JetSuite™ Currency & Ticket Processing System

Process tickets and currency from around the world

JetTouch® Workstation

Universal JetScan™ 4391

The JetSuite™ system makes quick work of counting and reading multiple currencies and tickets.

The Universal JetScan™ 4391 separates tickets and currency at 1,000 notes per minute. Tickets are sent to the top pocket, notes are sent to the bottom - all currency and ticket data are captured. The JetScan™ 4391 can be used as a stand alone system or in conjunction with the JetTouch® Workstation.

Manages all of your currency processing.

The JetSuite System is flexible and allows casinos to purchase only the equipment they need. Dependent upon the needs of the casino, the JetScan 4391 can be sold as a stand alone unit or with the JetTouch Workstation.

The JetScan 4391 Interfaces Directly with the Casino's Tracking System - Instantly Exporting Ticket Data

- 1 Mixed currency and tickets from slot machines, ticket kiosks and cash drawers are ready for processing.

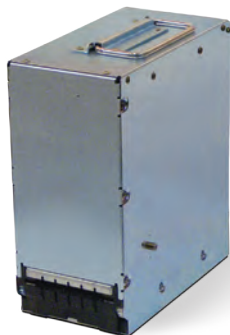

- 2 The JetScan™ 4391 automatically separates tickets from currency. A data stream that includes both ticket and currency data is sent to the gaming system.

- 3 Currency and ticket totals are reconciled with the casino's gaming system.

The JetScan 4391 can be Connected to the JetTouch Workstation, which builds both Currency and Ticket Files

- 1 Mixed currency and tickets from slot machines, ticket kiosks and cash drawers are ready for processing.

- 2 Currency and tickets are automatically separated, counted and read by the JetScan currency scanner. Account numbers can also be entered with the currency and tickets using an external bar code gun or control document cards.

- 3 The JetTouch workstation builds currency and ticket data files that match the requirements of the casino's gaming system.

JetSuite™ Cash Processing System

Specifications*

Universal JetScan™ Two-Pocket Currency Scanner

- Speed: 1,000 notes per minute
- Top Hopper Capacity: 700 circulated notes
- Pockets 1 & 2: 150 circulated notes (each)
- Display: Illuminated, touch panel display
- Dimensions (W x D x H):
29.2cm x 43.2cm x 45.7cm
- Weight: 16kg
- Document Size: Height: 61-96.5mm
Length: 114-178mm

JetTouch® Workstation

- 15" Adjustable LCD touch screen color monitor
- 1.2 Ghz Processor, 40 Gig hard drive
- 256MB Ram
- Windows XP operating system
- Small footprint (W x D x H):
30.5cm x 38.1cm x 30.5cm
- Weight: 8.6kg
- 4 serial comm. ports, 1 parallel comm. port
- 10/100 Mb ethernet network card
- 4 USB ports: 2 in front, 2 in back
- PS/2 mouse and keyboard ports
- Additional VGA port for external display support

Power: Voltage operating range is 198-253VAC. Frequency is 50/60Hz. Customer must provide grounded power line protected by properly grounded 15-amp circuit breaker in compliance with applicable local electrical code. Customer must plug three-prong grounded plug (supplied) into properly grounded outlet. Power consumption (full load amps) at nominal line voltage: 1.5/1.0A. Power disruptions causing input voltage other than listed in power requirements can lead to improper operation of this device, damage to electrical components, and failure. Such power disruptions are not covered under the machine warranty or preventative maintenance agreement for this device. Power conditioning/stabilizing devices are available for purchase from Cummins-Allison Corp.

Features

Universal JetScan™ Two-Pocket Currency Scanner

Enhanced Denominating Sensors — Provides high speed denomination recognition of faced or unfaced notes.

Adjustable strap (batch) stops — Separate strap (batch) stops can be established for each denomination.

Four levels of memory — Keeps separate totals for: Sub-Batches, Batches, Day Totals and Strap (Batch) Limits. All four are maintained during brownouts and power failures.

JetTouch® Workstation

Built in Reports — The JetTouch Workstation records all transaction activity and provides reports and totals, which can be viewed, printed or exported on demand.

Supports Multiple Devices — JetScan, JetSort, printers, bar code scanners and networks. An external display can also be connected for surveillance purposes.

File Exporting and Interfacing — Files are exported via a network connection or serially with a variety of data exporting options. The JetTouch Workstation also offers direct interfaces to many financial, gaming and retail host software systems.

Dual Count Mode — The JetTouch Workstation allows the user to process each transaction in a Dual Count mode for double verification and added accountability.
