Connection Software

CURRENCY ENTRY

\$1's	27
\$2's	0
\$5's	45
\$10's	40
\$20's	220
\$50's	50
\$100's	200
Total Value	582

Currency details and totals flow instantly and accurately from JetScan to your existing screen.

Speeds Processing and Eliminates Keyboard Errors

JetWedge inserts money-processing data from your JetScan or JetSort into your existing computer screen. In an instant!

Not only is your current software's functionality maintained, it is significantly increased. Coin or currency information that previously was entered by hand is now inserted instantly, completely and accurately.

JetWedge speeds processing and eliminates keyboard errors. It can also reduce operator training. JetWedge enters all the data every time! Instantly, accurately and without errors or omissions.

It works on your existing PC based system without requiring changes to your current software or hardware.

CA CUMMINS *JetWedge™* Connection Software

*JetWedge can be used with any of
these Cummins Products*

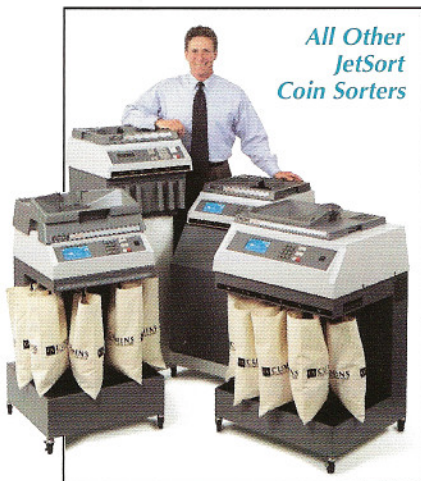

*JetScan
Currency
Scanners.*

*JetSort 1000
Coin Sorters*

*All Other
JetSort
Coin Sorters*

Now you can connect advanced Cummins coin and currency-handling products to your existing software without making any changes to your current system.

Money processing details and/or totals from a JetScan or JetSort flow quickly and accurately into your operating software. No extra keystrokes or transposed keystrokes resulting in incorrect entries. JetWedge inserts all selected data from each transaction, every time.

What is JetWedge?

It is a special software package that connects a JetScan/JetSort to your existing system via a serial port. In use, JetWedge takes coin/currency data from the Cummins product and automatically inserts this information in the appropriate fields on your existing computer screen.

Better than a hardware wedge, JetWedge can be adapted to changes in your host software system easily and immediately — without requiring the preparation and installation of the special PROM's needed for changes to a hardware wedge.

JetWedge Benefits

- Speeds Processing
- Eliminates Keystroke Errors
- Maximizes your PC's Efficiency
- Inserts all specified data for every transaction.
- Frees staff time and attention for better customer service.

JetWedge is Used Everywhere
