Personal Protection and Gloves

Gloves

Lightly Powdered Gloves

Manufacturing for the Latex Lightly Powdered includes multiple wash stages to reduce surface proteins imparting a degree of hypo-allergenicity to the finished product. The main features are excellent grip and ease of donning.

Latex and Vinyl Medical Gloves AQL 1.5

	Size	Code	U.O.S	Price	Price 10+

Latex Powder Free Gloves

Manufacturing includes multiple wash stages to reduce surface proteins imparting a degree of hypo-allergenicity to the finished product. A main feature of Powder Free Latex Gloves is the textured surface, with the exception of polymer-coated gloves, which are smooth. The texturing of the surface coupled with production techniques is designed to enhance the gripping ability.

Paper Disposables

Barrier Healthcare offers a range of couch rolls and hygiene rolls made from top quality pure and recycled paper and offering extremely good value to suit all budgets. Whilst the Delta and Barrier products are well established in the market we have now launched a new technology product called Firona EB1000, an embossed and bonded couch roll offering added strength and softness. See below for more information.

Delta Couch & Hygiene Rolls

	Code	U.O.S	Price
White 20" Couch 2 Ply 125 Perforated Sheets 50x38cm (48m)	E760	9 Rolls/Ctn	£18.00
White 10" Hygiene 2 Ply 125 Perforated Sheets 25x35cm (48m)	E411	18 Rolls/Ctn	£18.00
Blue 20" Couch 2 Ply 125 Perforated Sheets 50x38cm (48m)	E650	9 Rolls/Ctn	£20.00
Blue 10" Hygiene 2 Ply 125 Perforated Sheets 25x35cm (48m)	E325	18 Rolls/Ctn	£20.00

****More meterage per roll equivalent to £15.00 per 9x40m roll or £12.00 for a 9x32m roll (White only)****

Barrier Couch & Hygiene Rolls

	Code	U.O.S	Price
White 20" Couch 2 Ply 132 Perforated Sheets 50x40cm (50m)	3357	9 Rolls/Ctn	£21.50/Ctn
			Buy 4 @ £20.50/Ctn
White 10" Hygiene 2 Ply 132 Perforated Sheets 25x40cm (50cm)	3358	18 Rolls/Ctn	£21.50/Ctn
			Buy 4@ £20.50/Ctn

Equivalent to £17.20 per 9x40m roll or £13.76 per 9x32m roll

Firona-EB (Re-branded)

	Code	U.O.S	Price
White 20" Couch 2 Ply 134 Perforated Sheets 50x35cm (46m)	EB1000	9 Rolls/Ctn	£20.50
White 10" Hygiene 2 Ply 134 Perforated Sheets 25x35cm (46m)	EB500	18 Rolls/Ctn	£20.50

Equivalent to £17.83 per 9x40m roll and £14.26 per 9x32m roll

This New EB1000 (Bonded and Embossed) Couch Roll is designed to eliminate the separation of the 2 ply, improve the perforations without uneven tearing plus offer a tougher yet softer product, making it ideally suited to all types of surgeries.

Laminated Couch/Hygiene Rolls

Laminated rolls come as 1 ply blue or white polythene on paper on a 50m roll of 132 perforated sheets. A versatile product offering increased protection to couch and bed linen or as single sheets for smaller tasks.

	Code	U.O.S	Price

Instrument disinfectants

Perisafe Powder

A powder system for the safe and rapid sterilisation of medical devices. The active agents are formed by dissolving the powder in water giving an aqueous solution. PeraSafe is proven effective against bacteria (including mycobacteria), viruses, spores and fungi, is non-damaging to sensitive instruments and is compatible with automated endoscope reprocessors.

PeraSafe's unique formulation confers the benefit of user compatibility being virtually odour-free and non-sensitising whilst retaining the effectiveness of peracetic acid. A sophisticated corrosion-inhibition system allied to a near neutral pH allows sterilisation of stainless steel rigid endoscopes and other equipment through brief immersion in PeraSafe solution. PeraSafe powder saves storage space and transportation cost. A rapid, broad spectrum sterilant, instrument and equipment compatible, PeraSafe is cost-effective and safe for users, patients and the environment.

Code	U.O.S	Price
UND12554755	81g/tub	£5.86

Stabimed - 0.5% LOW CONCENTRATE ACTIVITY

Stabimed is for disinfection of Instruments. Free of aldehydes, Quaternary Ammonium Compounds, Phenols & Biguanidines. Effective against Bacteria, Tuberculosis, Fungus and Viruses (incl. HIV & HBV) at low conc. Can be used in Ultrasonic Baths. Remains effective for 14 days. Contains corrosion inhibitors to protect equipment.

Hard Surface Disinfectant Wipes & Liquids

Surface Disinfectants (Wipes)

Meliseptol HVB Tissues with Propan-1-ol & QAC's

These are wipes soaked in **Meliseptol Rapid** disinfectant offering rapid disinfection and are appropriate for use in small surface areas as found in doctors and dental surgeries. Surfaces should be allowed to dry naturally which should take approx. 1 minute. Surfaces should not be wiped dry. This is an environmentally friendly product, also offering a refill pack.

Surface Disinfectants (Liquids)

Meliseptol Rapid

A fast acting Alcohol and Quarternary Ammonium Compound based disinfectant ready to use in a convenient trigger spray. Meliseptol Rapid kill bacteria, TB, fungi and viruses including Hep V, HIV, Rota Virus, Adeno virus and Vaccinia virus in less than a minute. It requires 5 minutes for it to be effective against Papova virus. Meliseptol Rapid is both Aldehyde and Alkylamine free. The solution is used undiluted whenever equipment or surfaces require quick and effective disinfection. The addition of QAC's mean that disinfection continues after the alcohol has evaporated.

• Pseudomonas			
• Enterococcus			
• Salmonella			

Hexaquart Plus

The addition of Amines to Hexaquart Plus reduces the quantity of QAC's thereby reducing the maintenance required, particularly on floors, without loss of efficacy of the product. Hexaquart Plus offers a broad spectrum of action against bacteria (incl. TB) Fungi and viruses (incl. HIV & HBV). For maximum effectiveness leave surfaces to dry without wiping. Hexaquart Plus has a pleasant lemon fragrance.

Hexaquart S

Hexaquart S is an all-purpose disinfectant concentrate for the prevention of cross infection. Due to a special combination of quaternary ammonium compounds, Hexaquart S is effective against bacteria, fungi, algae and lipophilic viruses. Thanks to its cleaning and disinfection qualities, and pleasant pine fragrance, Hexaquart S is particularly suitable for the surface treatment of medical baths and swimming pools. Excellent skin tolerance and neutral pH make Hexaquart S the product of choice when it comes to disinfecting shoes and socks, as well as in the prevention of fungal skin infections (licensed by BfArM and BAG for the prevention of athlete's foot).

TriGene ADVANCE High Level Surface Disinfectant

TriGene ADVANCE disinfectant is a revolutionary new disinfectant this is a safer, simpler and more secure product than the original TriGene formulation. It is based on nano-emulsion technology, enabling the active ingredients to be carried rapidly through cell walls of micro-organisms. The synergistic blend of active ingredients produces the fastest acting and most efficient virucidal and sporicidal disinfectant available in non-oxidising technology. TriGene ADVANCE is certified Sporicidal, Mycobactericidal, Virucidal, Fungicidal and Bactericidal under EN and HIRL protocols. It breaks down and inactivates DNA/RNA. TriGene ADVANCE is available as concentrate and Ready to Use formulations.

Cryosurgery Cryoalfa

**Cryoalfa kits
now only
£245.00**

A user friendly trigger operated non contact cryosurgical appliance that allows the operator to have full control over the release of the cryogen (N2O) nitrous oxide, during treatment.

The Cryoalfa-S kit (pictured) includes 4 x 16g N2O cylinders plus the applicator. Cryoalfa operates at -89°C as illustrated, which shows a gradient to -40°C at 3mm depth. Cryoalfa-S is operated at a distance off the skin of approx 1mm. The Cryoalfa-SK is a contact applicator used primarily in cosmetic treatment with the cryogen injected into the head of the applicator which then freezes the tissue it makes contact with.

FAQ

Is the indication for treatment with CRYOALFA the same as the indications for treatment with liquid nitrogen?

Abstract from "Simplified technology for cryotherapy"*** by Prof.Dr.Hundeiker: The method is as comparably effective as therapy with N2 in important dermatological day-to-day indications, e.g. small capillary hemangiomas, papillomas, keratoses, basilomas, naevis, verrucae vulgares, angiomas.

How many treatments can be implemented with one cartridge of 16g N2O?

With one cartridge several lesions or patients can be treated at a relatively low cost. One cartridge provides approx. over 8 minutes cooling power without interrupting the N2O flow.

What technical set-up do CRYOALFA devices offer in getting reproducible results?

CRYOALFA works with the following parameters in getting reproducible results:

- constant temperature of -89°C/-128 °F ***
- constant pressure at around 50 bar until the cartridge is empty

What is the shelf life of cartridges?

Supply and storage of small cartridges is simple; store at room temperature (not above 50 °C). After storage of one year the cartridges have a gas loss of about 5% due to technical reasons.

Which purity does the refrigerant N2O use for CRYOALFA devices?

Our cartridges with an inbuilt filter contain sterile gas (medicinal gas sterile-filtered to 5), free of Detritus). These are produced by LINDE AG exclusively for Cryoswiss/Switzerland.

How long is the treatment?

It is a matter of experience. When first using CRYOALFA therapy try using on yourself, on the back of your hand for 1-2 seconds to see and feel the results. To consider: we achieve after freezing for 12 sec a diameter of 10 mm and a tissue's depth of 3mm which achieves -40°C by 100k/min freezing speed. This temperature is necessary for the desired tissue destruction (maligne or benign cells).

Cryosurgery

New Dermafreeze Cryosurgery System

The Dermafreeze portable cryosurgery kit is a cost effective alternative to liquid nitrogen and offers a highly effective patent pending Cryofunnel delivery system to treat a variety of benign skin lesions. The NEW kit also offers Cryotips (foam tipped applicator system), which can be used with Dermafreeze as well a liquid nitrogen for added flexibility and additional cost saving treatment options.

The kit includes: 1 x 200ml Dermafreeze Aerosol Canister; 30 x Original Cryofunnel Triangles; 20 x 2mm Cryotips (Foam Tipped Applicators) and 20 x 5mm Cryotips (Foam Tipped Applicators).

	Code	U.O.S	Price
Dermafreeze Cryosurgery Kit	DFK200-02	Per Kit	£52.45
Dermafreeze Cryosurgery Refill	DFR-55	Each	£31.45
Dermafreeze 2mm Tips	DFT-2	20/Pack	£10.50
Dermafreeze 5mm Tips	DFT-5	20/Pack	£10.50
Dermafreeze Funnels	DFR-60	26/Pack	£10.50

Derma-Freeze unlike other aerosol cryogen dispenser kits is now available in components so there is no need to discard any unused tips, funnels or gas. After purchasing this most competitive of aerosol kits you only need to order replacements.

Physiotherapy Products

New Product

The method of Balance Taping has become the “golden standard” for therapeutic rehabilitative taping. Today, Balance Taping is used in hospitals, universities, colleges and athletic clubs all over the world, and by well-known sports personalities such as Lance Armstrong and David Beckham. It was also used during the Olympic Games in Beijing.

The greatest benefit of the tape is that it begins working as soon as it is correctly applied, with practically no side effects.

- **Normalizing muscle function**
- **Improved flow of blood, lymph and intercellular fluids**
- **Reduces pain**
- **Helps to balance joints**

To learn the Balance taping technique, we offer training seminars in different UK locations. For information on seminars please contact our office.

The qualities of the tape

- **100 % cotton** (100% high-quality cotton allows skin to breathe.)
- **Water repellent** (Offers extended wear (up to 7 days) without loss of benefit).
- **Latex free adhesive** (Eliminates the potential for Latex Allergy problems. Instead of latex adhesive, we blend the cotton fibres with Urethane (plastic). A totally Latex Free product is our way of ensuring we do not sensitise users to latex.
- **Non-toxic** (The adhesive in HEGU Balance Tape is a non-toxic vegetable product called Termsol, (part of the terpene class)).
- **Different colours** (HEGU Balance Tape is available in eight different pure colours and may be used in colour therapy).

HEGU-Balance Tape

Balance Taping Educational Programmes

Course outlines. £125.00 per level.

Training courses

Level 1 (1 Day) 7hrs CPD

Step 1 (Part 1)

- Background of Balance Taping
- Theoretical introduction in to the basic techniques
- Practical introduction in to the application techniques
- Practical introduction in to the handling of the material
- Basic back taping techniques
- Shoulder and upper extremities
- Lower extremities with knee and ankle
- Summary

Level 2 (1 Day) 7hrs CPD

Step 1 (Part 2)

- Short repetition of the basic tapes
- Discussion of specific applications and questions

Step 2

- More specific correctional techniques
- Lymphatic taping techniques
- Pregnancy techniques
- Sport injury techniques
- Discussion of specific problems and holistic application thoughts
- Practice

Organise your own course

If you have 14 or more colleagues to train we can organise a course to suit your requirements, just email, call or write.

Haven't got enough? We keep a list of interested practitioners from around the country who are looking for a course so call us.

HEGU-Acupuncture Needles

S & P Type

- Our newest, high-quality Japanese type acupuncture needles
- Lightweight with longer, thicker plastic handles making them easier to manipulate
- Colour-coded handles make it easier to identify dimension
- High-precision nail head
- Micro-polished, DDS-plated for painless insertion
- Hegu S Type – the same qualities as Hegu P Type, but with stainless steel handles, instead of colour-coded plastic

Prices starting from £7.45/Box 100 for S Type and £7.10/Box 100 for P Type

Needle Code	Handle Type	Size	Price/100
HG21.15S	Steel with tube	0.20 x 15mm	£7.45

Topical pain-relieving gel

Flexall gels are versatile enough to aid in treating the acute, sub-acute, and chronic stages of injury. Flexall delivers fast, lasting relief; offers an effective counter irritation to pain by providing a cool sensation followed by a deeper heat; and soothe and relax sore muscles by increasing local blood flow. The Flexall aloe vera gel formulas with Vitamin E absorb quickly and completely, are greaseless, non-staining, and gentle on the skin.

The choice of America's professional sports teams.

Flexall treats:

- Arthritic pain
- Backache
- Tendonitis
- Sprains and strains

Hapla Fleecy Web

100% Cotton Padding with a raised fleecy surface – widely used to protect sore and tender skin from friction and rubbing. Transverse stretch allows Fleecy Web to conform to the skin, which prevents creasing and provides comfort. Bag of 4 Sheets 22.5 cm x 40cm.

	Code	U.O.S	Price
Hapla Fleecy Web	CG950	4/Pack	£7.50

Hapla felt

Pure 100% wool is used as a highly versatile padding, which can be easily cut and shaped providing excellent pressure absorption. Available in two densities – Soft and semi-compressed. New type felts are a mixture of wool and viscose, which provides a cost effective alternative to 100% wool felt with good performance. Units of 4 sheets of 22.5 x 45cm per pack. Various other sizes and prices available on request.

Care & Nursing Home Products

Febus Incontinence Briefs

Febus incontinence pads are manufactured using the latest technological developments, designed for the well being of incontinent patients. They feature two absorption cores made up of extra absorbent cellulose and polymers. The upper core, located in the micturition area, is designed to be more absorbent and together with its leak proof barriers, ensure that the liquid is absorbed immediately, therefore avoiding skin problems.

The garment is made with an impervious polyethylene layer that prevents leakage from the absorbent cores. The pads have elastic fittings on the sides and around the waist to ensure they adapt perfectly to the patient's anatomy, thereby improving comfort and mobility. These pads also include a moisture indicator that displays when the briefs need changing.

	Code	U.O.S	Price
Elasticated Brief 50-80cm Day	ALB0520	80/Pk	£15.00
Elasticated Brief 50-80cm Night	ALB0521	80/Pk	£15.00

Elasticated Brief 90-150cm Night	ALB0525	80/Pk	£20.00
Elasticated Brief 90-150cm Supernight	ALB0527	80/Pk	£21.00

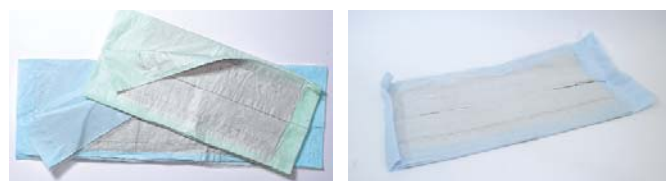

Febus Anatomic Incontinence Pads

The garment's anatomically shaped design enables it to adapt perfectly to the patient's anatomy. It is discreet, making it especially well suited for cases of moderated and light incontinence, in both ambulant and bedridden patients. To hold the pad in place, cotton mesh pants are included with every 20 units. These pads also include a moisture indicator that displays when they should be changed.
