# SENSORY PLAY

## Musical Instruments

### Chimes

Post Mounted Chimes (4401)

Wall Mounted Chimes (4403)

'Natural' Finish is available as an option

The Schoolscapes musical range is great for creating outdoor sound or musical sensory areas in a playground, sensory garden or communal park. The instruments are easy to play and can be installed individually or in groups to form a whole orchestra!

With a full octave, the beautiful soft metallic finish Chimes are a mellow sounding, colourful instrument to add to your musical area. They are tuned to the notes CDEFGABC, making it easy to make up and play tunes, and children will love performing on them to their friends.

3+

**Dimensions:** L: 1.10m W: 0.15m H: 1.60m

**Materials:** Pressure treated timber, zinc plated fixings, anodised aluminium

**Assembly:** Assembly & groundworks required, Wall Mounted: Assembly only  
Supplied with beater/s

### Double Sided Chimes (4402)

Schoolscapes' mellow sounding Chimes are available in a Double Sided version to allow larger groups to play.

Children can work together on either side of this instrument to learn favourite tunes, perform duets, or create their own compositions and play them to their friends or even the whole class. Up to four people can play this instrument at a time.

Combine a variety of Chimes and other instruments from the Schoolscapes range to produce a whole Outdoor Orchestra.

3+

**Dimensions:** L: 1.10m W: 0.22m H: 1.60m

**Materials:** Pressure treated timber, zinc plated fixings, anodised aluminium

**Assembly:** Assembly & groundworks required  
Supplied with beater/s

### Giant Chimes (4501/S)

The Giant Chimes create a great focal point within a Sensory Area. Tuned to the notes CDEGAC, they produce a deeper, more resonant tone when struck with your hand than the standard Chimes, and children can experience the sensation of vibration at more than just a 'hearing' level. They therefore have a wide appeal and are a great inclusive addition to your sensory area.

Standing at up to 2.2m tall (above the ground) the Giant Chimes are both impressive and exciting.

3+

**Dimensions:** H: 1.60m - 2.20m

**Materials:** Pressure treated timber, zinc plated fixings, anodised aluminium

**Assembly:** Assembly & groundworks required  
Supplied with beater/s

## Cymbals (4404/S)

Schoolscapes have designed this instrument with three sturdy Brass Cymbals securely mounted on a chunky timber frame.

The unit is angled towards the player to make playing easier. The cymbals are all different sizes and therefore produce different pitches of sound.

The Cymbals give a great contrast to the other softer, more mellow sounding instruments in the range, and allows an ensemble to work to a rhythm when combined with drum beats from one of the Schoolscapes Drumsets.

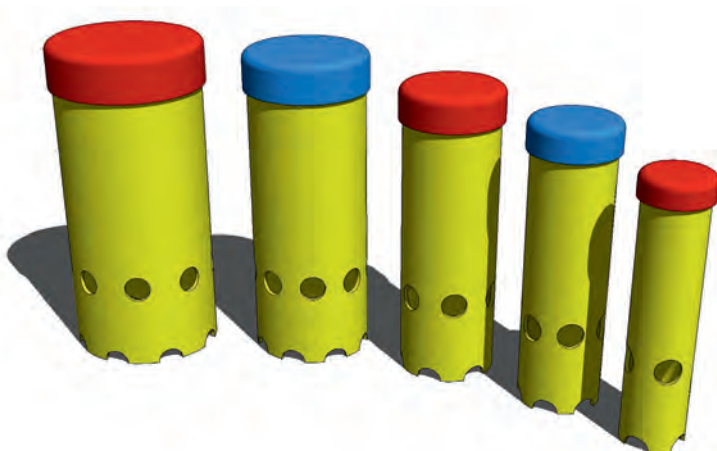

3+

**Dimensions:** L: 1.45m W: 0.55m H: 0.90m

**Materials:** Pressure treated timber, zinc plated fixings, brass with a clear laquered finish

**Assembly:** Assembly & groundworks required

## Tubano Drums (4707)

The Tubano Drums comprise of a set of five wonderful sounding drums that are fun, colourful, educational and easy to play. Each drum is a different diameter and produces its own characteristic response and sound. They are easy on the hand and make perfect outdoor musical instruments and sensory playground equipment for players of all ages.

The drums can be permanently installed into the ground at varying heights in a choice of arrangements to suit your needs, or supplied with a timber base.

3+

**Dimensions:** Dia: 0.17m- 0.40m H: dependant upon how deep into the ground they are installed

**Materials:** PVC heads

**Assembly:** Assembly & groundworks required

With optional timber base (4708)

## Drum Set (4505)

The Drum Set consist of three drums of different sizes, each making its own unique sound. It is a great addition to any sound and sensory environment.

This set produces a satisfyingly mellow tone and the Bass Drum is particularly deep and resonant. Wonderful fun!

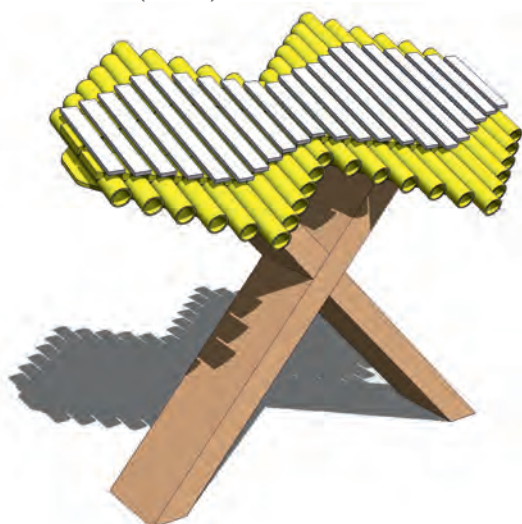

3+

**Dimensions:** W: 2.09m H: 1.00m

**Materials:** Heavy duty plastic

**Assembly:** Assembly & groundworks required

### Imbarimba (4601)

The Imbarimba is a unique musical design. The bars are arranged in the layout of the African 'Kalimba' or 'Mbimba' (thumb piano) with long bars in the middle and short bars on the ends. This allows both hands equal access to the upper and lower notes.

3+

The Imbarimba is pitched one octave above the Amadinda.

**Dimensions:** L: 1.10m W: 0.80m H: varies  
**Materials:** Pressure treated timber, aluminum

The instrument can be wall mounted (4601/WM) or set on a sturdy stand.

**Assembly:** Assembly & groundworks required. Wall Mounted: Assembly only  
 Supplied with beater/s

### Swirl (4603)

The Swirl is made of twenty-six resonant aluminum chimes in the key of C major, ranging in pitch from soprano to alto. The Swirl incorporates individual resonators for each chime, producing a rich tone and a truly magical sound.

3+

This instrument can be wall mounted (4603/WM) or set on a sturdy stand.

**Dimensions:** L: 1.40m W: 1.50m H: varies  
**Materials:** Pressure treated timber, aluminium bars

**Assembly:** Assembly & groundworks required. Wall Mounted: Assembly only  
 Supplied with beater/s

### Flying Amadinda (4605)

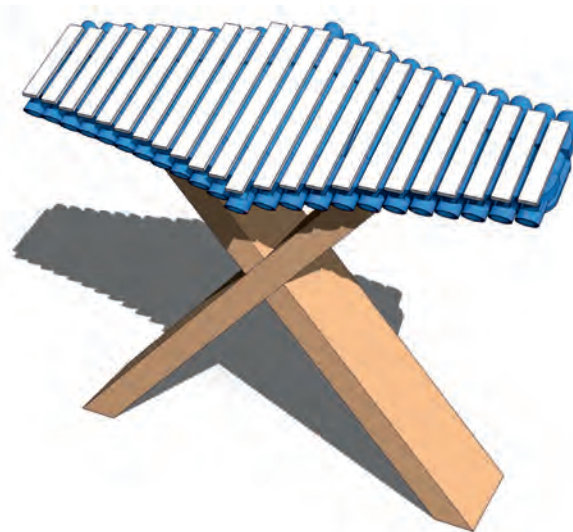

The Flying Amadinda's thirteen 20mm by 90mm bars are suspended between a sturdy frame. The coated steel cable suspending the bars is maintenance-free, and the bars themselves are made of weather-resistant IPE from sustainable sources.

3+

It is tuned to C major in the pentatonic scale.

**Dimensions:** L: 1.80m W: 1.10m H: varies  
**Materials:** Pressure treated timber, coated steel cable, weather resistant IPE  
**Assembly:** Assembly & groundworks required  
 Supplied with beater/s

### Pegasus (4606)

Metallophones have been used in music for hundreds of years. There are several different types used in Gamelan ensembles. This is a hefty metallophone made with twenty-three resonating aluminium bars in the key of C major.

3+

Pegasus can also be wall mounted (4607).

**Dimensions:** L: 1.20m W: 0.50m H: varies  
**Materials:** Pressure treated timber, aluminium bars  
**Assembly:** Assembly & groundworks required. Wall Mounted: Assembly only  
 Supplied with beater/s

## Eye Chimes (4701)

Stunning in both their towering appearance and low resonant sound, these seven chimes are pitched two octaves below middle C.

The Chimes range in height from 1.4m to 2.7m.

3+

**Dimensions:** H: 1.40m- 2.70m

**Materials:** 100mm dia heavy duty aluminium

**Assembly:** Assembly & groundworks required

Supplied with beater/s

## Amadinda (4704)

The Amadinda is inspired by a traditional pentatonic xylophone originating in Uganda, the name is derived from Ama (big) and Dinda (keys). It has large resonating chambers that give a deep and rich tone.

The bars of this instrument are made of weather resistant Ipe from sustainable sources, which performs well in an outdoor setting and stands up to hard use.

Tuned to C Major in the pentatonic scale.

3+

**Dimensions:** L: 1.60m W: 0.80m H: varies

**Materials:** Pressure treated timber, weather resistant IPE

**Assembly:** Assembly & groundworks required

Supplied with beater/s

## Manta Ray (4705)

The Manta Ray is an elegant aluminium Metallophone, with the same scale mirrored to the right and left sides.

It has a range of two octaves and a fifth with the scale in major C, making it a delight to play.

3+

**Dimensions:** L: 1.60m W: 0.50m

**Materials:** Aluminium, coated steel cable, stainless steel frame

**Assembly:** Assembly & groundworks required

Supplied with beater/s

## Visual, Sound & Touch

### Talking Tubes (4803/ 4804)

Lion (4803)

Flower (4804)

These Talking Tubes are a great addition to the playground encouraging children to communicate with one another in a fun way, and promote social interaction.

Each set of Talking Tubes consists of two themed talking posts connected to one another under the ground by a tube. The posts can be a maximum of 10m apart.

3+

**Dimensions:** W: 0.25m H: 1.00m

**Materials:** HDPE plastic, powder coated steel tube

**Assembly:** Assembly & groundworks required

Lion Talking Tubes (4803)

Flower Talking Tubes (4804)

## Visual, Sound & Touch

### Bubble Mirror (4805)

The nine convex bubbles of the Bubble Mirror gives children a fly's eye view of the world! Do not site in direct sunlight.

**Dimensions:** L: 0.82m W: 0.82m  
**Materials:** Pressure treated timber, zinc plated fixings, mirror finish plastic  
**Assembly:** Assembly only  
 Ideally installed into an area of dappled shade

### Spheres (4807/4808)

Children can sit, stand or lie on these large spheres and gaze into them, to see the curved reflection of their world. Do not site in direct sunlight.

**Dimensions:** Dia: 0.60m/ 1.00m  
**Materials:** Mirror polished stainless steel  
**Assembly:** Assembly & groundworks required  
 Ideally installed into an area of dappled shade

## Themed Mirrors

Our colourful and imaginative range of Themed Mirrors adds fun to any play area, indoors or outdoors. Children will love the bold colours and fun shapes.

Mirrors are a provide a great tool for reflecting light into darker areas of your playground.
