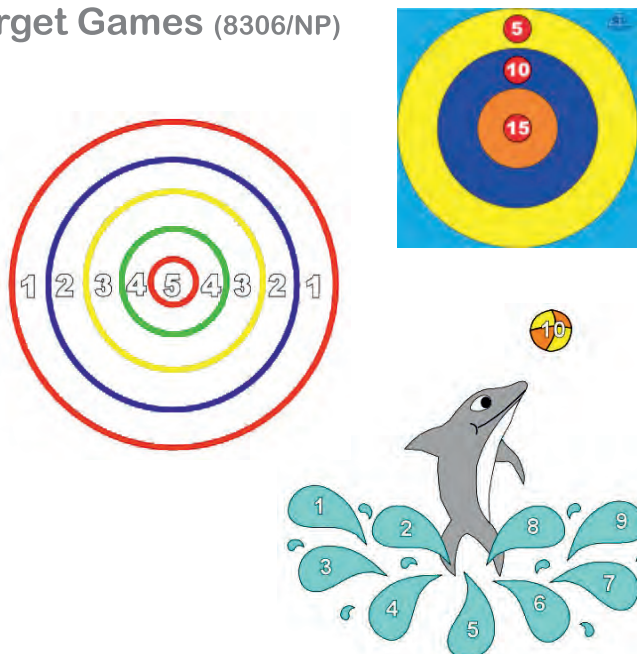

Weather (8304/NP)

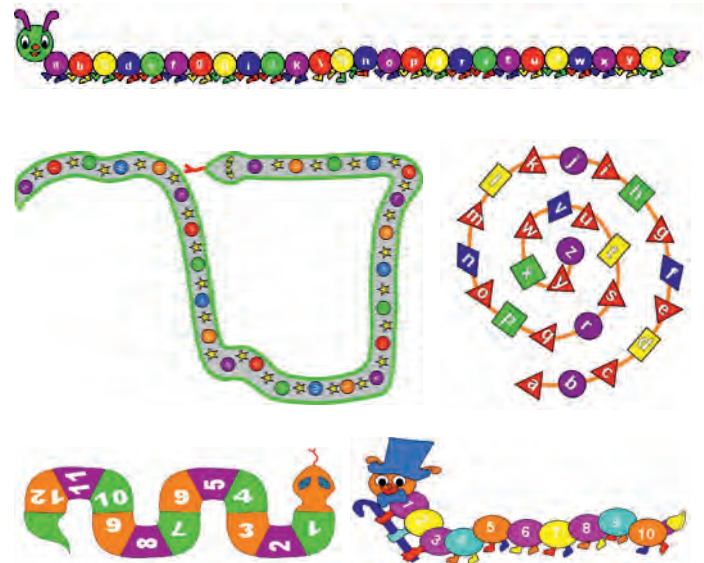

Around the World (8303/NP)

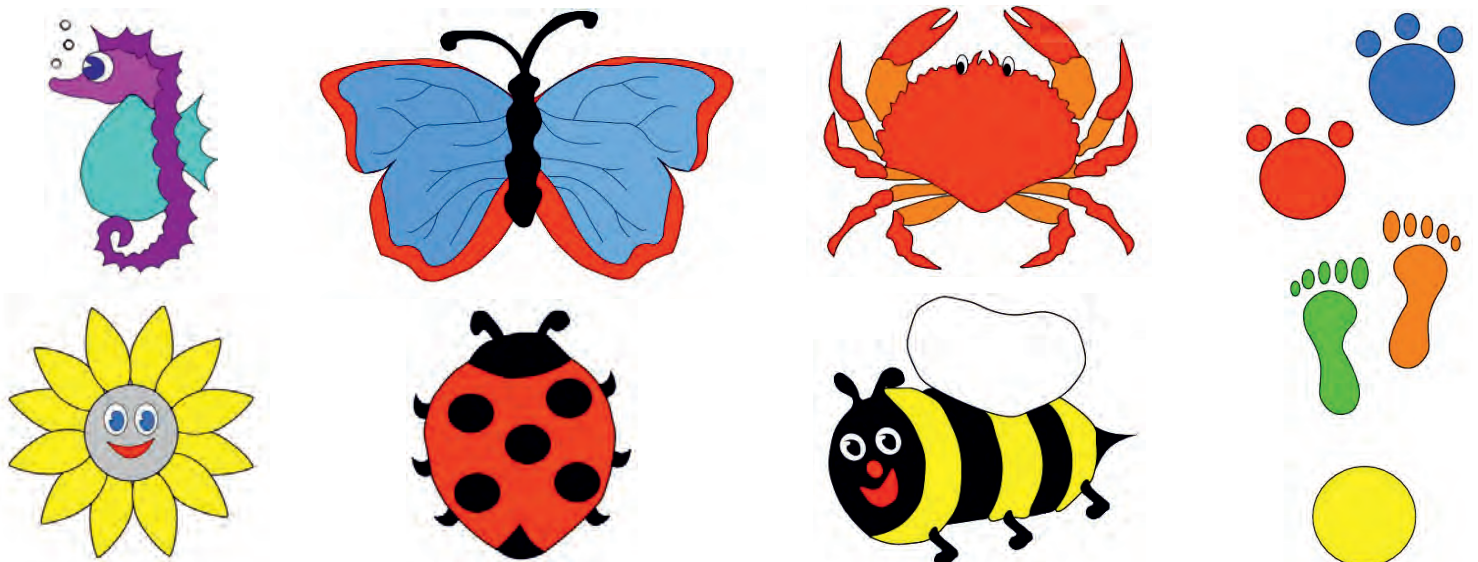

Target Games (8306/NP)

Numbers & Letters (8308/NP)

Just for Fun (8309/NP)

## Safety Surfacing

### Wetpour Rubber (8401)

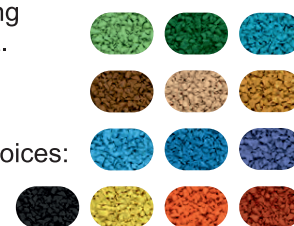

The Schoolscapes range of Safety Surfacing ensures that your play equipment installation complies the safety requirements of BS/EN1177. It can also enhance the Play Value of any outdoor space, enabling children to play outside in a clean, safe environment.

Wetpour Rubber is a safe and fun way to finish a playground. It is mixed on site and laid as a continuous surface. Colourful shapes, games and themes can be integrated into the surface to create bold, exciting space. It is suitable for any 'Critical Fall' Height up to 3m, the depth of surfacing required increases with the fall height.

#### Features:

- Impact absorption
- Porous
- Non slip
- Aesthetically pleasing
- Enhanced play value
- Low maintenance

#### Colour choices:

**Materials:** EPDM rubber granulate bound in polyurethane resin.

**Assembly:** Professional installation required

### Resin Bound Rubber Bark (8502)

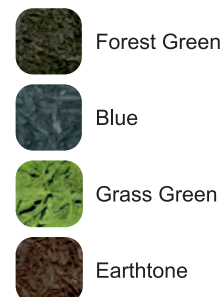

Resin Bound Rubber Bark is a colourful surfacing made from 100% recycled tyre buffings. It has the appearance of bark, but the lifespan of rubber surfaces, making it long lasting, cost effective and green. It is an attractive, versatile and almost maintenance free solution to a wide variety of applications. It can be laid to different thicknesses to cover a range of critical fall heights.

#### Features:

- No need for foundations, or specific ground preparation
- No need for heavy equipment on site
- Single layer coverage
- Retains no moisture and does not stay wet
- Mixed colour/ pattern options
- Natural looking aesthetic

#### Colour choices:

**Materials:** Recycled car tyres, resin, organic pigment to colour

**Assembly:** Professional installation required

### Cellular Rubber Matting (8501)

Cellular Rubber Matting is an easily installed, environmentally friendly, non-slip safety matting. It absorbs impact, shock and noise. It is a moulded non-slip cellular structure with excellent durability.

#### Features:

- Impact absorption
- Environmentally friendly
- Can be used on flat or contoured landscapes
- Non-slip surface with excellent durability
- Can be combined with Ground Stabilising Mesh where ground is unstable or boggy
- Allows water to drain through
- Wheelchair and pushchair accessible
- No costly base works
- Requires no special skills or tools allowing for quick and easy installation
- Prevents erosion to grass

**Materials:** Moulded, non-slip cellular rubber

**Assembly:** Assembly & groundworks required

## Synthetic Grass (8403)

Synthetic Grass is an ideal way to create a safe maintenance free play area. It is a durable and aesthetically pleasing solution for safety surfacing. Available in several different pile thicknesses, it represents an attractive and viable alternative to Wetpour Rubber.

Synthetic Grass can be installed with a foam 'shockpad' underneath to suite the fall height of your playground equipment. We have a full range of synthetic grass surfaces to provide you with everything from a simple all weather surface, right up to fully tested safer surfacing, both of which will give you all year round use.

### Features:

- Provides a safe surface for a range of fall heights
- Can be used on flat or contoured landscapes
- Excellent drainage allowing use in all weather conditions
- Low maintenance
- Simple to install
- Aesthetically pleasing

**Materials:** Soft polypropylene fibres infilled with sterile recycled rubber granules

**Assembly:** Professional installation required

## Loose Fill Rubber Bark (8503)

Loose Fill Rubber Bark is a colourful surface made from recycled industrial tyres, and has the appearance of bark but the life span of rubber surfaces. It is a durable replacement for natural bark, suitable under static play equipment, landscaped fitness trails, jogging paths, tree pits and shrub beds.

### Features:

- Anti fungal medium
- Very quick draining
- Curbs weed growth
- Simple to install
- Aesthetically pleasing

**Materials:** Recycled tyres

**Assembly:** Fully assembled

## Natural Bark (8504)

Natural tree bark is an ideal surface for natural play spaces. It is suitable for use under static play equipment, landscaped fitness trails, jogging paths, tree pits and shrub beds. It is attractive with a pleasant odour.

### Features:

- Provides a safe surface for a range of fall heights
- Quick draining
- Curbs weed growth
- Impact absorbing
- Easy to use and maintain

**Note:** Not suitable for all types of playground equipment or exposed sites.

**Materials:** Softwood Peelings or Bark Chip  
**Assembly:** Professional installation required

## Sand (8505)

Sand creates a great surface for natural play environments. It is aesthetically pleasing and suitable for a range of applications, including use under static play equipment, and for landscaped fitness trails or jogging paths.

### Features:

- Provides a safe surface for a range of fall heights
- Quick draining
- Impact absorbing
- Easy to use and maintain

**Note:** Not suitable for all types of playground equipment.

**Materials:** Play Sand (Silica Sand)

**Assembly:** Professional installation required
